

IN THE DISTRICT COURT OF THE FIFTH JUDICIAL DISTRICT OF THE STATE OF IDAHO,
IN AND FOR THE COUNTY OF TWIN FALLS

IN RE THE GENERAL ADJUDICATION
OF RIGHTS TO THE USE OF WATER FROM
THE SNAKE RIVER BASIN WATER SYSTEM.

CIVIL CASE NUMBER: 39576

Ident. Number: A63-05215
Date Received: 8/08/1989
Receipt No: C009077
Received By: _____

NOTICE OF CLAIM TO A WATER RIGHT
ACQUIRED UNDER STATE LAW

1. Name: OLIVER GREGERSON 208-342-1979
Address: 6275 WARM SPRINGS AVE.
BOISE, ID 83712

2. Date of Priority: MAR 15, 1958

3. Source: GROUNDWATER Trib. to:

4. Point of Diversion:

Township	Range	Section	1/4 of	1/4 of	1/4 of	Lot	County
03N	03E	33	SW	NE	NW		ADA

5. Description of diverting works:
WELL, 18", 30' DEEP, 5 HP PUMP

6. Water is used for the following purposes:

Purpose	From	To	C.F.S.	(or)	A.F.A.
IRRIGATION	03/15	11/15	0.800		
DOMESTIC	01/01	12/31	0.040		

7. Total Quantity Appropriated is:
0.840 C.F.S. (and/or) A.F.A.

8. Total consumptive use is 280.0 Acre Feet Per Annum.

9. Non-irrigation uses:
1 HOUSEHOLD

10. Place of Use:

Township	Range	Section	1/4 of	1/4 of	Lot	Use	Acres
03N	03E	28	SW	SW		IRR	15.0
			SE	SW		IRR	15.0

Section Acres 30.0

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES

CLAIM TO A WATER RIGHT

Under the provisions of Section 42-243, Idaho Code, any person using or claiming rights to the public waters of Idaho established by diversion and application to a beneficial use must file a claim with the Department of Water Resources on or before June 30, 1983. Exempted from this filing are single family domestic uses as defined in Section 42-230(d), Idaho Code. Also exempted are rights represented by a permit, license, decree, adjudicated right, or a previously filed claim.

The filing of this claim does not confirm the water right claimed but failure to file may result in forfeiture of a water right.

Notice is hereby given that OLIVER GREGGERSON

(Name of Claimant)

6275 WARM SPRINGS AVE. 83702 Telephone No. 342-1979

(Mailing Address)

(Zip Code)

claims a right to the diversion and beneficial use of the surface or ground water. The extent and nature of said claim is as follows:

- (1) Date of priority: (When was the water first applied to a beneficial use) 3/15/58

A claim is not acceptable on a ground water source with a priority later than March 25, 1963 or on a surface water source with a priority later than May 20, 1971. An exception is that a claim may be filed on single family domestic use from a ground water source.

- (2) Describe the source of water: (Name of stream, lake, spring, etc., or ground water)

GROUND WATER tributary to

- (3) Describe the purpose for which the water has been used and the time during the year when you have used the right claimed:

Quantity	(cfs, af)	Use	(Domestic, Irrigation, Stock, Etc.)	(Both dates inclusive)	
				(Mo., Day)	(Mo., Day)
Quantity <u>.04 CFS.</u>		Use <u>DOMESTIC</u>		Period of Use From <u>1-1</u>	To <u>12-31</u>
Quantity <u>.80 CFS.</u>		Use <u>IRRIGATION</u>		Period of Use From <u>3-15</u>	To <u>11-15</u>

MEMORANDUM

TO: ADJUDICATION FILES 63-5210 and 635215

FROM: DANIEL A. NELSON

DATE: 8/11/06

SUBJECT: FIELD EXAMINATION

On 8/4/2006 I visited the property of Oliver Gregerson to field examine the two adjudication claims listed above. Both systems are for the same property, but are separate, except for heating purposes in the home. I have described each water right below.

