☐ This water right Should not exist.

☐ This water right was not recommended, but should be recommended with the elements described above.

E. REASONS SUPPORTING OBJECTIONS(S):

The place of use (POU) for this water right shown in the Amended Directors Report in the NENW Sec 31, T04N, R17E conflicts with the IDWR Layout, which shows it to be in the SENE Sec 36, T04N, R16E. These sections are mixed ownership with both private and National Forest System (NFS) land. It appears that the water right is intended to be entirely on private land. The actual legal description of the private land is Homestead Entry Survey (HES) 389. This should be clearly identified on the water right along with a statement that the water right involves no NFS land.
