NARRATIVE/REMARKS/COMMENTS

Regarding Skogsberg's ownership of his claim, the Field Report states that Mr. Skogsberg said that he came in once already and filed changes on all his water rights (p.1). While it's true that a Change in Ownership was filed by the Skogsbergs on April 5, 2006; sufficient documentation was not provided and a letter was sent to them on August 9, 2006 - requesting a Warranty Deed with Exhibit A attached. Since we have not received any such document as of this 2nd FX conducted 9/29/06)

AFTER EXAM THE FILE SHOULD CONTAIN:

- ☒ Completed claim checklist
- ☒ Photographs of POD's and POU
- ☒ GPS readings
- ☒ Completed map and or GIS layout showing POD's and POU

(Merlaine Bishop went out into the field to conduct a field exam in 2006. but did not submit a completed report.)

RE: Notice of Change of Water Right Ownership No. ~~63-4588~~

63-4529C, 63-21372, 63-2448

Dear Claimants:

Enclosed is a copy of the Notice of Change of Water Right Ownership form that was submitted to our office with a Warranty Deed. However, we cannot continue to process the ownership change without additional information regarding the legal description of the property.

In order to further review this ownership change, we need to have sufficient documentation, a Warranty Deed with an attached legal description (Exhibit A) referencing the property description by $\frac{1}{4}$ $\frac{1}{4}$, Section, Township and Range, as that is how they are filed in our records. Our files do not indicate the referenced lot numbers and/or subdivision name.

Please submit this additional information, and we will be able to further review this ownership change.

Thank you for your patience and cooperation, as we have had several ownership changes to process. Feel free to contact our office if you have any questions concerning this letter.

Sincerely,

****** Another contractor, Merlaine Bishop, met with Mike Skogsberg sometime in late 2005 or early 2006 and conducted a field investigation, but did not submit a complete Field Report to our department. Requests:

- **GPS** the location of the **POD*** on the Unnamed Drain.

- Is the **source** an Unnamed Drain?
- Is **Farmers Cooperative Ditch Co.** water used to supplement this right?
- **1987 Aerial Photo:** Please draw the **128.0 acres** that were irrigated from the unnamed drain in 1987 on the enclosed **1987 aerial photograph**. Draw the **diversion works** on the 1987 aerial photo also, along with location of the **point of diversion**.
- **Capacity of System:** Calculate the capacity of the system. Verify that the claimed **2.56 cfs** is possible/applicable.

Description of Diverting Works:

POD#1: I84, Parma/Notus exit, Hwy 20/26, south on Wilson Ln (0.3 miles), then east through the cattle gates 0.4 miles to a steel head gate (the ditch to the head gate comes from an unnamed drain that goes south under the railroad tracks, then turns west to the head gate). At the head gate, water can be diverted west (to Skogsberg) or south (to Rainey's property), continuing down a dirt ditch. Flow is year-round, spring fed, with the addition of run-off and wastewater during irrigation season.

POD#2: I84, Parma/Notus exit, Hwy 20/26, north on Mink Rd (follow the curve 0.1 mile), turn north and follow dirt road with the ditch on the east side following the curve for 0.2 miles), POD is located on north side where a steel weir with outlets to two ditches. The ditch running south is the dirt ditch.

Delivery System Narrative:

POU#1: the dirt ditch continues west, piped under Wilson Ln, and can either continue running west, where it irrigates field #107 (gravity flow north to south), or it can turn south then west through a concrete weir, to a dirt ditch that continues west then turn gradually north west (gravity flow east to west, with the very first part having the capability to flow north to south) irrigating fields # 105, and #106. Tarps are put in the ditch to dam up the flow, causing the flow to go over the banks and flood irrigate the pastures. Stockwater is inclusive with irrigation (no stock tanks).

NOTE: Mike had plans to install a pump at the POD in order to irrigate fields #101, but never got one installed. Mike Skogsberg does not own property in the Section 7 NENE, Section 6 SESW. Property in Section 7 NWNW, Section 6 SWSW, NWNW, and Section 1 NENE are irrigated with Farmers Co-op Irrigation and not the unnamed drain (Mike owns 110 shares). ***See map indicating areas referenced above. POU is the property directly southwest and west, after you cross the railroad tracks going south on Wilson Ln., off of Hwy 20/26.

POU#2: From POD, dirt ditch to 14" buried pipe under Hwy 20/26 at intersection of Hwy20/26 and Mink Rd, traveling north to south, converting to (2)-10" gated pipes running north to south (gravity flow east to west on the one, and west to east on the other). There is one gated pipe on each side of the dirt road that runs down the middle of the field. POU is located southeast from milepost 18, and south of 18500 Hwy 20/26.

List just the adjudication claim number if there is no corresponding water right record on file with the department. Indicate, by checking in the space provided (under the "split" heading), if the change in ownership is limited to a portion of a water right in which case division of the existing water right or adjudication claim record will be required.

PLAT OF PROPERTY or **SURVEY MAP** clearly showing the location of the point(s) of diversion and place of use of your water right(s) and/or adjudication claim(s) (these are usually attached to your deed or on file with the county).

OR

If your water right(s) and/or adjudication claim(s) is for ten or more acres of irrigation, you must submit a USDA Farm Service Agency **AERIAL PHOTO** with the irrigated acres outlined and point(s) of diversion clearly marked.