63-5215

This claim was filed for irrigation of 70 acres and domestic use for one home. During my field examination, I found 14.9 acres irrigated. Many of the acres irrigated were not traditional row type crops, but native and non-native plants being irrigated for the owner's exotic deer, butterflies, cougars, and other various animals. Therefore, I contend that this is actual irrigation, since it is being used for feed and habitat type plants/crops.

The 70 acres described in the claim was for the owner's entire tax lot or property. There are two pastures southwest of the house along the river being irrigated, a tree lot pasture and deer pen east and southeast of the home, and two large fields running along the river southeast of the home. There is also some yard irrigation, and all of the pens are being irrigated. When adding all these areas up, I found a total of 14.9 acres irrigated. Please see the map for the number of acres per 40-acre tract. The owner did tell me that the large area north of the home and east of the driveway was irrigated at one time, but there was no significant evidence of piping or sprinklers located in this area, and the area was filled with building materials and abandoned vehicles. Therefore, I couldn't recommend these acres.

The water used for irrigation of this property is run totally through a 15 Hp irrigation pump, from a 37 feet well. I measured the lift of this pump at 16 feet lift, and the pressure at 50 psi per the owner's gauge. I was able to measure this system using the polysonic unit, and came up with a flow rate of 97 gpm or 0.22 cfs. The owner told me that he used 32 nozzles per line, but didn't know the nozzle size. Assuming that the pressure on this system varies approximately 10 psi from the beginning of the system to the end, this flow rate would match an 1/8 inch nozzle. The owner seemed to agree that this was very close to the actual flow rate. Therefore, I recommend that the irrigation portion of this claim be recommended for 0.22 cfs and 67.1 afa for the 14.9 acres of irrigation. The standard volume of 4.5 acre feet per acre was used to determine the volume.

The domestic use for this system was also taken out of this well. There were two identical pumps on this system, that each had the capacity of 0.036 cfs. The irrigation component for the domestic use is already covered, therefore the domestic use should be limited to the standard allowable or 0.02 cfs and 0.6 afa for a single home.

The totals rate and volume for this right should be 0.24 cfs and 67.7 afa. PLEASE NOTE: You may want to consider this well tributary to the Boise River. The well is locate less than 25 feet from the river, and is only 37 feet deep. The water level in the well is the same water level as the river, so there is no doubt that the two are hydraulically connected.

63-5210

This claim was filed for heating purposes and domestic use. The water comes from a hot well located further north of the home. The owner told me that the well had collapsed and he had been trying to get it cleaned out or re-drilled. The owner informed me that the depth to water in the well was about the same level as the irrigation well described in the other right. However, in looking at the quadrangle maps, I determined that if the water level was the same as the other well, there would have to be an accounting for the 20 feet of elevation difference between the two wells. Therefore, I calculated the flow of this well using a total lift of 36 feet, which matched several other well logs in the area, so I pretty confident with these estimates. I also used the same pressure used from the other system, since it would be mixing with the cold water system in the house. The owner had a sign on the well house that said that the water temperature was 56 degrees Celsius, which converts to 132 degrees Fahrenheit. My theoretical calculation shows a system capacity of 0.03 cfs for this well.

The owner also informed me that water was used to heat his 60 X 125 foot home. From the aerial photography, I would estimate the home to be 45 X 125 feet, but aerial photos can be deceiving. Therefore, I went with the owner's numbers. The owner also told me that he used the water to heat 6 – 25 X 100 ft cougar pens. Therefore, I also calculated the use for these pens when I calculated the hot water usage. I used the departments heating and cooling spreadsheet to determine the hot water needs for this system. The two spreadsheets show that in order to heat the home and the cougar pens, the claimant would need 0.03 cfs and 10.6 afa. The theoretical calculation on the pump allows 0.03 cfs, so I am convinced that this system was designed for the determined rate and volume.

I would recommend the heating component of this water right for 0.03 cfs and 10.6 afa. I would recommend the domestic use as the usual standard of 0.02 cfs and 0.6 afa for in-house use only, for a total of 0.03 cfs and 11.2 afa.

This shows the place of use for the irrigation portion of this water right. There are a total of 14.9 acres irrigated under this system.

