NAMPA ID USA 83686-4911

2. Date of Priority: 04/25/1977

3. Source: GROUND WATER Trib. to:

4. Point of Diversion:

Township	Range	Section	1/4 of 1/4 of 1/4 Lot	County	Type
02N	02W	22	SW NE SW	CANYON	

5. Description of diverting works:

WELL, 35 HP PUMP, PIPELINE, SPRINKLERS, DITCH

6. Water is used for the following purposes:

Purpose	From	To	C.F.S.	(or) A.F.A
IRRIGATION	3/15	11/15	0.037	17.75
STOCKWATER	1/01	12/31	0.01	0.46

7. Total Quantity Appropriated is:
0.047 C.F.S. and/or 16.21 A.F.A.

8. Total consumptive use:

9. Non-irrigation uses:

10. Place of use:

Township	Range	Section	1/4 of 1/4	Lot	Use	Acres
02N	02W	22	NW	SW	STOCKWATER	
			NW	SW	IRRIGATION	3.5
					Section Acres	3.5
					Total Acres	3.5

11. Place of use in counties: CANYON

12. Do you own the property listed above as place of use? Yes

13. Other Water Rights Used:

14. Remarks:

THIS CLAIM IS A RESULT OF A CHANGE IN OWNERSHIP FOR A PORTION OF CLAIM NO. A63-08732A, FEE PAID UNDER RECEIPT NO. 2009801. THE PORTION OF THE CLAIM FOR STOCKWATER FOR THE 3.50 ACRE PARCEL SPLIT OFF FROM THE ORIGINAL CLAIM IS .01 CFS, THE SMALLEST AMT WHICH CAN BE CLAIMED. IF ALL SPLITS OF THE ORIGINAL CLAIM ARE ALLOWED .01 CFS FOR STOCKWATER, (ALONG WITH DIVERSION VOLUME), AN EXPANSION OF THE WATER RIGHT WILL RESULT. CFS AND VOLUME OF SPLITS DETERMINED ON PRO-RATA BASIS USING LICENSED (AND CLAIMED) RIGHT. SEE THIS FILE FOR CALCULATIONS. THERE IS SOME EVIDENCE THAT THIS RIGHT MAY HAVE BEEN FORFEITED THROUGH NON-USE - PLEASE SEE THIS FILE FOR CORR.

PROPERTY AKA LOT 2, BLK 3, QUAIL RIDGE SUBD. 11/17/1995 MM.
SEE CLAIM FILE A63-08732A FOR EARLIER CORR. 11/17/1995 MM

This right when combined with all other rights shall provide no more than .02 cfs per acre nor more than 4.5 afa per acre for irrigation of the lands above.

RE: Notice of Claim to a Water Right No. A63-08732

Dear Mr. and Ms. Holladay:

This office has received a Change of Ownership form for the above-referenced claim. The claim which represents your portion of the original claim is enclosed with this letter (A63-08732C).

Please be advised that the claim has been split and a portion has been assigned to your names, but this does not confirm the validity of the water right.

Since you have a well which is not the well which was licensed by the water right, AN APPLICATION FOR TRANSFER OF WATER RIGHT IS REQUIRED BY LAW. During the application process you will be required to show that the water right has not been forfeited by five years of non-use.

As explained in my correspondence of October 31, 1995, if you cannot prove that forfeiture has not occurred, Idaho law REQUIRES that you file an Application for Permit.

YOUR WATER USE WILL NOT BE LEGAL WITHOUT EITHER AN APPROVED APPLICATION FOR TRANSFER OR AN APPROVED APPLICATION FOR PERMIT. If neither of these applications are filed with the Department of Water Resources, your Notice of Claim will likely be recommended to the SRBA court for disallowal.

Please contact this office immediately for assistance in this matter. Our office is open Monday through Friday (excluding holidays) 8:00 a.m. to 5:00 p.m.

Sincerely,

Maria Minicucci

RE: Notice of Claim to a Water Right No. A63-08732A

Dear Mrs. and Mr. Bowman:

Enclosed is a copy of a "Notice of Change of Water Right Ownership" form which has been submitted to this office. This form identifies you as the owners of the parcel of land and the appurtenant water right which was split by this change in ownership.

This letter is to notify you that the above referenced claim has been split and a portion of the claimed water right has been changed to the new owners. The portion of the claimed right which you have retained is represented by the enclosed claim. Your portion of the original claim remains numbered as A63-08732A.

If you have any questions regarding this ownership change or the enclosed claim copy, please do not hesitate to contact this office.

Sincerely,

Maria Minicucci
Sr. Water Agent, Adjudication Bureau

RE: Notice of Claim to a Water Right No. A63-08732

Dear MS. BOWMAN:

Please read this entire letter carefully. It contains important information about the water rights in the Quail Ridge Subdivision in Nampa, Idaho. A response from you may be required.

This office has received information that you may be the current owner of a portion of the property represented in the above-referenced Snake River Basin Adjudication (SRBA) claim. This claim was originally filed by Colleen and Cecil Bowman, based on previously issued water right license number 63-08732.

There are several very important issues which require your attention. First, if you wish to claim a portion of this license in the SRBA, please complete the enclosed Change of Ownership form and return it to this office. Additional information will be required, as described below.

