Re: Claims to Water Right Nos. 78-4028, 78-4029 and 78-4097

Dear Claimant:

In January of 1993, you submitted a notice of change in ownership of the above referenced claims in the Snake River Basin Adjudication. Enclosed are computer generated print-outs of the claims for your reference only; these print-outs are **NOT** to be returned or re-filed. You have indicated, when these claims were filed, that the water rights were based on a "Statutory Claim" of the water. Water rights of this type are established by the historical use of water for a beneficial purpose, dating back to the time the water was first used, this date being the "**Priority Date**" as shown on the enclosed print-outs. These claims have not been confirmed by a previous filing with the Department of Water Resources since there is no decree, license, or permit on file to verify the use of this water. For this reason, the Department is required to gather evidence from claimants supporting the date of priority for claims based on historical beneficial use of water. Any other claims you may have filed, that are not listed above, do not require evidence of priority be submitted at this time.

Enclosed is a pamphlet entitled "**Evidence of Priority**" which describes why evidence of the priority date is necessary along with examples of types of evidence that can be submitted to fulfill this requirement. If no evidence is submitted, or we do not hear from you within the time limit below, the priority date, as claimed, may not be recommended to the Court for decree. This could jeopardize the water use under this right, if water availability problems arise in the future. It is our goal to decree the historical water rights within the Snake River Basin as accurately as possible.

The required evidence supporting the priority dates must be submitted by **December 14, 2006**, referencing all documents with the corresponding claim numbers. If you have any questions not covered by this letter, or the enclosed pamphlet, please feel free to call me at 287-4953.

Sincerely,

Kay Walker
Sr. Water Resource Agent

ANY OF THE SOURCES LISTED
ABOVE?**

IF YOU CANNOT furnish some proof such as the examples listed above, you may submit your own testimony, in the form of an affidavit (a letter signed by the you and notarized), which explains the basis for the year of priority claimed. The letter should include a statement of the claimant's personal knowledge of the water use, but may also include information the claimant obtained from others.

Re: Claims to water right Nos. 78-4028, 78-4029, 78-4097

Dear Sirs:

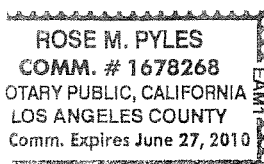

I will need to submit my own testimony in the form of an affidavit.

When I purchased the property in 1994, -associated with the above listed water right nos., I was informed by the owners-members of the Evans family-that they have been irrigating from The Springs and Irrigation Storage since the late 1800's and early 1900's.

I am requesting the early priority dates be honored.

Sincerely,

Kenneth R. Purdom II MD

Dear Sirs:

I will need to submit my own testimony in the form of an affidavit.

* When I purchased the property in 1994, -associated with the above listed water right nos., I was informed by the owners-members of the Evans family-that they have been irrigating from The Springs and Irrigation Storage since the late 1800's and early 1900's.

I am requesting the early priority dates be honored.

Sincerely,

Kenneth R. Purdom II MD

Re: Claims to Water Right Nos. 78-4028, 78-4029 and 78-4097

Dear Claimant:

In January of 1993, you submitted a notice of change in ownership of the above referenced claims in the Snake River Basin Adjudication. Enclosed are computer generated print-outs of the claims for your reference only; these print-outs are **NOT** to be returned or re-filed. You have indicated, when these claims were filed, that the water rights were based on a "Statutory Claim" of the water. Water rights of this type are established by the historical use of water for a beneficial purpose, dating back to the time the water was first used, this date being the "Priority Date" as shown on the enclosed print-outs. These claims have not been confirmed by a previous filing with the Department of Water Resources since there is no decree, license, or permit on file to verify the use of this water. For this reason, the Department is required to gather evidence from claimants supporting the date of priority for claims based on historical beneficial use of water. Any other claims you may have filed, that are not listed above, do not require evidence of priority be submitted at this time.

Enclosed is a pamphlet entitled "Evidence of Priority" which describes why evidence of the priority date is necessary along with examples of types of evidence that can be submitted to fulfill this requirement. If no evidence is submitted, or we do not hear from you within the time limit below, the priority date, as claimed, may not be recommended to the Court for decree. This could jeopardize the water use under this right, if water availability problems arise in the future. It is our goal to decree the historical water rights within the Snake River Basin as accurately as possible.

The required evidence supporting the priority dates must be submitted by **December 14, 2006**, referencing all documents with the corresponding claim numbers. If you have any questions not covered by this letter, or the enclosed pamphlet, please feel free to call me at 287-4953.

Sincerely,