GROUNDWATER THEORETICAL ANALYSIS

Domestic pump #1: H₂ FILE: 63-5215

(Same exact pumps) DATE: 8-4-2006

BY: Daniel A. Nelson

THEORETICAL RATE OF FLOW: $Q = \frac{(8.8 \times (\text{HP}) \times (\text{EFF.}))}{\text{TDH}}$

Q = CFS

HP = Total Brake Horsepower of pumping plant (including booster)

Eff. = Pumping plant efficiency (assume 70% or 0.70)

TDH = Total dynamic head = [(LIFT) + (PSI X 2.31)]

LIFT = Depth to water in FEET from land surface to pumping water level

PSI = Pumping pressure measured in PSI near pump (if open discharge assume [0])

$(8.8) \times (0.75 \text{ Hp}) \times (0.70) = 4.62$
 $Q = \frac{4.62}{129.19} = 0.036 \text{ CFS}$

$[(16) + (49 \times 2.31)] = 129.19$

LIFT FROM:

Measurement (X)

Owner ()

Area estimate ()

Well Logs ()

PSI FROM:

Measurement ()

Owner ()

Estimate ()

Owner Gage (X)

Booster (Y) (N)

NOTES ON PUMP:

Motor Make, Serial or ID

Pump Make, Serial or ID, rating

REMARKS: I measured LIFT, and took pressure from owner's gauges.

There are 2 pumps in well. I am assuming one is for back up in case something goes wrong with the other.

Both wells are identical, so total available capacity is 0.07 CFS

In-house use is limited to 0.02 CFS, per department standards.

PHOTOGRAPHER AND DATE OF PHOTOS DANIEL A NELSON 8/4/2006

FILE NUMBER 63-5215

The first photo shows the irrigation pump. It is a 15 Hp pump that diverts water from the well.

The second photo shows the wellhead and the two domestic pumps in the shadows. I measured the pumping water level at 16 feet.

PHOTOGRAPHER AND DATE OF PHOTOS DANIEL A NELSON 8/4/2006

FILE NUMBER 63-5215

The photo above shows the back pasture behind the home.

The photo above shows the south pasture. This pasture has various native/non-native plants to feed the owner's exotic deer, butterflies, and other animals.

The above photo shows the home and cougar pens.

Mr. Gregerson:

Enclosed are the documents you requested in your May 12, 2006 letter. They include the Commencement Order for the SRBA and a copy of the original claims for 63-5210 and 63-5215.

Since we are very near the completion of the SRBA, field exams need to be done as quickly as possible. Please call 334-2190 and ask for Dan to schedule the field exam. If Dan does not hear from you by August 1, 2006, your water uses may not be recommended to the SRBA court as claimed.

If you have any questions, please feel free to call me at 334-2190.

Sincerely,

Sandy Egbert

Boise, Idaho 83705

Dear Sandy Egbert,

This letter will acknowledge receipt of your letter dated April 19, 2006. Since my first letter to you dated Nov. 4, 2005, I have become very ill with my Kidney failure which makes a person very nauseated and weak. I turned 81 on April 17. I have to use a walker or wheelchair or a 3 wheeled ATV in order to get around this ranch.

Enclosed please find my affidavits concerning the priority dates for my claims 63-5215 and 63-5210.

You could schedule a field exam around May 19, 2006 and preferable in the afternoons it's hard for me to get up before 10 AM. Also we won't start our irrigation pump until about May 15.

Also, I have 3 requests for information that I would like sent to me prior to the field exam.

1. I need copies of my original water right applications for 63-5215 and 63-5210.
2. I would like a copy of the Snake River Basin Adjudication Court Order.
3. I need to know how many persons will be conducting the field exam. Because of my disabilities and severe hearing impairment, I want someone to stand by to protect any of my rights.

Best Regards,

Oliver Gregerson

AFFIDAVIT FOR WATER RIGHT 635215

Oliver Gregerson, being first duly sworn on oath, deposes and says; That based on his best information and belief states that the year 1958 of priority claimed for water right Number 63-5215 is the year the well was finished and a pump was installed.

A man by the name of Johnson drilled this well, I don't remember if a permit was required at that time. All records were destroyed in my house fire.

