40.0 acres of irrigation were claimed. However, the field examiner reported that 22.0 acres, instead, are irrigated. In the field examiner's "Delivery System Narrative," there are two pipes: one that goes north over the canal to Doug Gross' property² and one (cont.)

to the east (to Orville Brokaw's property) - which specifically services a "pasture and the center pivot." Unfortunately, the field examiner did not provide a place of use boundary map, so based on his comments and photo's comments, I created 3 separate POU boundaries that total 22.0 acres.

Dear Ms. Brown,

I have enclosed an affidavit from Donald W. Hume, a life long resident of our area and a neighbor. He has a very clear memory of the events surrounding the property. The German POW camp was constructed in the last few years of World War II (after D-Day).

I have also enclosed a map of the subject property with the portion that I own in yellow, and the portioned owned by Orville and Lucille Brokaw in red.

If you have any questions or need any more documentation, please call me at 208-482-7206 or e-mail at douggross@frontiernet.net.

Sincerely,

Doug Gross

CONVERSATION MEMORANDUM

**RE: Snake River Basin Adjudication Water Right Nos. A63-4455
Evidence of Priority**

March 16, 2006

Claimant Doug Gross (cell # 880-1057 & work # 482-7206) called in response to the evidence of priority letter he recently received. While we spoke about evidence of priority, Mr. Gross informed me that he purchased the entire property from Robert Batt in 1980. Approximately 9 years ago, he kept about 8 acres for himself and sold the rest of the land to Orville Brokaw. Mr. Gross said that the well is now located on the property that Orville Brokaw purchased. But even though he owns the portion without the well, he claims that he still uses the well water on his parcel of property.

While I had Mr. Gross on the telephone, I asked him what the black smudge was on the 1987 NAPP image. Mr. Gross said that it was the result of a grain fire that occurred on the 4th of July.

RE: EVIDENCE OF PRIORITY

Snake River Basin Claim No(s): A63-4455

Dear Claimants,

In the past, you submitted the above referenced claim(s) during the Snake River Basin Adjudication (SRBA) claims taking. Enclosed is a computer generated print-out of the claim(s) for your reference only, it is not necessary to return this print-out. You indicated, when this claim was filed, that the water right(s) was based on either a "Statutory Claim" or "Beneficial Use" of the water. Water rights of this type are established by historical use of the water for a beneficial use purpose, dating back to the time the water was first used; this date being the "Priority Date" as shown on the enclosed print-out. Your claim(s) has not been confirmed by a previous filing with the Department of Water Resources since there is no decree, license, or permit on file to verify the use of this water. For this reason, the Department is required to gather evidence from claimants supporting the date of priority for claims based on historical beneficial use of water.

Enclosed is a pamphlet entitled "Evidence of Priority" which describes why evidence of the priority date is necessary, along with examples of types of evidence that can be submitted to fulfill this requirement. While I encourage you to read the entire pamphlet, I direct your attention to the two sections entitled. **"What Kind of Evidence is Required"** and **"Some Examples of Documents Which May Be Evidence of the Priority Date."**

It is important that each element of the Notice of Claim be substantiated. For instance, regarding claims for irrigation, the evidence should tend to show that diversion works were in place, that they were capable of diverting the claimed diversion rate, and that the diverted water was beneficially used on the entire claimed place of use on or before the claimed priority date.

If no evidence is submitted, or we do not hear from you within the time limit below, your priority date, as claimed, may not be recommended to the SRBA court for decree. This could jeopardize your water use under this right(s) if water availability problems arise in the future.

The required evidence supporting the priority date(s) requested needs to be submitted by March 23, 2006. Please let me know if you may not be able to submit proof of priority or have any questions not covered by this letter and the enclosed pamphlet, by the date indicated above.

In addition, since it is our goal to decree the historical water right within the Snake River Basin as accurately as possible, field exams are now being conducted by Department water resource agents to verify claims in this area. In the near future, you will be receiving a call from us in order to set-up an appointment for a field exam.

NARRATIVE/REMARKS/COMMENTS

I LEFT EVIDENCE & PRIORITY Pamphlet WITH MR. BROKAW. HE STATED THAT THIS PROPERTY WAS AN P.O.W. CAMP SOMEWHERE IN MID 1940'S & THOUGHT THE WELL MAY HAVE ALSO SERVED THE CAMP. THE USE CALIBRATION IS BY 7-LINES W/ 8-3/16 NOZZLES @ 65 LBS. THE PUMP WILL IRRIGATE THE ENTIRE PASTURE.

AFTER EXAM THE FILE SHOULD CONTAIN:

- ☐ Completed claim checklist
- ☒ Photographs of POD's and POU
- ☒ GPS readings
- ☒ Completed map and or GIS layout showing POD's and POU

FLOW CALCULATIONS

_____ Additional Computation Sheets Attached

Measured Method:

VOLUME CALCULATIONS**1. Volume Calculations for Irrigation:**

$$V_{I.R.} = (\text{Acres Irrigated}) \times (\text{Irrigation Requirement}) = 22 \times 4.5 = 99 \text{ AF/Y}$$

$$V_{D.R.} = [\text{Diversion Rate (cfs)}] \times (\text{Days in Irrigation Season}) \times 1.9835 = 1.0 \times 260 = 260 \times 1.9835 = 515.71$$

$$V = \text{Smaller of } V_{I.R.} \text{ and } V_{D.R.} = 99 \text{ AF/Y}$$

2. Volume Calculations for Other Uses:

PASTURE 7-Lines with 8- $\frac{3}{16}$ " Nozzles = 56- $\frac{3}{16}$ " Nozzle with 65 LBS.
 $56 \times 8.45 \text{ gpm} = 473.2 \div 9 = 52.577 \div 50 = 1.05 \text{ cfs.}$