It has come to the attention of this office that there has been a period of non-use for this water right. Idaho law states that any water right or portion of a water right that has not been used for five years is subject to forfeiture. In other words, if it has been five years or longer between the use of the originally licensed well and any new well for irrigation, it is possible that the licensed water right (or portion of) has been lost due to non-use. If it appears that you can claim a portion of the SRBA claim, you will be required to provide evidence that the water right or your portion of the right has not been forfeited by non-use. An Application for Transfer, as described below, will also be required. You may wish to contact the previous owner to obtain information about the date the original well was last used for irrigation.

If you are irrigating more than 1/2 acre with groundwater, you must contact this office immediately. Any new wells on the property described in the SRBA claim which irrigate more than 1/2 acre of ground must file either an Application for Transfer or an Application for Permit with this office. An Application for Permit is mandatory if you are irrigating more than 1/2 acre of ground and cannot show that the previous water right was not forfeited by non-use.

2.

A63-08732

A domestic well may be used to irrigate up to 1/2 acre without a water right. If you irrigate 1/2 acre or less from groundwater, you may chose to file an Application for Transfer (and submit evidence that the water right license has not been forfeited). If the right has not been forfeited you will preserve the priority date of the license. However an Application for Transfer is not required if you are irrigating 1/2 acre or less from groundwater. You may also chose to file an Application for Permit, but it is not mandatory for domestic use.

If you have any questions about this letter, please do not hesitate to contact is office. The office is open Monday through Friday, 8:00 a.m. to 5:00 p.m.

Sincerely,

A handwritten signature in cursive script, appearing to read 'Maria Minicucci', written in dark ink.

MEMORANDUM

TO: File A63-08732

FROM: Maria Minicucci

DATE: October 25, 1995

RE: License No. 63-08732, SRBA Claim No. A63-08732

As requested by DRT in his memo of October 17, 1995, I have investigated the above referenced SRBA claim. The following is the result of that investigation.

The beneficial use field exam was conducted for this license on August 7, 1987. A copy of that report is attached. The license was issued February 8, 1990, for .70 cfs and 284.9 AF for the irrigation of 35 acres in the NESW and 28 acres in the NWSW, both in T02N, R02W, section 22, a total of 63 acres. The Napp from 1987 clearly shows the parcel as irrigated (although surface water is delivered to the property).

On October 18, 1995, I visited the site. I found the licensed well site, but the power has been cut. I could not locate the actual well hole, however the trough set-up found is exactly as described in the beneficial use field report. See photos Nos. 1 & 2. No irrigation was evident except for the lots with finished houses. See photos nos. 3-6. The houses have irrigated lawns which appear to be well over 1/2 acre. However surface water may be available to the subdivision as evidenced by the presence of a lateral and backflow piping (see photo no. 4).

If one assumes that irrigation occurred until the property was sold to the developer of Quail Ridge, then it was irrigated in 1989, since the Bowmans filed on the license in February of 1990. If 1989 was the last year the property was irrigated, then use would have to resume by the 1994 irrigation season. IDWR's scanned airphoto (No. J4) is dated July 1994 and clearly shows the subdivision. There is no irrigation in this photo. However, absent concrete information about the last date of irrigation from the licensed well, the license cannot be judged forfeited at this time.

All of the drilling permits found for this subdivision are for domestic use. Assuming that the owners in fact limit their irrigation to what is allowed by law, and all irrigation is from surface water, then the licensed ground water license may be lost.

If the owners are irrigating 1/2 acre or less but still would like to claim a portion of the license then transfer applications are required and the owners must provide evidence that the license has not been forfeited. If the owners are irrigating more than 1/2 acre with ground water, the transfers are required and the owners

must provide evidence that the license has not been forfeited. Owners of ground not yet under irrigation face the same obligation.

The next step in the SRBA process is to contact the claimant of record and request information on the last use of the well. Since there has been a change of ownership from the original claimants IDWR will need documentation of the property transaction before contacting the new owners (Quail Ridge). We will then ask the current owners for the documentation of the date of the last use of the well. If no response is received, the license may be recommended for disallowal based on non-use with a clear intent to abandon the well. The case for abandonment is made stronger by the fact that no transfer applications have been filed.

MEMORANDUM

TO: Jan Shurte
FROM: Dave Tuthill *DM*
DATE: October 17, 1995
RE: Quail Ridge Estates, License No. 63-08732

Please find attached my letter dated August 17, 1994 regarding the above-referenced water right license, and accompanying complaint letters dated July 19 and August 4, 1994. Note that my letter requested a response and no response was received.

At this point it appears that our next step should be to analyze the viability and validity of this water right in the context of the adjudication. The purpose of this memorandum is to request that the SRBA staff person who is assigned to assess this water right evaluate the possibility of forfeiture of the right having occurred. Please have the staff person discuss this matter with me if applicable.

Dear Mr. Tuthill:

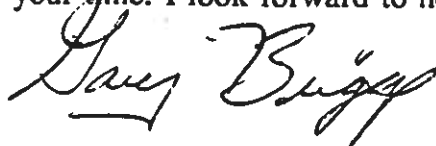

This letter serves as followup to a conversation I had with Cindy Hodges the last week of July, 1994.

I spoke with Ms. Hodges of my concern about the existing and future water draw on the Quail Ridge Estate Development south of Nampa. Quail Ridge is directly north of 220 acres I have been farming since 1979. The developer of Quail Ridge put in a road, power, phone and sewer, but elected not to provide water to the 14-16 lots of approximately 4 acres per unit. The two homes currently built on the property are pumping water from wells to irrigate their acreages. If all the lots are built upon, and all the homeowners follow the first two, I am confident that this estate will far exceed its water right.