Dated this 12 day of May, 2006

RE: Water Rights 63-5210 and 63-5215

Dear Mr. Gregerson:

On November 4, 2005 we received a letter from you stating you would like a 60-day extension of time before submitting evidence of priority and other information to the Department of Water Resources. Since the 60 days have passed, we are again asking for more information from you so we can recommend your water right as accurately as possible.

First we need Evidence of Priority. In 1989 you claimed 3-15-58 as a priority date for water right 63-5215 and 11-1-60 for 63-5210. (See enclosed computer printouts of claims) We need a letter from you explaining why those dates were used. Any historical information you can give us on the use of water from these wells would help us to accurately reflect these water rights. The enclosed pamphlet "Evidence of Priority" explains the priority date more fully. I have highlighted the paragraph "What If I Am Unable To Obtain Any of the Sources Listed Above?" which might be of interest to you.

Second, we would like to send a field examiner from the Dept. of Water Resources out to your property to do some measurements on your wells, ask you some questions about the historical use of your water rights and take some pictures of your irrigation system.

We need to have this information soon so we can recommend your water rights to the SRBA (Snake River Basin Adjudication) Court. Please submit your letter containing Evidence of Priority by May 12, 2006 so we can then schedule a field exam at your earliest convenience.

Sincerely,

Sandy Egbert
GIS Specialist

NOTICE OF REQUEST FOR 60 DAY EXTENSION OF TIME FOR SUBMITTING

PRIORITY AND OTHER CONDITIONS. FOR CLAIM NO. 63-5210, 63-5215.

To; Burke Scholer
J. Merlaine Bishop
Sandy Egbert
Employees that have contacted me from the Idaho Department of
Water Resources.
2735 Airport Way
Boise, Idaho 83705

CERTIFIED, RETURN RECEIPT REQUESTED.

To whom it may concern;

Please take notice that a 60 day extension of time is requested
on the following grounds.

1. That Claimant is now 80 years old and is in ill health from World War II service connected disabilities. Claimant had a stroke in June and a Heart Attack in July, 2005. Claimant has been in and out of the V.A. Hospital numerous times this past summer. Claimant is so weak that he walks with a walker and cannot do any work. Claimant comes under the Americans with Disabilities Act which does not allow for any discrimination.
2. Claimant has used the water from the two wells 63-5210, 63-5215 for beneficial use for over 45 years.
3. Claimant keeps this ranch as a Wildlife Refuge. No money has ever been received from any agriculture products from this land.
4. Claimant intends to donate this ranch to either the Nature Conservancy or the Idaho Fish and Game to be kept forever as a Wildlife Refuge.
5. 6 years ago, Idaho Power burned Claimants house down by dropping a 20,000 volt line onto his ground wire. The resulting explosion and fire burned the house to the ground and destroyed all my records. Claimant lost everything in that fire which will make it extremely difficult to produce the records that you people requested.

6. It's not really fair to an old person like me for you to wait 16 years to do this adjudication. For instance, in your pamphlet *Evidence of Priority*, it is suggested to get affidavits from someone with personal knowledge of beneficial use. The one person that helped me install my systems was Bill Clairborne that in the 50s worked for H.J. Wood pump company in Garden City. He died 3 days ago and were going to his funeral Thursday, November 3, 05. All the other people that knew my operation are dead and I'm not far behind.
7. When an inspection of my wells is done, I want to be able to be present. Most of my medication will be finished in 60 days.
8. Finally, on July 4, 2005, I fired an employee by the name of Don Town. He use to be a well driller in Idaho City and would have contacts in your department. As a disgruntled employee, Mr. Town said he was going to cause me trouble with the Dept. of Water Resources. Two days latter, on July 6, Burke Scholer called me and said someone had thrown my two well permits on his desk and that he didn't know what was going on. I would like to talk to the person that threw my permits on his desk. Also, I would like to know who drove into my ranch in 2004 with the stated purpose of adjudication of my two wells. How many times will my wells be adjudicated?
I sense a certain hostility in your letters.

By this notice, the undersigned doe's not waive, release or alter any claims or damages he may now or in the future have.

Best Regards,

Oliver Gregerson

Curtailing teen drug abuse

The Youth Education Account Advisory Committee launched an advertising campaign Monday aimed at curbing alcohol use among the state's teen-agers.

