NOTES: 03/28/1996; Although the acres are claimed as licensed, it appears that the licensed acres may have been in error. For instance, the claimant's house is in the NE ~~1/4~~ SW, yet 40 acres were licensed in that QQ. Regardless, the ASCS map supports use as recommended in tracing where the acres are located. The claimant indicated that the only field which cannot receive well water is the field located to the south of the house. ~~that~~ No additional acres irrigated - BLV exam discusses delivery ~~system~~ as picking up wastewater & pumped to sprinklers (poor quality copy - difficult to read). It appears that well water is used in the same manner as described in the BLV exam & that the BLV exam did not locate the acres correctly. ~~that~~ Acres determined from ASCS 1987 map using Lasico planimeter Model no 42P, Serial No. 6-90848, IDNR NO. 149696. SUBJECT: Access irrigated w/ GW

EMPLOYEE: T. T. INICUCCI

DATE: 03/27/1996

Mr. Baird returned my call & we discussed the delivery ~~system~~ system for this water right. He indicated that well water can reach all of the fields except for the field directly to the south of the house. There is a ~~map~~ relief area on the southeast side of the field to the west of the house. This water, which is from the well and/or the irrigation district, is then used on the fields to the west & south (not north).

The small triangular piece of ~~area~~ ASCS field no. 5 which extends into the SWNW of S. 10 has since been fenced off & is not irrigated by the claimants.

Mr. Baird also confirmed that the well is located by the house.