I have discussed my concern with a neighbor, Norman Schroll, and I understand that he has already sent you notification of his and several others concern on this issue. I would appreciate your attention to this situation given the present moratorium on irrigation wells in our area.

Thank you for your time. I look forward to hearing from you.

Sincerely,

Gary J. Briggs

Dear Mr. Tuthill,

I am writing in regards to Water Right number 63-8732 which was previously Ercil Bowman Farm. I have been in contact with Cindy Hodges who referred me to you. I would like to raise some concerns so that you can take the appropriate actions if necessary.

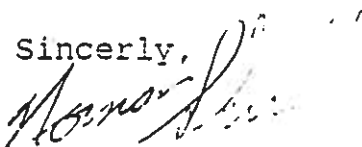

It has been brought to my attention that if a well is not used for five years the water right is forfeited. To my knowledge approximately five years ago the well on the Ercil Bowman Farm caved in. My concern is, that this land has been zoned for fourteen homes on three to four acre tracks and currently domestic wells are being drilled for each home, plus a secondary pump on each well for irrigation. I believe that this is a violation of water rights because a domestic well can only be used to irrigate .5 acre and the home use on that land.

I have also confirmed that there has been no filing of a change of delivery point, from the previous irrigation well, for the fourteen new wells to be drilled.

A second concern is that the existing water right is at maximum .5 inch per acre or 35 inches per day. If fourteen new irrigation wells are drilled and expected to be efficient they will definitely exceed the existing water right.

In conclusion due to the moratorium on irrigation wells I feel fourteen additional wells, which will replace one, should be seriously considered.