The radio-spots feature two young Idaho women telling stories of tragedy relating to alcohol.

The committee is designed to advise youths of the risks and problems associated with using alcohol, drugs and tobacco.

It was established by the state's Commission on Alcohol-Drug Abuse.

Getting involved

City Council meeting

Garden City City Council will meet at 7 p.m. today at City Hall, 201 E. 50th St.

The agenda includes:

- Consideration of a new ordinance regulating livestock in agricultural zones of the city.

- Continued work on a tentative city budget for 1997-98.

- A presentation on Community Youth Connection.

playing at Bronco Stadium dampens school spirit and poses safety risks for teen-agers who drive. But some taxpayers have complained that \$500,000 for sports is an extravagance.

Man loses home in fire, needs help caring for animals

8/12/97

Ada County's best-known loner has a problem he can't handle alone.

Oliver Gregerson, 72, lives at the end of a very private road adjoining Warm Springs Avenue east of Boise. A wooden sign, "Gregerson's Wildlife Park," marks the turnoff. The dirt road is blocked by a locked gate. "No Trespassing" and "Beware of Watch Dogs" signs discourage the curious.

On July 31, a fire destroyed Gregerson's home of nearly 50 years. Since then, he has lived outdoors. He eats his meals under a tree, sleeps on the ground near the rubble of his former home. The log house, which he built himself, wasn't insured.

"It was beautiful and unique," said Jim Sayko, a friend from remote Atlanta. "Oliver filled it with irreplaceable things from all over the world. The law library rivaled those of good attorneys."

Fiercely self-reliant, Gregerson owned more than 1,000 law books. They were allies in the battle to protect

his privacy. He sued the county to stop the Greenbelt bike path from crossing his wildlife sanctuary, sued to stop the Idaho Shakespeare Festival from building nearby. Now ashes, the law books were his alternative to lawyers.

He looks like a man in a war — face and clothing streaked with soot, arms swollen with bee stings.

"I lost everything," he said, tears streaming down his cheeks. "Everything but what I was wearing."

Losing his personal belongings, including souvenirs and photos of his late wife, was bad enough. His first concern, however, is for his animals.

The sign, "Gregerson's Wildlife Park," isn't an exaggeration. Gregerson has dogs, horses, geese, ducks, goats, raccoons, cougars, pheasants, peacocks, emus, rheas. He has a herd of deer, a herd of bighorn sheep.

Tim Woodward

His secluded home is strangely beautiful. Shaded by old cottonwoods, with the river rolling by and animals everywhere, it's like a private zoo in the country.

Since the fire, the park has lacked power. Without it, Gregerson has no way to irrigate the pasture he relies on

to feed many of his animals. His daughter, Gina, is using a small generator to water the dry grass, but Gregerson said it's "like spitting on a forest fire."

"If the pasture gets too dry, we'll lose it," he said. "I don't know what to do. I'm afraid for all these beautiful animals."

His favorite is a cougar named Lennon.

"I named him that because he's so gentle," he said. "Just like John Lennon."

A retired builder, Gregerson has loved animals for as long as he can remember. He grew up across the road from a chicken hatchery in Iowa. Once a year, his parents let him buy 10 baby chicks. In time, he came to prefer the company of animals to that of people.

A World War II veteran, he attributes his passion for privacy to the horrors of war.

"It's part of post-traumatic stress disorder," he said. "I have friends, but I'm still a loner. I saw so much killing. I still hear the soldiers screaming."

St. Vincent De Paul brought him clothing, food and blankets. An Oliver Gregerson Burnout Fund has been established at Syringa Bank. But what he really wants are pumps and generators. They can be loaned by calling 342-1979.

"I never thought I'd need charity," he said. "For myself I don't care. I need help for my animals."

Tim Woodward's column appears Tuesdays, Thursdays and Sundays. Comments, suggestions: 377-6409.

Man wants misfortune to fund memorial to pioneer

The last time I saw Oliver Gregerson, he was in tears. His house and everything in it had just burned. In his charred shoes, I'd have been in tears, too.

