316 ACRES TOTAL

Right Nos. 78-2025B, 78-4080 and 78-4170 are limited to the irrigation of a combined total of 316 acres in a single irrigation season.

This right is limited to the irrigation of 140 acres within the place of use described above in a single irrigation season.

OTHER PROVISIONS NECESSARY FOR DEFINITION OR ADMINISTRATION OF THIS WATER RIGHT:

The quantity of water decreed for this water right for stockwater use is not a determination of historical beneficial use.

This partial decree is subject to such general provisions necessary for the definition of the rights or for the efficient administration of the water rights as may be ultimately determined by the Court at a point in time no later than the entry of a final unified decree. Section 42-1412(6), Idaho Code.

EXPLANATORY MATERIAL: BASIS OF CLAIM - License

Right includes accomplished change in place of use pursuant to Section 42-1425, Idaho Code.

Dear Mr & Mrs Hall:

I received a call last week from Al Becker at the New Meadows Ranger District Office. He requested copies of documents he could forward to his Regional Office that would confirm your water rights. I mailed him a computer generated report for your Snake River Basin Adjudication (SRBA) claim for your licensed right, A78-02025B and your Statutory Claim, A78-04080. He also requested for his file copies of the claims after they are amended and told him we would comply with his request.

It's possible we could amend your claims by mail and save you an unnecessary trip to Boise if you can provide me with the information I would need to prepare an amended claim form. Enclosed is a copy of a topographical map for your use in drawing your irrigation system. Be sure to include and label all points of diversion (P/D), injection points (I) and re-diversion points (R). I've also enclosed copies of some computer generated reports of your claims as they are currently recorded.

In reviewing the SRBA claims, A78-04080 & A78-04170, for your two Statutory claims I developed some questions concerning the water sources. The original filing for 78-04080 in 1983 shows five sources: 1) Unnamed Streams tributary to Browns Creek; 2) Six Mile Creek tributary to Little Salmon River; 3) Browns Creek tributary to Hard Creek; 4) Unnamed Streams tributary to Little Salmon River; 5) Landers Creek tributary to Little Salmon River. The SRBA claim shows only sources 1, 2, & 3 above. Are sources 4 & 5 no longer used or was it simply an error of omission when the claims were filed?

The original filing for 78-04170 in 1983 shows Unnamed Stream tributary to Little Salmon River as the source. SRBA claim A78-04170 lists three sources: 1) Lander Creek tributary to Little Salmon River; 2) Campbell Creek tributary to Little Salmon River and 3) North Creek tributary to Little Salmon River. I cannot find on any of the maps in our office streams named Lander Creek, Campbell Creek and North Creek. This makes me suspicious that they are legally Unnamed Streams but known locally in the area by the names above. Can you provide any information about the names of these three sources?

When we amend your claims to reflect the correct diversion, injection and re-diversion points I would also like to make any necessary changes in the sources. Let me know if you would like to try to amend the claims by mail or if you still want to schedule an appointment in our office at a later date.

CLAIMANT: Alvin & Lennie Hall CLAIM NO: A78-02025BEMPLOYEE: Mel L. DATE: 3-8-96.SUBJECT: Amending claim?

Mr & Mrs Hall called about the possible need to amend their claim and A78-04080 and -04170. They think P/D's claims are not correct because they do not match the original license. They had the property surveyed and will call later to make an appointment to receive the claims and make the necessary amendments if needed.