Sincerely,

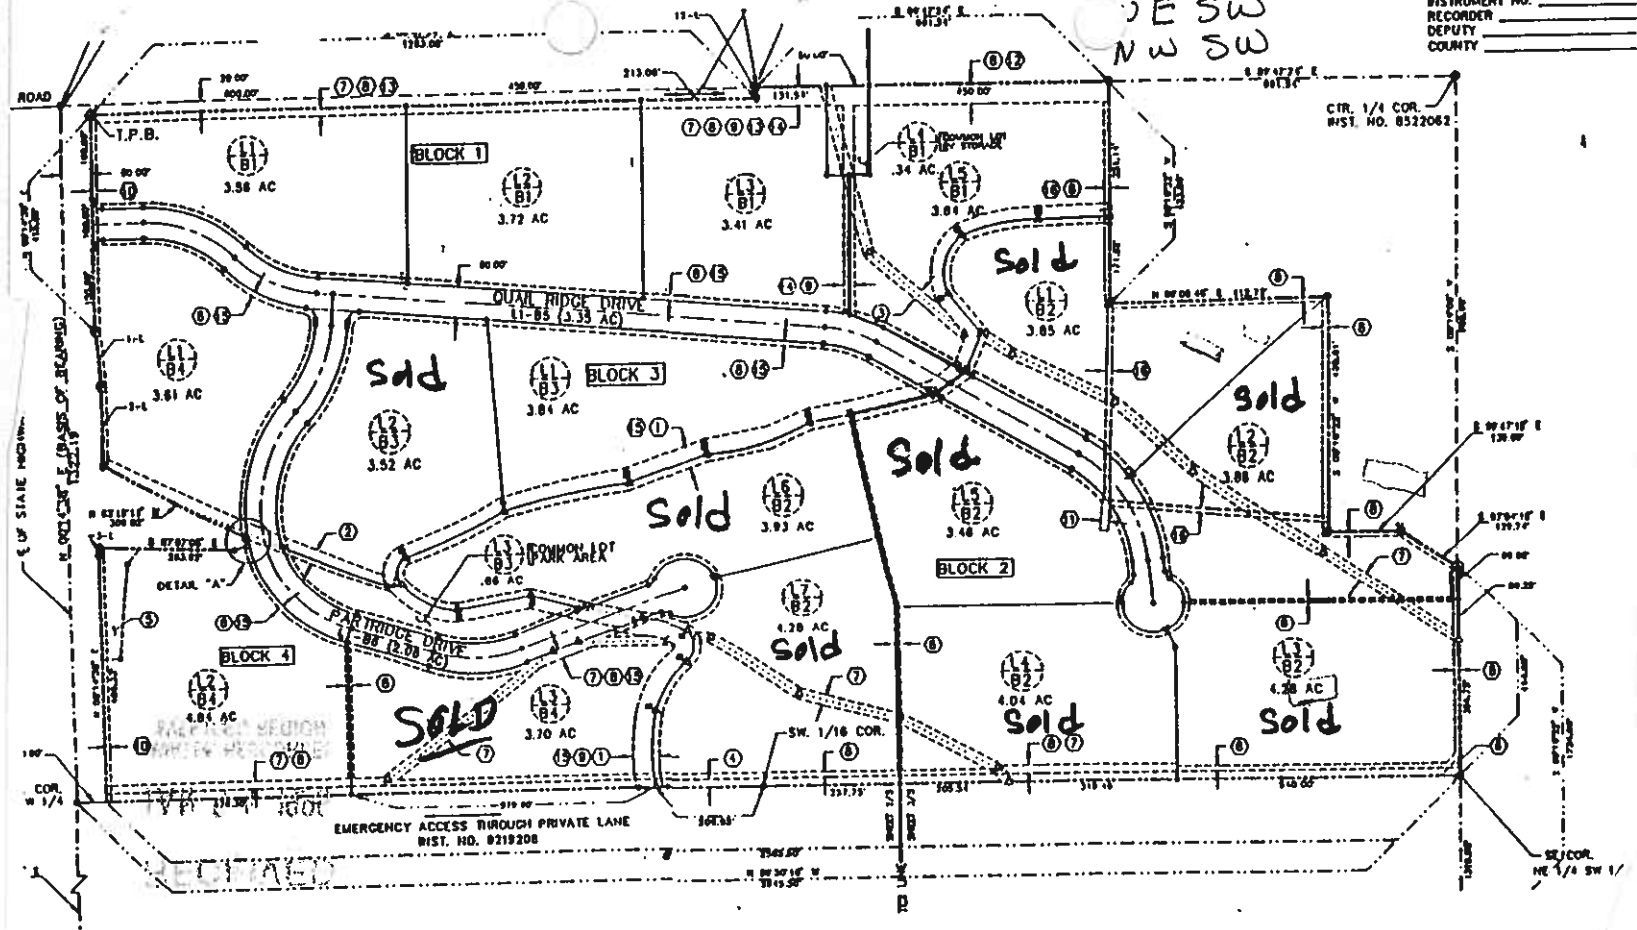

Norman Shroll

STATE OF IDAHO)
) ss.
County of Canyon)

ERCIL R. BOWMAN, after being first duly sworn, on oath, deposes and says:

1. That affiant's current address is 6028 Emerald, Boise, Idaho 83704;
2. That your affiant has a claim to water right as follows:
 - a. Date of priority: April 25, 1977.
 - b. Source: groundwater.
 - c. Point of diversion: Township 2 North, Range 2 West, Section 22,
SW $\frac{1}{4}$ NE $\frac{1}{4}$ SW $\frac{1}{4}$.
 - d. Description of diverting works: Well, 35 h.p. pump, pipeline,
sprinklers, and ditch.
 - e. Water is used for the principal purpose of irrigation.
 - f. Claim No. is A63-08732.
 - g. Basis of claim: License.

3. That your affiant has not abandoned affiant's license and did not intend to abandon such license, but in fact, has developed the subject real property with the specific intention of transferring a portion of the licensed water right to each of the developed lots for purposes of irrigation and stock watering.

4. That your affiant relied upon information received from the Department of Water Resources that gave affiant the information and belief that there would not need to be usage from the well and the delivery system during the development phase of the real property until such time as lots were developed and uses were then demanded for the water right and subsequent transfers would be made.

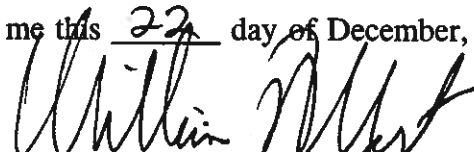

5. That the Department has recognized a transfer of a portion of the water right heretofore.

6. That the transfers of the water rights to the various lots and parcels will not use any more water than is permitted under the license granted to your affiant.

7. That your affiant will be economically disadvantaged if the water right as provided by the license is not enabled to be transferred to the lots contained in the developed area for the benefit of those lot owners.

Ercil R. Bowman

RE: Notice of Claim to a Water Right No. A63-08732

Dear Mr. and Ms. Holladay:

This office has received a Change of Ownership form for the above-referenced claim. The claim which represents your portion of the original claim is enclosed with this letter.

Please be advised that the claim has been split and a portion has been assigned to your names, but this does not confirm the validity of the water right.

Since you have a well which is not the well which was licensed by the water right, AN APPLICATION FOR TRANSFER OF WATER RIGHT IS REQUIRED BY LAW. During the application process you will be required to show that the water right has not been forfeited by five years of non-use.

As explained in my correspondence of October 31, 1995, if you cannot prove that forfeiture has not occurred, Idaho law REQUIRES that you file an Application for Permit.

YOUR WATER USE WILL NOT BE LEGAL WITHOUT EITHER AN APPROVED APPLICATION FOR TRANSFER OR AN APPROVED APPLICATION FOR PERMIT. If neither of these applications are filed with the Department of Water Resources, your Notice of Claim will likely be recommended to the SRBA court for disallowal.

Please contact this office immediately for assistance in this matter. Our office is open Monday through Friday (excluding holidays) 8:00 a.m. to 5:00 p.m.

Sincerely,

Maria Minicucci
Sr. Water Agent, Adjudication Bureau

RE: Notice of Claim to a Water Right No. A63-08732

Dear MS. BOWMAN:

Please read this entire letter carefully. It contains important information about the water rights in the Quail Ridge Subdivision in Nampa, Idaho. A response from you may be required.

This office has received information that you may be the current owner of a portion of the property represented in the above-referenced Snake River Basin Adjudication (SRBA) claim. This claim was originally filed by Colleen and Cecil Bowman, based on previously issued water right license number 63-08732.

There are several very important issues which require your attention. First, if you wish to claim a portion of this license in the SRBA, please complete the enclosed Change of Ownership form and return it to this office. Additional information will be required, as described below.

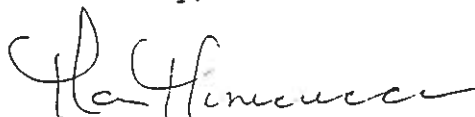

It has come to the attention of this office that there has been a period of non-use for this water right. Idaho law states that any water right or portion of a water right that has not been used for five years is subject to forfeiture. In other words, if it has been five years or longer between the use of the originally licensed well and any new well for irrigation, it is possible that the licensed water right (or portion of) has been lost due to non-use. If it appears that you can claim a portion of the SRBA claim, you will be required to provide evidence that the water right or your portion of the right has not been forfeited by non-use. An Application for Transfer, as described below, will also be required. You may wish to contact the previous owner to obtain information about the date the original well was last used for irrigation.