That was in 1997. These days things are looking better for Gregerson, who blamed the fire on a power line and has since received a sizable settlement from Idaho Power Co. He says he'll use the money to rebuild, and to finish the project of his dreams.

"I've been trying to do this for 20 years," he said over lunch at the Trolley House, a few miles downstream from his longtime home on the Boise River. "Now I don't need financial help. I have the money to go ahead and finish it."

A history buff, Gregerson believes his land along the river is the site of a massacre, specifically the first massacre of white explorers in what would become the Idaho Territory. Historians have placed the site at other points along the river, but Gregerson is convinced that his is the spot. Either way, he plans to erect a memorial to an obscure but inspirational figure in Idaho's history.

"It's just such a great story," he said. "Everyone knows about Sacajawea, but hardly anyone but historians knows about Marie Dorion."

Dorion was an Iowa American Indian and an interpreter for Astoria fur trappers, one of whom was her husband. In January 1814, warring Ameri-

LUNCH WITH TIM

can Indians attacked and killed Pierre Dorion and the other trappers along the Boise River. Marie and her two small sons were left alone, hundreds of miles from the fur company's headquarters at Fort Astoria, Ore.

Carrying her sons on horseback, she rode nine days to the Blue Mountains in eastern Ore-

Oliver Gregerson
Wants to build memorial

gon. There she built a hut and holed up for the rest of the winter, living on dried horse meat. Fifty-three days later, she resumed her journey, nearly starving before friendly Walla Walla Indians found her and reunited her with explorers from Fort Astoria. She lived to be old, as did the small boys she protected from the perils of their winter ordeal.

"In Western history, there's

no greater example of courage and perseverance," Gregerson said. "But the only memorial to her is a statue at the replica of the old Fort Boise at Parma."

Gregerson wants to change that. He started building a "Marie Dorion Memorial Indian Museum" on his property years ago, but a right-of-way dispute stalled the project. Now he intends to finish it.

"If we can't work out this right-of-way thing, I'll build it somewhere else up at my place," he said. "I've got lots of land."

The 40-by-100-foot museum would display a replica of a trapper's house, American Indian artifacts, a sculpture of Dorion with her sons and other oddments. He hopes to have it fin-

ished in time for the Lewis and Clark Bicentennial in 2003. Admission, he says, will be free.

He's also writing a book about Dorion, which he plans to sell at cost.

"We mistreated the Indians so badly," he said. "I think we need to honor the memory of those who once owned this land and were treated so terribly. We need to tell their stories. I don't care about making money off of this. I'm 75. I just hope I live long enough to finish it."

Lunch with Tim. You pick the place. I'll buy. Leave your name, number and what's on your mind at 368-6100, fax me at 377-6449 or send e-mail to twoowdward@boise.gannett.com

Combat Infantryman's Badge to Soldier on Front Lines

Is Back in Action
Following Wounds
Received in November

NOV. 7
1944

Pfc. Oliver L. Gregerson, serving on the western front in Europe, has been awarded the combat infantryman's badge for superior performance of duty on the front lines in Germany according to word received here.

Pfc. Gregerson is back in action following recovery from wounds received in Germany on Nov. 7, for which he holds the purple heart. Telling what had happened, Pfc. Gregerson wrote:

"The sergeant and I went beyond our front lines to set a trip wire. While doing this we were spotted by the Germans who zeroed their mortars in on us. I guess they thought they knocked us out and consequently ceased fire. So I came back and tried again and succeeded. A piece of shrapnel hit the palm of my hand but didn't cut it very deep so it wasn't too bad, although I was shell shocked that night and the next day too."

Pfc. Gregerson is the son of Mr. and Mrs. O. Gregerson, 1210 4th St. W. He is serving with the 7th Army.

RE: HEATING, IRRIGATION
Snake River Basin Claim No(s): 63-5215, 63-5210

Dear Claimant:

In reviewing the above water right claims, there are several questions that need to be answered before we can recommend these water rights. In addition to the Evidence of Priority explained in an enclosed letter, we also need to know how many homes are on the property that uses these water rights. Also, what is the heating (claimed in 63-5210) used for? Please fill out the enclosed form "Residential Space Heating/Cooling Requirements for Cold or Geothermal Sources". Lastly, an aerial photo is enclosed of the area around your property. A green line outlines what we believe to be your property boundaries in 1989 when the claim was filed. If this is not accurate, please contact me or draw your property boundaries on the map as they were when the claim was filed in 1989.

