Dear Sir:

We purchased this property June 23, 1983.

The people we bought the property from had a 1 ½ HP pump with an inlet pipe into the Spokane River and pumped water for the garden and yard at that time.

We know that since the pump was hooked up to power and operating that it obviously had been in use prior to the time we bought the property. We could not find anyone that had any memory of the water use prior to the summer of 1982. But is obviously was used the summer of 1982 because the pump, power and sprinkler system were all operating.

Sincerely,

Judson L. Melton

Karen R. Melton
