9. ☐ **Place of Use**
Should be: _____

10. **I object because:**

- ☐ This water right should not exist.
- ☐ This water right was not recommended, but should be recommended with the elements described above.

REASONS SUPPORTING OBJECTION(S):

The Idaho Department of Water Resources ("IDWR") Recommended Water Rights Acquired Under State Law dated November 17, 2008 for claim no. 63-32570 contains the following remark under the "Source" element recommended for this water right:

"The source of this water right is waste water. The wasting of water may be discontinued at any time."

The Dixie Slough, which is the source for this water right, flows year round. Unquestionably, the quantity of water available from this source increases after irrigation commences further upgradient in the Boise River Basin. And arguably, this increase in flow may in some part be attributable to return flows from the upgradient irrigation practices.

There is a lag, however, from the time the irrigation season begins until this increased flow is available from the source. The Claimant relies and has always relied on the use of this source for irrigation prior to the time when the increased flow caused by these return flows becomes available. For this reason, the Claimant agrees that a portion of the source of this water right may be “waste water”. However, this remark incorrectly implies that the entire source depends on others continuing the practice of wasting water. For this reason, the Claimant objects to this remark.

This remark should be removed in its entirety from IDWR’s recommendation for this water right; or in the alternative the remark should be modified to clarify that only some portion of the source of this right depends on wastewater.

**Re: Response to Letter dated April 18, 2007 Requesting Additional Evidence of
Priority; SRBA Claim Nos. 63-32570 and 63-32571.**

Dear Kay:

Copies of aerial photographs flown June 12, 1949 and July 4, 1958 were supplied by Simplot to the IDWR when the above referenced claims were filed. It is my understanding your letter dated April 18, 2007 was sent in an attempt to gather additional information to clarify that the claimed source of water was that same as that used to conduct the irrigation that appears on the photographs.

Attached is a copy of an affidavit of Richard L. Bicandi who conducted the irrigation of the place of use described by these claims in 1955. In his affidavit, Mr. Bicandi confirms that in 1955 the source of water was the same as the claimed source and that the system for diverting water from the source existed at the time he first became involved with the irrigation of this land.

Please accept the enclosed affidavit as evidence that the source of water for the irrigation shown on the 1949 and 1957 photos was the same as the source claimed.

Sincerely,

Vic Conrad

AFFIDAVIT OF RICHARD L. BICANDI

STATE OF IDAHO)
) S.S.
Canyon County)

The undersigned being duly sworn upon his oath, hereby states and avers as follows:

1. My name is Richard L. Bicandi, and I reside on a farm near Caldwell, Idaho.
2. My current mailing address is 1905 Mason Road, Caldwell, ID 83605.
3. I was born on December 20, 1940. In June, 1955 I became employed by Richardson Feedlots, Inc. ("Richardson") which was later purchased by the J. R. Simplot Company ("Simplot") and which held the real property interests described by the place of use contained on Snake River Basin Adjudication Claim Numbers 63-32570 and 63-32571. During my employment with Richardson one of my responsibilities was to conduct the irrigation of crops raised on the land described by these claims.
4. In June, 1955 an existing head gate was used to divert water from the Dixie Slough within the NE $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 29 T.4N R.3W, B.M. Canyon County, Idaho. Water diverted from this location was then delivered to the places of use described under claim nos. 63-32570 and 63-32571 through a series of ditches and laterals. Except for the irrigated land claimed under 63-32571 within the SW $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 19 T.4N R.3W. B.M., water diverted from the Dixie Slough was the sole source of water used to irrigate the balance of the places of use described under both claims. I was not involved with the irrigation of the SW $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 19, consequently I cannot verify the source of water used to raise crops on this 40 acre parcel.
5. I was employed by Richardson until 1967, when I temporarily ended my employment. I resumed working for Richardson in 1968 and continued my employment until Simplot acquired Richardson, including its interest in the corporation and the farm in 1971. From 1971 until 1977, I continued to conduct the irrigation of this land as an employee of Simplot. In 1977 my involvement with farming this land concluded when my employment with Simplot at this location ended.
6. Except for the period between 1967 to 1968 (when I briefly stopped working for Richardson), and except for the SW $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 19 T.4N R.3W (which I never irrigated myself), I hereby confirm that the places of use described under claim nos. 63-32570 and 63-32571 were irrigated each year from 1955 until 1977 with water diverted from the Dixie Slough within the NE $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 29 T.4N R.3W. B.M.

Further the affiant sayeth not.

Re: Claims to Water Right Nos. 63-32570 & 63-32571

Dear Claimants:

In November of 2006, you submitted the above referenced claims in the Snake River Basin Adjudication. Enclosed are computer generated print-outs of the claims for your reference only; these print-outs are **NOT** to be returned or re-filed. You have indicated, when these claims were filed, that the water rights were based on a "Beneficial Use" of the water. Water rights of this type are established by the historical use of water for a beneficial purpose, dating back to the time the water was first used, this date being the "**Priority Date**" as shown on the enclosed print-outs. These claims have not been confirmed by a previous filing with the Department of Water Resources since there is no decree, license, or permit on file to verify the use of this water. For this reason, the Department is required to gather evidence from claimants supporting the date of priority for claims based on historical beneficial use of water.

Enclosed is a pamphlet entitled "**Evidence of Priority**" which describes why evidence of the priority date is necessary along with examples of types of evidence that can be submitted to fulfill this requirement. If no evidence is submitted, or we do not hear from you within the time limit below, the priority date, as claimed, may not be recommended to the Court for decree. This could jeopardize the water use under this right, if water availability problems arise in the future. It is our goal to decree the historical water rights within the Snake River Basin as accurately as possible.

The required evidence supporting the priority dates must be submitted by **June 1, 2007**, referencing all documents with the corresponding claim numbers. If you have any questions not covered by this letter, or the enclosed pamphlet, please feel free to call me at 334-2190.

Sincerely,

KAY WALKER

Re: SRBA Claims.

Dear Ms. Brown:

Enclosed for filing in the Snake River Basin Adjudication are two claims for the rights to divert water from the Dixie Slough located west of Caldwell, Idaho to be used for irrigation purposes. Also enclosed is a \$780.00 check to cover the filing fees for these claims and the related \$50.00 late fee for each claim.

Please let me know the number you assign to each of the enclosed claims.
