Re: Canyon County Claims to Water Rights

Dear Vic:

We have not received any evidence of priority for the following claims: 63-21537 (stock water & commercial uses), 63-21541, 63-21557, 63-21559, 63-21561, 63-21598 (all stock water claims) and 63-22210 (expansion of Rt. 63-2291 from Bardsley Gulch). We need some type of documentation of the date of priority for these claims in order to change the recommendations that were previously made.

We also need to have some documentation showing when the rights utilizing the 14 wells and 14 pumps were integrated into one system. Claims 63-2731, 63-3107, 63-4968, 63-5036, 63-5037, 63-5038, 63-5039, 63-7244, 63-7678, 63-10034, 63-21537, 63-21538, 63-21539, 63-21540, 63-21541, and 63-21595 are the rights I find under the claimed combined system. Information in our files does not indicate when the wells were incorporated into one system and until we receive some documentation to show that they were integrated before November 19, 1987, we will not be able to recommend the water rights as claimed. The recommendations will reflect the rights as previously recorded unless we receive this information.

It is also noticed that our Department has previously requested completion of "Industrial Use Volume" questionnaires for the rights that include industrial and/or commercial uses. Please note that a portion of Adjudication Memo No. 34 states:

1. Ground water rights

All rights recommended with a source of ground water are to include annual diversion volume, except for ground water rights or portions of ground water rights used solely for:

- a. small D&S purposes as defined by Idaho Code §§ 42-111 or 42-1401A (5) and (12), in which a diversion volume has not been previously determined.
- b. municipal purposes,
- c. fire protection purposes.

2. Other rights

All other rights to be recommended based on a license or decree that stated an annual diversion volume limitation are to include annual diversion volume.

We would certainly appreciate any information you can supply that would assist us in determining the volumes to be attached to the rights that are being used for industrial and/or commercial uses. If you need to have the questionnaire form sent to you again, please do not hesitate to contact me. If no information is received we will base the volume amounts on what we determine is necessary for the claimed uses.

Please submit all the requested information on or before **January 31, 2008**. Once we receive the information we will need to conduct field examinations on the claims that were not previously substantiated. If you have any questions concerning this letter, or if you need additional time to submit the requested information, please do not hesitate to contact me at 334-2190.

Sincerely,

A handwritten signature in cursive script that reads "Kay Walker".

Hi, Vic...

Thanks for your quick response! I don't need to meet with the retired maintenance man – he just needs to write an affidavit of his recollection of when the system was interconnected and any other information that he can provide in support of the claims.

We gathered water use records on the question of the annual volume used in the plant. I am trying to reach the maintenance man who operated the water system on the feedlot. This person is retired, but is living in Caldwell. He will be able to confirm that all of these points of diversion were connected long before 1987. I just need to connect with him. Once I reach him, would you like to meet him to ask about the water system?

Hi, Vic...

I was wondering if you had gathered the information requested in my letter of September 4th yet. I have not heard anything from you and thought maybe an e-mail would remind you that we still need information regarding claims in Canyon County. I have scanned my letter and attached it to this e-mail in case you have not received it. Please let me know when to expect your information. Thanks!!