If you are irrigating more than 1/2 acre with groundwater, you must contact this office immediately. Any new wells on the property described in the SRBA claim which irrigate more than 1/2 acre of ground must file either an Application for Transfer or an Application for Permit with this office. An Application for Permit is mandatory if you are irrigating more than 1/2 acre of ground and cannot show that the previous water right was not forfeited by non-use.

A domestic well may be used to irrigate up to 1/2 acre without a water right. If you irrigate 1/2 acre or less from groundwater, you may chose to file an Application for Transfer (and submit evidence that the water right license has not been forfeited). If the right has not been forfeited you will preserve the priority date of the license. However an Application for Transfer is not required if you are irrigating 1/2 acre or less from groundwater. You may also chose to file an Application for Permit, but it is not mandatory for domestic use.

If you have any questions about this letter, please do not hesitate to contact is office. The office is open Monday through Friday, 8:00 a.m. to 5:00 p.m.

Sincerely,

A handwritten signature in cursive script, appearing to read 'M. Minicucci'.

MEMORANDUM

TO: File A63-08732

FROM: Maria Minicucci

DATE: October 25, 1995

RE: License No. 63-08732, SRBA Claim No. A63-08732

As requested by DRT in his memo of October 17, 1995, I have investigated the above referenced SRBA claim. The following is the result of that investigation.

The beneficial use field exam was conducted for this license on August 7, 1987. A copy of that report is attached. The license was issued February 8, 1990, for .70 cfs and 284.9 AF for the irrigation of 35 acres in the NESW and 28 acres in the NWSW, both in T02N, R02W, section 22, a total of 63 acres. The Napp from 1987 clearly shows the parcel as irrigated (although surface water is delivered to the property).

On October 18, 1995, I visited the site. I found the licensed well site, but the power has been cut. I could not locate the actual well hole, however the trough set-up found is exactly as described in the beneficial use field report. See photos Nos. 1 & 2. No irrigation was evident except for the lots with finished houses. See photos nos. 3-6. The houses have irrigated lawns which appear to be well over 1/2 acre. However surface water may be available to the subdivision as evidenced by the presence of a lateral and backflow piping (see photo no. 4).

If one assumes that irrigation occurred until the property was sold to the developer of Quail Ridge, then it was irrigated in 1989, since the Bowmans filed on the license in February of 1990. If 1989 was the last year the property was irrigated, then use would have to resume by the 1994 irrigation season. IDWR's scanned airphoto (No. J4) is dated July 1994 and clearly shows the subdivision. There is no irrigation in this photo. However, absent concrete information about the last date of irrigation from the licensed well, the license cannot be judged forfeited at this time.

All of the drilling permits found for this subdivision are for domestic use. Assuming that the owners in fact limit their irrigation to what is allowed by law, and all irrigation is from surface water, then the licensed ground water license may be lost.

If the owners are irrigating 1/2 acre or less but still would like to claim a portion of the license then transfer applications are required and the owners must provide evidence that the license has not been forfeited. If the owners are irrigating more than 1/2 acre with ground water, the transfers are required and the owners

must provide evidence that the license has not been forfeited. Owners of ground not yet under irrigation face the same obligation.

The next step in the SRBA process is to contact the claimant of record and request information on the last use of the well. Since there has been a change of ownership from the original claimants IDWR will need documentation of the property transaction before contacting the new owners (Quail Ridge). We will then ask the current owners for the documentation of the date of the last use of the well. If no response is received, the license may be recommended for disallowal based on non-use with a clear intent to abandon the well. The case for abandonment is made stronger by the fact that no transfer applications have been filed.

MEMORANDUM

TO: Jan Shurte
FROM: Dave Tuthill *DT*
DATE: October 17, 1995
RE: Quail Ridge Estates, License No. 63-08732

Please find attached my letter dated August 17, 1994 regarding the above-referenced water right license, and accompanying complaint letters dated July 19 and August 4, 1994. Note that my letter requested a response and no response was received.

At this point it appears that our next step should be to analyze the viability and validity of this water right in the context of the adjudication. The purpose of this memorandum is to request that the SRBA staff person who is assigned to assess this water right evaluate the possibility of forfeiture of the right having occurred. Please have the staff person discuss this matter with me if applicable.

Dear Mr. Tuthill:

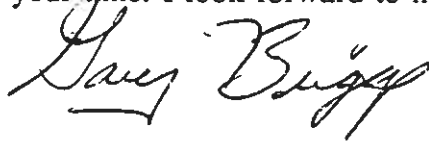

This letter serves as followup to a conversation I had with Cindy Hodges the last week of July, 1994.

I spoke with Ms. Hodges of my concern about the existing and future water draw on the Quail Ridge Estate Development south of Nampa. Quail Ridge is directly north of 220 acres I have been farming since 1979. The developer of Quail Ridge put in a road, power, phone and sewer, but elected not to provide water to the 14-16 lots of approximately 4 acres per unit. The two homes currently built on the property are pumping water from wells to irrigate their acreages. If all the lots are built upon, and all the homeowners follow the first two, I am confident that this estate will far exceed its water right.

I have discussed my concern with a neighbor, Norman Schroll, and I understand that he has already sent you notification of his and several others concern on this issue. I would appreciate your attention to this situation given the present moratorium on irrigation wells in our area.

Thank you for your time. I look forward to hearing from you.

