NOTES: 12/19/1995: There is a place of use overlap with this license + license 63-08395. See MAPS C + D
See attached traps from licensing exams. The fields south of the ditch on the Baums' property were licensed to both the Baums + Mr. Ellis (63-08395). The Baums have indicated how much of the land north of the ditch they own - see
MAP A → their copy of ASCS map rec'd 12/18/1995. It appears that the fields in question (starred on Trap B belong to the Baums and should be included in this claim. These acres should be deleted from Mr. Ellis' claim (A63-08395).
The reduction in acres in the NW quarter is based on the Baums' drawing of these lands (see Trap A). Their land does not go as far to the west as MAP C
shown on the ASCS map from the field exam for 63-08855. The fields on the south side of the ditch are leased by Mr. Ellis, changing the field configurations from the 1983 traps. Mr. Ellis irrigates the fields south of the ditch as one although the Baums still own a portion of the field. Acres determined using Lascio planimeter, Model No. 42P, Serial No. B-90848, IDWR No. 149696, w/short arm on ASCS scale (1"=660'). 777
12/20/1995: Boise Valley Project Scanned Aerialphoto shows all fields, + division on SW field is clear (thinner field indicated by Baums and wider field to the west indicated on B/V exam) 777

Subject: Field Exam For 63-8395
& 63-8855

The problem with these exams is that Mr. Ellis leased the property from Mr. Baum who used to irrigate that land with the well covered by Permit No. 63-8855. So when John did the exam Mr. Baum told him he had irrigated it from his well which was true. But when I did the exam the Ellis's were irrigating it from their well at that time.

In speaking with Mr. Baum since it is his land he would prefer the water to be licensed to him. So perhr s both permits could be licensed with special conditions.

RE: Notice of Claim to a Water Right No. A63-08855

Dear Mrs. and Mr. Baum:

This letter is to inform you of a change in your claim number, and to request some information from you.

Your original claim, A63-08855, was split by a change of ownership for a portion of the claim. A new number, A63-08855A, was assigned to the portion of the water right remaining in your names. After the claim was split the other party withdrew their claim to a portion of the original claim. Consequently, your claim number has been changed back to the original number with the originally claimed number of acres and amount of water. The new claim number, which is also the original claim number, is referenced at the top of this letter.

The information which is requested from you concerns the ownership of some of the lands claimed. It appears that some fields have separate water right licenses issued both to you and to Mr. Ellis. Please indicate on the enclosed map which fields you own. Do not include any leased property. Please return the completed map to my attention at this office.

If you have any questions, please do not hesitate to contact me.

Sincerely,

Maria Minicucci

RE: Claim(s) to a Water Right filed in the Snake River Basin Adjudication

Claim Nos. A63-08855A

Dear Claimants:

The Department of Water Resources will be conducting claim verification field exams in your area this summer. An examination is needed to verify your water use in order to complete our report on the above-referenced claims for the court's decree.

The field exams are conducted to gather information about your water right. This information may include the source of water, type of usage, amount of water used, number of acres irrigated, and the legal description of the point of diversion and/or place of use.

Please contact me at this office by July 21, 1995, in order to make an appointment at a time which is convenient for you. Although it is not mandatory that you accompany me on the field exam, it is helpful if someone familiar with the water delivery system is present during the exam. This will help insure that your water right is described accurately for the report to the court.

To make an appointment, or if you have any questions or concerns about the field exam, please contact me at your earliest convenience.

Sincerely,

RE: CONVERSATION WITH LYNN C.H.

In a conversation with Lynn this date, she indicated that we can (should) ask for any written material ie. deeds, contracts etc. pertaining to the property in a change of ownership request.

As the deed was silent on this particular water right ("deed says all appurtenances") the change of ownership was in order. Submission of a contract that specifically addressed the water right at issue could change our recommendation of a split. In this particular instance the "contract does not clearly express a contrary mutual intent".

At this point Mr. Baum does have the option of filing an additional claim for the .08 cfs which is now under part B (Mr. Brady's portion), or he may file an objection to our recommendation.

Also in a conversation with Mr. Brady, he may be withdrawing the portion he filed on.

RE: Mr. and Mrs. Baum are concerned over Brady's splitting of water right.

The Baums were in this date expressing their concern over the splitting of the above referenced claim to a water right. I explained that when I was contacted by Mr. Brady that by his legal we located this right by his legal and I had explained that if the deed is silent on water rights, that generally the water (if any are pertinent) go with the land that is sold.

Mr. Baum submitted to Lori Graves of Western the day before a copy of the contract which states water from the well will be used for domestic usage only. As Dave S. brought out, it does not withhold the irr. portion of the right from the land just that this well will not supply it.

Mr. Baum was not pleased with this explanation but at the end did acknowledge that it could be interpreted that way. He was concerned about Mr. Brady drilling a well on his own property with that same priority date, eventually after discussing that there did not appear to be any infringement on his right he expressed concern that Mr. Brady has built a horse run, and in conjunction with the other structures on the property was not irrigating more than 1.5 acres.

I assured him that a note to the file would indicate that a field exam was necessary so that no more acres than actually irrigated would be recommend for this right.

I also indicated that I would probably forward the file to the region as soon as Lynn reviewed it. Either I or Lori would contact him if Mr. Brady withdraws or modifies the claim, otherwise he should assume nothing has changed. In which case he may wish to file an objection to our recommendation to the court if he disagrees to it.

I believe he left with an understanding of what was happening but was not overly pleased.
