RE: Notices of Claim to a Water Right No. A63-08279, A63-09353

Dear Ms. and Mr. Henrickson:

IDWR's initial investigation of the Notices of Claim listed above indicates that there has been a change in the point of diversion as described below:

Previous point of diversion: Twp. 02N, Rge. 02W, s. 6, NWSE
New points of diversion: Twp. 02N, Rge. 02W, s. 6, NWSE, SESE

A water right owner who has made a change in use of a water right prior to commencement of the SRBA (Snake River Basin Adjudication) without prior IDWR approval may claim the change in the SRBA. However, IDWR may recommend a right as changed only if the change meets certain requirements. One of those requirements is that the change not result in injury to other water rights, or that the change be conditioned to prevent injury to other water rights.

Before IDWR may recommend your claim, you must provide IDWR with the date the change was made and some evidence tending to support that date. If the change was made before November 19, 1987, then the date provided must include the month, day, and year. If the change was made after November 19, 1987, then a specific date is not necessary, and the evidence need only support that the change occurred sometime after November 19, 1987. An information sheet is enclosed that describes the types of evidence that can be submitted for showing the date of the change.

Your response must be received by this office by the response date shown above. If no response is received, then your claim to water from the new point of diversion will not be recommended to be decreed.

If you have any questions or need additional information, please contact this office.

Sincerely,

Maria Minicucci
Sr. Agent, Adjudication Bureau