Sincerely,

Gary J. Briggs

Dear Mr. Tuthill,

I am writing in regards to Water Right number 63-8732 which was previously Ercil Bowman Farm. I have been in contact with Cindy Hodges who referred me to you. I would like to raise some concerns so that you can take the appropriate actions if necessary.

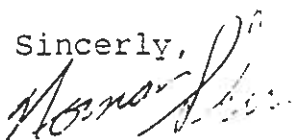

It has been brought to my attention that if a well is not used for five years the water right is forfeited. To my knowledge approximately five years ago the well on the Ercil Bowman Farm caved in. My concern is, that this land has been zoned for fourteen homes on three to four acre tracks and currently domestic wells are being drilled for each home, plus a secondary pump on each well for irrigation. I believe that this is a violation of water rights because a domestic well can only be used to irrigate .5 acre and the home use on that land.

I have also confirmed that there has been no filing of a change of delivery point, from the previous irrigation well, for the fourteen new wells to be drilled.

A second concern is that the existing water right is at maximum .5 inch per acre or 35 inches per day. If fourteen new irrigation wells are drilled and expected to be efficient they will definitely exceed the existing water right.

In conclusion due to the moratorium on irrigation wells I feel fourteen additional wells, which will replace one, should be seriously considered.

Sincerely,

Norman Shroll

condition R 32 *Roxanne McCarthy* 1/13/89

RECOMMEND REMOVAL OF THE MANS. DEVICE REQUIREMENT DUE TO THE AMOUNT ACTUALLY BEING ORIENTED IS UNDER .7 CFS. JS

The rate of flow measurement on this exam is weak. However, I cannot see a better way to measure the flow. The measurement port is not viable as there is no pressure in the discharge pipe. Rely on the theoretical computation and on the sprinkler measurement of the pumped section. The value of 0.67 cfs appears to be reasonable. — 1/2/88

OF THE
STATE OF IDAHO

IN THE MATTER OF CHANGING THE MEASURING
DEVICE REQUIREMENT FOR PERMIT NO. 63-8732

ORDER

WHEREAS, the above numbered permit was approved with the condition that a measuring device of a type approved by the Department be permanently installed and maintained as part of the diverting works; and,

WHEREAS, on July 1, 1978, the Department adopted a new water measurement condition which states: "An access port or other device as specified by the Department shall be installed by the permit holder to provide for the installation of measuring equipment and the determination of the rate of diversion by the Department"; and,

WHEREAS, the former condition required the permit holder to purchase and install a measuring device or hire a professional engineer to certify the rate of diversion; and,

WHEREAS, the measuring device condition effective July 1, 1978, requires less capital expenditure by the permit holder; and,

WHEREAS, to be equitable to holders of permits issued prior to July 1, 1978, the new condition should be retroactive;

NOW THEREFORE, it is hereby ordered that the condition of approval of this permit related to water measurement is hereby changed as follows:
"The permit holder shall either install a measuring device or provide a certified measurement by a professional engineer or install an access port or other device as specified by the Department".

Dated this 1st day of June 1981.

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. 63-8732, and said application is hereby APPROVED.

1. Approval of said application is subject to the following limitations and conditions:

- a. SUBJECT TO ALL PRIOR WATER RIGHTS.
- b. Proof of construction of works and application of water to beneficial use shall be submitted on or before June 1, 19 82.
- c. Other: A measuring device of a type approved by the Director shall be permanently installed and maintained as part of the diverting works.
The rate of diversion of water for irrigation under this permit and all other water rights on the same land shall not exceed 0.02 cubic feet per second for each acre of land.

Witness my hand this 17 day of June, 19 77.

