

Per phone call to IDWR office 5-14-10 :
I do not know why the Mattix Pin # is on

RECEIVED
MAY 19 2010
IDWR / NORTH

this application. In the past my husband, Daniel Miller made arrangements and verbal agreements with the neighbors on both sides of our property. He died in Jan '07 and I have been trying to catch up with many unknowns and continue to manage the property. When I was last up there in July '09, Del Mattix had this form filled out and said I should sign it and send it in with a check which I did without asking questions or checking it.

What I do know is that the well water is shared by the 3 cabins according to agreements made (probably verbally) among Richard Johnson, Del Mattix, and my husband. The well appears to be located on the Johnson property or very close to the line with the Miller property.

The person I talked with on the phone explained about the pin # and I have added

it in the proper places on the form. I hope this meets the requirement from your office. But clearly, I need to ask for more information from Johnson and Mattis as to the will and agreements that have been made.

Thank you. Should there be a need for further response from me please contact me.
