Case No. 39576	)	SPECIAL MASTER REPORT
	)	AND RECOMMENDATION

Findings of Fact

On December 2, 2009, John and Jackie Kildew filed a *Motion to File Late Notice of Claim* for 2.02 cfs from Rock Creek for year-'round stockwater use and to irrigate 54.6 acres in Power County from April 1 to October 31 with a priority date of April 1, 1963, based on beneficial use. On March 25, 2010, SRBA Presiding Judge Eric L. Wildman entered an *Order of Reference Appointing Special Master* "to determine the degree of prejudice, if any, to other parties on the same claimed source."

Hearings on the *Motion* were held on May 13 and 27, October 14 and February 3, 2010, often with the plan to consider this late claim along with adjacent claims – 41-42 and 41-47 (Roper). Counsel for the Ropers has participated informally on resolving the late claim together with the Ropers' claims. These three claims are the last to be settled in the basin.

Informal investigations and discussions with IDWR staff and counsel have revealed the Kildews have historically used the water as claimed, but potential prejudice cannot be determined before the late claim is allowed to go forward followed by further investigation by IDWR and notice to other water users on the same source. The Kildews understand that by granting their *Motion*, the Court will simply allow the claim to proceed further toward *possible* adjudication.
