Recommended Right No. 75-14431
(Release of S.M. Hold - 1915 right)

Dear Special Master Dolan:

On December 18, 2008, the court recommended issuance of a partial decree to me for a 1915 priority right in the amount of 0.19 cfs. However, on March 25, 2009, the court withdrew that recommendation pending resolution of issues involving certain overlapping rights which were the subject of litigation.

More recently, the litigation has been resolved and partial decrees issued or recommended. My 1915 non-contested right has remained on hold, but it seems timely that it now move ahead and that the partial be issued.

I respectfully request that the court now recommend that the partial be issued, as it is not the subject of objection nor is it involved with any other contested rights. Counsel for the IDWR is aware of this request. Thank you for your consideration.

Sincerely,

George Matejko