BENEFICIAL USE FIELD REPORT

A. GENERAL INFORMATION

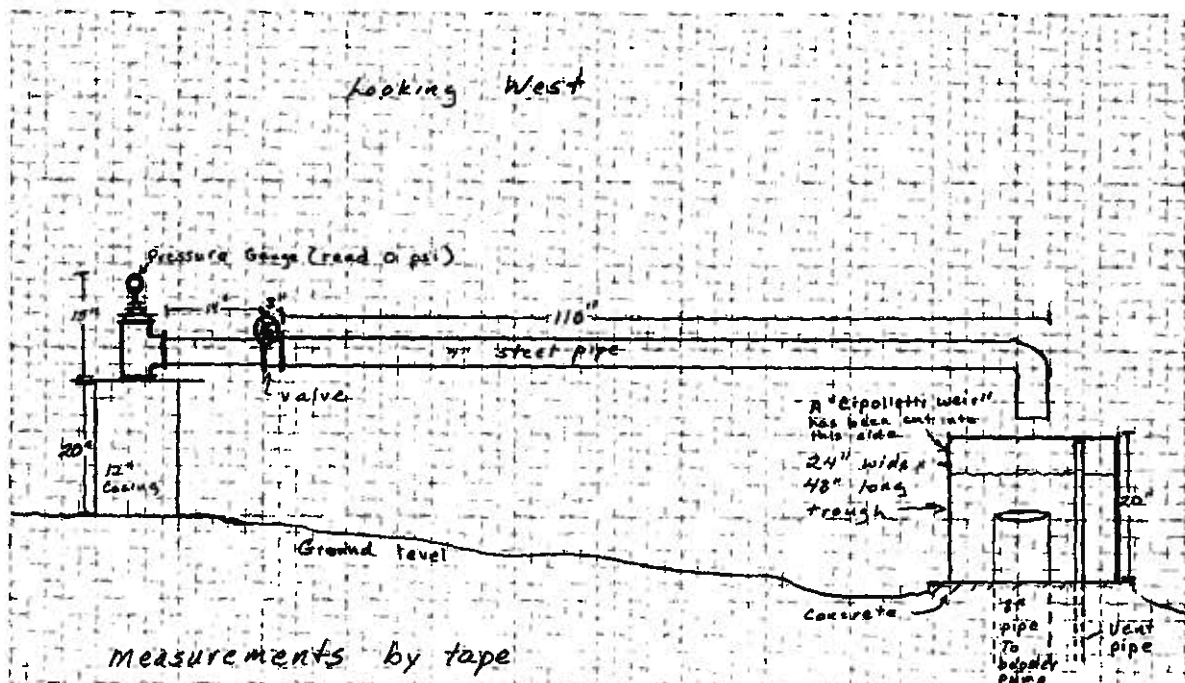

Permit No. 63-8732
1. Owner: Ercil and/or Colleen Bowman Phone No. 466-7129
Current Address: Rt 7 Box 7186, Nampa, ID 83651
2. Accompanied by: Mrs. Bowman EXAM. DATE: 8-7-87
Address: Same as above Phone No. 466-7129
Relationship to Permit Holder: _____
3. Source: Groundwater tributary to _____

B. OVERLAP REVIEW

1. Other water rights with same place of use: Surface water Boise-Kuna Irrigation District ☐ Copies Attached
2. Other water rights with same point of diversion: None ☐ Copies Attached ☐ Copies of Field Exam's Attached

C. SYSTEM DESCRIPTION

1. Diversion System Diagram: Indicate all major components and distances between components. Indicate weir size/ditch size/pipe i.d. as applicable. ☐ Alternative diagram attached

Scale: 1" = 2'

2. ☒ Copy of U.S.G.S. Quadrangle Attached Showing location(s) of point(s) of diversion and place(s) of use (required). ☒ Aerial Photo Attached (required for irrigation of 10 acres or more) FEB 2 1990
☒ Photo of Diversion and System Attached (required for all but single household domestic groundwater, and stockwater.)

System Description (continued)

3. Narrative: Description (As operating at time of measurement. Indicate pressure, number of sprinklers, etc.)

The system has a 240' deep well with 12" casing from 0' to 174', 8" casing from 166' to 237' and 6" casing from 219' to 240'. A 20 H.P. submersible pump is set at 178'. Earlier this summer a new pump was installed and at that time the static level was 127' and the drawdown was to 161'. A 4" pipe from the pump open discharges into a 24" x 18" x 21" deep trough

D. FLOW MEASUREMENTS

☐ Additional Data Sheets Attached

1.

Measurement Equipment	Type	Make	Model No.	Serial No.	Size	Calib. Date
5 gallon bucket						
stopwatch						
Pressure gauge						

2. Measurements:

Filled a 5 gallon bucket in 1 second.
 Was not able to use the "weir" cut into the stock trough
 68 Rain Bird Model 30 heads $\frac{5}{32}$ " nozzles at 25 psi
 $68 \times 3.52 \text{ gpm} = 239 \text{ gpm}$ $\frac{5}{32}$ " at 25 psi = 3.52 gpm
 $239 \div 448.8 = 0.53 \text{ cfs}$ Not all the water being pumped was being used by the sprinklers

E. FLOW CALCULATIONS

☐ Additional Computation Sheets Attached

1. Measured Method: $\frac{5 \text{ gal}}{1 \text{ sec}} \times \frac{60}{1} = 300 \text{ gpm}$ $\frac{300}{448.8} = 0.67 \text{ cfs}$

2. Alternate Method for Checking Purposes:

$$\frac{20 \times 8.8 \times .8}{1.41} = 0.87 \text{ cfs}$$

F. PUMP EFFICIENCY DATA (Optional)

Discharge Pressure: 0 psi $\times 2.31 =$ 0 ft (1); Dynamic pumping level: 161 ft (2)

Total Head: (1) + (2) = 161 (3) ; Flow rate: .67 cfs (4)

Water HP: (3) $\times$ (4) $\div 8.8 =$ 12.3 (5)

Meter Input KW: $3.6 \times \frac{57.6 \text{ KH}}{1000} \times$ CTR or MULT $\times$ PTR $\times \frac{10}{100} \text{ N/} \frac{95}{100} \text{ T} =$ 21.8 (6)

Meter Input HP: (6) $\times 1.34 =$ 29.2 (7)

Panel Input KW: Ave PF $\times$ Ave Volts $\times$ Ave Amps $\times .001732 =$ (8)

Panel Input HP: (6) $\times 1.34 =$ (7) Efficiency: (5)/(7) $\times 100 =$ 42.1 %

G. VOLUME CALCULATIONS

1. Volume Calculations for Irrigation:

$$V_{I.R.} = (\text{Acres Irrigated}) \times (\text{Irrigation Requirement}) = 63 \times 4.5 = 283.5$$

$$V_{D.R.} = [\text{Diversion Rate (cfs)}] \times (\text{Days in Irrigation Season}) \times 1.9835 = 0.67 \times 245 \times 1.98 = 325.0$$

$$V = \text{Smaller of } V_{I.R.} \text{ and } V_{D.R.} = 283.5$$

2. Volume Calculations for Other Uses:

100 head of cattle Allow .03 cfs and 1.4 afa

H. REMARKS AND OVERLAP REVIEW ANALYSIS

that has an 8" pipe running underground from the trough to the booster pump (approximately 100' North of the well). The booster pump is a 15 H.P. centrifugal pump, Rain O Flow ser. no. 13653 (Century Meter & Cornell pump). A 4" mainline runs North and South from the booster pump with risers for the 3" aluminum handlines. All the land was planted to pasture and there were 52 pairs of cows and calves on the pastures at the time of the exam.

