Re: Snake River Basin (SRBA) Claim Nos. 78-4094 and 78-4095

Dear Rex:

Please find enclosed the revised recommendations with GIS layouts (maps) for the SRBA claims referenced above. The SRBA Court has set a deadline of December 31, 2007 for filing the amended Director's Reports for these claims. So, please review the recommendations with Sarah, and contact me no later than December 14, 2007 if you have any additional information that could result in modifying the recommendations.

You will note that the priority date for claim no. 78-4094 has not been recommended with the date claimed. That is because none of the information provided in the 1963 tax records supported the irrigation of more acres than have been recommended for claim nos. 78-4095 and 78-4096, both of which have priority dates earlier than 1963. Therefore, I relied completely on the affidavit of Doris Hubbard in order to arrive at the 1970 priority date for this claim. If Thomas has any memory of the irrigation system that utilizes the portable pumps in Mud Creek prior to 1970, perhaps he could describe that system with dates of use in another affidavit.

You also supplied a posted notice in the name of Charles Sundholm dated September 8, 1902 for land in Township 19 North, Range 1 East, Section 22, SENE and NESE. There are no SRBA claims filed for the irrigation of the lands described in the posted notice, so I am uncertain as how the posted notice relates to the SRBA claims that have been filed.

If you have any questions or wish to provide additional information, you may contact me by phone at (208) 287-4917, or by email at Carter.Fritschle@idwr.idaho.gov.

Sincerely,

A handwritten signature in cursive script, reading "Carter Fritschle".

In February, of 1970 I married Thomas H. Hubbard, Jr. and we frequently visited his uncles; Joseph and Chester Hubbard, at their ranch in New Meadows, Idaho. We traveled with them though their ranch lands, helping them irrigate and work their ranch, hunting, and otherwise, for many years. I, Doris H. Hubbard, testify that I saw Joseph and Chester Hubbard irrigate their ranch from 1970 until Chester was physically unable to continue, shortly before his death in 1993. When Joseph was unable to do much on the ranch - he still did the irrigating. When he could no longer do it, Chester began to irrigate, which he did right up to a short time before his death.

I, Doris Helen Hubbard do hereby testify to the fact that Chester

And Joseph Hubbard had irrigating water that they used on a daily bases, on their ranch in New Meadows, Idaho,

Re: Claims to Water Right Nos. 78-4094 and 78-4096

Dear Claimants:

In May of 1988, you submitted the above referenced claims in the Snake River Basin Adjudication. Enclosed are computer generated print-outs of the claims for your reference only; these print-outs are **NOT** to be returned or re-filed. You have indicated, when these claims were filed, that the water rights were based on a "Statutory Claim" of the water. Water rights of this type are established by the historical use of water for a beneficial purpose, dating back to the time the water was first used, this date being the "**Priority Date**" as shown on the enclosed print-outs. These claims have not been confirmed by a previous filing with the Department of Water Resources since there is no decree, license, or permit on file to verify the use of this water. For this reason, the Department is required to gather evidence from claimants supporting the date of priority for claims based on historical beneficial use of water. Any other claims you may have filed, that are not listed above, do not require evidence of priority be submitted at this time.

Enclosed is a pamphlet entitled "**Evidence of Priority**" which describes why evidence of the priority date is necessary along with examples of types of evidence that can be submitted to fulfill this requirement. If no evidence is submitted, or we do not hear from you within the time limit below, the priority date, as claimed, may not be recommended to the Court for decree. This could jeopardize the water use under this right, if water availability problems arise in the future. It is our goal to decree the historical water rights within the Snake River Basin as accurately as possible.

The required evidence supporting the priority dates must be submitted by **December 14, 2006**, referencing all documents with the corresponding claim numbers. If you have any questions not covered by this letter, or the enclosed pamphlet, please feel free to call me at 287-4953.

Sincerely,

Kay Walker
Sr. Water Resource Agent
