RE: WITHDRAWAL OF WATER ADJUDICATION CLAIM
SUBMITTED BY REMINGTON WATER DISTRICT
UNDER PERMIT TO APPROPRIATE WATER NO. 95-09427

Dear Mr. Haynes and Mr. Goodwin:

Pursuant to our meeting on December 22, 2009, on behalf of the Remington Water District (the 'District') I request that the Adjudication Claim made under the Permit to Appropriate Water No. 95-09427 be withdrawn and the filing fees be returned. The filing fee can be returned directly to the District at Remington Water District, PO Box 2788, Hayden ID, 83835.

It is my understanding that the District has an active Permit to Appropriate Water for this additional well with a priority date of October 18, 2007. At this time the well does not have a pump and has not been put to beneficial use by the District. Under the Permit, the District has until June 1, 2013 to prove beneficial use or request an extension. Because no beneficial use has been established, an adjudication claim cannot be filed at this time.

Adjudication claims for two other wells of the District have been filed under Permit No. 95-9457 and No. 95-9458. Once the District has proven beneficial use through the permitting process for this additional well, it is my understanding that this additional water right will automatically continue as a water right of the District and will be cross referenced with the other two water rights of the District. The District will not be required to separately adjudicate this additional water right, amend the ongoing adjudication or take any other legal action to affirm that this additional water right is a right of the District. If I am incorrect in this understanding, please contact me. Mr. Chandler will continue to pursue the work required to prove beneficial use for Permit No 95-9427.