This water supplements Boise-Kuna Irrigation District water, and the ground water that is not used by

I. RECOMMENDATIONS

the sprinklers is comingled with the surface water and it is used to flood irrigate the pasture in the N.W. corner of the farm.

1. Recommended Amounts

Beneficial Use	Period of Use		Rate of Diversion	Annual Volume
	From	To	Q (cfs)	V (afa)
irrigation	3-15	11-15	0.67	283.5
stockwater	1-1	12-31	0.03	1.4
Totals:			0.67	284.9

RECOMMEND REMOVAL OF THE MEAS. DEVICE REQUIREMENT DUE TO THE AMOUNT ACTUALLY BEING DIVERTED IS UNDER 1.0 CFS

MICROFILMED

FEB 21 1990

The rate of flow measurement on this exam is weak. However, I cannot see a better way to measure the flow. A flow measurement port is not viable as there is 0 pressure in the discharge pipe. Based on the theoretical computation and on the sprinkler measurement of the pumped portion, the value of 0.67 cfs appears to be reasonable. Dec 1/12/88

CERTIFIED MAIL

EXAMINATION FEE NOTICE

Dear Permit Holder:

Department records show that proof of beneficial use has been submitted for the above-referenced permit, but that a field examination has not yet been conducted to determine the extent of beneficial use of the water for licensing purposes.

House Bill 671 (effective April 4, 1986) enacted by the 1986 Idaho Legislature requires the payment of a fee before this department can conduct the field examination needed to issue a license confirming use of water under the permit. This letter is notification that the license examination fee is due within sixty (60) days of the date of this letter. The examination fee information sheet (enclosed) must be returned with the fee.

As an alternative to submitting the fee, the department will accept a field examination report completed by a certified water right examiner from the private sector. If you choose to have the examination done by a certified water right examiner, you need not submit the license examination fee to the department, but you must within sixty (60) days of the date of this letter return to the department, the examination fee information sheet showing appropriate information together with a statement from the certified examiner to verify that you have retained a certified examiner to conduct the field examination. If you choose this alternative, a completed field examination report must be submitted within one year of the date of this letter. You cannot later change your decision to use this alternative and submit the fee needed for the department to conduct the field examination, but you may change to another certified examiner.

Certified water right examiners are licensed engineers, geologists, or land surveyors certified by the department to conduct water right examinations. The procedure for certifying examiners from the recently enacted HB 671 and is being developed at

MICROFILMED

FEB 21 1990

of certified water right examiners will be available from this department when examiners have been certified.

If your permitted use, in fact, has already been examined by the department and you have not asked to have the examination repeated, the fee requirement is not applicable to your permit. If you believe this is the case, please contact the department.

The license examination fee is to be based on the amount of water you indicate you have developed, as listed in item 6 on the examination fee information sheet. The amount of water on which the examination fee is based can be less than the permitted amount, if less water has been diverted and beneficially used. The licensed amount of water, however, will not exceed the amount you claim on the examination fee information sheet. The enclosed license examination fee schedule shows a listing of applicable fees.

FAILURE TO SUBMIT WITHIN THE SIXTY (60) DAY PERIOD, THE FEE OR THE STATEMENT THAT A CERTIFIED EXAMINER HAS BEEN RETAINED TO MAKE THE FIELD EXAMINATION, WILL BE CAUSE TO ADVANCE THE PRIORITY OF THE PERMIT ONE DAY FOR EACH DAY THAT THE FEE SUBMITTAL IS LATE.

FAILURE TO SUBMIT THE FEE OR THE COMPLETED FIELD EXAMINATION REPORT WITHIN A YEAR WILL BE CAUSE TO CONSIDER THE PROOF OF BENEFICIAL USE TO BE INCOMPLETE AND TO LAPSE THE PERMIT.

The attached examination fee information sheet and the fee may be submitted to the following department offices.

Dear Mr. and Mrs. Cowan:

We acknowledge receipt of your statement submitted as proof of beneficial use for the above referenced permit.

Before a license can be issued, a field examination must be made by a representative of this Department.

☐ A field examination of your system has been scheduled for _____.

If this time and date is not convenient for you, please contact this office as soon as possible.

☐ A field examiner will contact you to arrange to examine your system.

If you have any questions regarding the field examination, please contact this office.

Sincerely,

Judy Pense

NOTICE OF APPLICATION FOR WATER PERMIT

Notice is hereby given that ERCEL &/or COLLEEN ROMAN
Route 7, Box 7185 Nampa, ID
has on April 25, 1977 submitted Application No. 63-8732
for a permit to appropriate 1.45 cubic feet per second ~~XXXXXXXXXX~~
~~XXXXXXXXXX~~ of water from a groundwater source
by means of well, pump, pipe and sprinklers
within the N4SW, Sec 22 T2N-R2W B.M., Canyon County

to be used from Jan 1 to Dec 31
for NK stockwater and from Mar 15 to XXXXX Nov 15 for irrigation of 71
acres
within the N4SW, Sec 22 T2N-R2W B.M.

If issued, this permit will be subject to all prior water rights. Pro-
tests against the granting of the permit must be filed with the Director of
the Idaho Department of Water Resources, 92 South Cole Road, Boise, Idaho
83705 on or before May 23, 1977.