In order to recommend these water rights as accurately as possible, the requested information needs to be in our office by November 4, 2005. If you have any questions, my phone number is 334.2190.

Sincerely,

Sandy Egbert

RE: EVIDENCE OF PRIORITY
Snake River Basin Claim No(s): 63-5215, 63-5210

Dear Claimant:

In the past, you submitted the above referenced claim(s) during the Snake River Basin Adjudication (SRBA) claims taking. Enclosed is a computer generated print-out of the claim(s) for your reference only, it is not necessary to return this print-out or re-file it. You indicated, when this claim was filed, that the water right(s) was based on either a "Statutory Claim" or "Beneficial Use" of the water. Water rights of this type are established by historical use of the water for a beneficial use purpose, dating back to the time the water was first used; this date being the "Priority Date" as shown on the enclosed print-out. Your claim(s) has not been confirmed by a previous filing with the Department of Water Resources since there is no decree, license, or permit on file to verify the use of this water. For this reason, the Department is required to gather evidence from claimants supporting the date of priority for claims based on historical beneficial use of water.

Enclosed is a pamphlet entitled "**Evidence of Priority**" which describes why evidence of the priority date is necessary, along with examples of types of evidence that can be submitted to fulfill this requirement. While I encourage you to read the entire pamphlet, I direct your attention to the two sections entitled "**What Kind of Evidence is Required**" and "**Some Examples of Documents Which May Be Evidence of the Priority Date.**"

If no evidence of your priority date is submitted, or we do not hear from you within the time limit below, your priority date, as claimed, may not be recommended to the SRBA court for decree. This could jeopardize your water use under this right(s) if water availability problems arise in the future.

The required evidence supporting the priority date(s) requested needs to be submitted by November 4, 2005. Please let me know if you may not be able to submit proof of priority or have any questions not covered by this letter and the enclosed pamphlet, by the date indicated above.

In addition, since it is our goal to decree the historical water rights within the Snake River Basin as accurately as possible, field exams are now being conducted by Department water resource agents to verify claims in this area. Therefore, Merlaine Bishop will be contacting you within the next few weeks to schedule a field exam.

Sincerrely,

Sandy Egbert

RE: Snake River Basin Claim No(s):

Dear Oliver Gregerson

In the past, you submitted the above referenced claim(s) during the Snake River Basin Adjudication (SRBA) claims taking. Enclosed is a computer-generated print out of the claim(s) for your reference only, this print out is not to be returned or re-filed. You have indicated when this claim was filed that the water right(s) was based on either a "Statutory Claim" or "Beneficial Use" of the water. Water rights of this type are established by historical use of the water for a beneficial use purpose, dating back to the time the water was first used, this date being the "Priority Date" as shown on the enclosed print-out. Your claim(s) has not been confirmed by a previous filing with the Department of Water Resources since there is no decree, license, or permit on file to verify the use of this water. For this reason, the Department is required to gather evidence from claimants supporting the date of priority for claims based on historical beneficial use of water. Any other claims you may have filed, that are not listed above, do not require evidence of priority to be submitted at this time.

Enclosed is a pamphlet entitled "Evidence of Priority" which describes why evidence of the priority date is necessary along with examples of types of evidence that can be submitted to fulfill this requirement. If no evidence is submitted, or we do not hear from you within the limit below, your priority date, as claimed, may not be recommended to the SRBA court for decree. This could jeopardize your water use under this right(s), if water availability problems arise in the future. It is our goal to decree the historical water rights within the Snake River Basin as accurately as possible. Field exams to verify claims in this area are now being conducted by Departmental water resource agents.

The required evidence supporting the priority date(s) requested needs to be submitted by . Please let me know if you may not be able to submit proof of priority, or have any questions not covered by this letter and the enclosed pamphlet, by the date above. In addition, please contact me at the Western Region office as soon as possible to set up a field exam. Please call to set up appointment 208-539-4626 or 208-334-2190
