) FOR WATER RIGHT 63-00198AJ

I. FINDINGS OF FACT

A notice of claim was filed for the above-captioned water right pursuant to I.C. § 42-1409. The Director of the State of Idaho Department of Water Resources (IDWR) examined the water system for this reporting area. The *Director's Report* contained a recommendation or abstract for the elements of this water right.

On June 15, 2007, the claimant of the water right, the Nampa & Meridian Irrigation District, through its attorney S. Bryce Farris, filed an objection to the *Director's Report*, objecting to the recommended place of use. On January 31, 2011, the parties filed a *Standard Form 5 - Stipulated Elements of a Water Right* which resolved the objection. The Idaho Department of Water Resources concurred with the stipulation.

II. CONCLUSIONS OF LAW

Therefore based on the file and record herein and pursuant to the *Standard Form 5*, IT IS RECOMMENDED that water right 63-00198AJ be **decreed** with the elements as set forth in the attached *Recommendation for Partial Decree Pursuant to I.R.C.P. 54(b)*.
