

In RE: SRBA case
39576

Motion to Set Aside
Partial Decree
Water Right Number
22-11537

In mid-December, 2010, I participated in a settlement conference concerning my water right #22-11537 and other water rights coming from Paradise Springs in Basin 22. The outcome of the settlement agreement altered the amount of water from what I claimed and what was awarded in the SRBA process to a different rate and acreage.

In order to be consistent with the settlement, right 22-11537 should be reduced to 0.07 cfs and 3.3 acres.
