MEMORANDUM

TO: Transfer 4429 (and subsequent transfers from same right)
SRBA Claim Nos. A63-07885C and A63-07885D

FROM: Cindy Hodges

RE: Transfer and Claim Split Designations

TRANSFER SPLIT ANALYSIS

Transfer 4429 is filed pursuant to right no. 63-07885A, to add a point of diversion. The transfer also shows new ownership of 18 acres under the right. The right has been recommended to be split as follows:

- 63-07885A - Split into C and D
- (63-07885B - Existing split to Crooks, XFER 1872)
- 63-07885C - Remainder of right, listed as McGuire but actually owned by Joseph Roberts
- 63-07885D - Ryan Roberts (applicant)

A subsequent transfer, expected to follow, will generate the next successive splits:

- 63-07885C - Split to E and F
- 63-07885E - Remainder of right (Joseph Roberts)
- 63-07885F - Dan Sayre (transfer solicited, not received)

Depending on the timing of the Sayre transfer, the E and F splits may be designated, based on the C remainder, before the C split is finalized.

Note: License 63-07887 was also issued from the same well as 63-07885A. This acreage is still being irrigated from the original well along with the remainder of the base right. As far as I can tell, it is not associated with either of the new owners.

MICROFILMED
OCT 07 1996

SRBA ANALYSIS

Existing SRBA claims on these rights have already generated split suffixes in that database which do not match the split suffixes anticipated in the WR database from these transfers. However, a quick analysis of the SRBA filings shows that some combination of rights has occurred and P/U descriptions do not match either, so a reassignment of some SRBA numbers upon transfer update (that's you, Jan) might eliminate some confusion.

SRBA claims appear to be filed and correspond to the water rights as follows:

A63-07885C - Joseph Roberts. Claims to be a combination of 63-07885A and 63-07885B, but likely the acres are under 63-07887 rather than 7885B, as 7885B was split to Crooks, who still (allegedly) owns that parcel. A claim is not on file for 7885B. A63-07885C will have to be split pursuant to the Ryan Roberts transfer 4429, which will likely give suffix E to Joseph and F to Ryan. (If the second of the above transfers are filed, Joseph will have water right E, but Ryan will have C.)

A63-07885D - McGuire. Claims to be a split of 63-07885A, which is likely accurate. Shows an accomplished P/D change. This portion was purchased by Sayre, who is voluntarily filing a transfer to record the change. This split in its entirety could be changed to Sayre's name following his transfer. However, his transfer as proposed shows 18 acres rather than the 15 in the claim, so he may need to amend. (Sayre will have part F in the water right split if he files the transfer.)

No claim is found for 63-07887, however, the total acreage claimed under A63-07885C and D is roughly equivalent to the total acreage licensed to 63-07885A and 07887, so I'm confident the acres are represented in there someplace.

RE: Enclosed Change of Water Right Ownership

Dear Mr. and Mrs. Sayre:

I discussed with our adjudication supervisor the water right claim which was filed on your property by J. U. and Pearl McGuire (A65-07885D), and the use of your well to irrigate the acres originally licensed under water right no. 65-07885A. She felt that, since the well appears to have been used in this manner for some time, that the best action for you to take at this time is to simply request that the claim be placed in your name.

Current Idaho law does provide that certain changes in water rights which occur prior to 1987 may be recognized, and that during re-verification periods such as the Snake River Adjudication, those changes may be reflected as a part of the recorded right. If you feel that you can submit evidence that the well was used for irrigation of these acres since before 1987, it is possible that a transfer or modification of your portion of this right is not necessary. Ryan Roberts' transfer is required because the addition of his well occurred after 1987.

To complete the change in ownership document, please provide the highlighted information and return the form to this office with any supporting documents. Proof of ownership of this parcel may take the form of a copy of warranty deed or tax notice. There is no fee for this change. After the change in ownership is completed, you may amend the claim to increase the acreage shown to 18 acres.

If you would feel more comfortable, you may still file an application for transfer, which would formally list your well as the point of diversion for your portion of water right license no. 65-07885A. If you wish to take this step, please contact me at 334-2190.

Sincerely,

A handwritten signature in cursive script that reads 'Cindy Hodges'.
