This discrepancy is within IDWR's standards for margin of error (.5%) POU does NOT include field in ~~the~~ NWNW which is labeled by ASCS as Field No. 1 in 1987 but is not included on the earlier ASCS map. The NAPP indicates that this field is irrigated, but not in the same manner as the licensed parcel. The only claim filed in the NWNW is by the U.S. BOR. Since the claimant made no effort to claim these acres on this license and it is irrigated by surface water it is assumed that no ground water is used in the NWNW for irrigation. ??
