SCHEDULE A

1. The Estate or interest covered by this policy: Fee simple estate.

2. Description of the property, title to which is insured by this policy:

SITUATE IN THE COUNTY OF CANYON, STATE OF IDAHO:

That part of the Northeast $\frac{1}{4}$ of the Southwest $\frac{1}{4}$ of Section 8, Township 4 North, Range 3 West of the Boise Meridian, described as follows:

Beginning at the center of Section 8 in Township 4 North, Range 3 West of the Boise Meridian; thence running South to the foot of a bench 558 feet; thence Northwesterly along the foot of a bench a distance of 660 feet to a point on the North boundary line of the Northeast $\frac{1}{4}$ of the Southwest $\frac{1}{4}$ of said Section 8; thence East on said line a distance of 348 feet to the point of beginning.

SCHEDULE B

This Policy does not insure against:

1. Any state of facts an accurate survey and inspection would show; the existence of roads, easements or ways not established of record, or existence of public roads; water rights, water locations, mining rights; exceptions and reservations in United States patents.
2. Rights or claims of persons in possession or claiming to be in possession, not shown of record; rights claimed under instruments of which no notice is of record and rights or claims based upon facts of which no notice is of record but of which the Insured has notice; material or labor liens of which no notice is of record.
3. Matters relating to special assessments and special levies, if any, preceding the same becoming fixed and shown as a lien; taxes not yet payable; matters relating to vacating, opening or other changing of streets or highways preceding the final termination of the same.
4. Regulations and restrictions imposed by building and zoning ordinances or by a planning authority; any governmental action based on the claim that any part of the insured premises is within or under navigable waters.
5. Crop and chattel mortgages.
6. Taxes and assessments on water rights for irrigation (the land not being in any regularly organized irrigation district).
7. Right of way for public highway over the Northeast corner of the land, as evidenced by a right of way deed recorded December 17, 1930 in book 118 Deeds, page 363.

(End of Schedule B)

CONDITIONS OF THE POLICY

1. The Company shall have the right to, and will, at its own cost, defend the insured in all suits, actions or proceedings founded upon a claim of title, incumbrance or defect which existed or is claimed to have existed prior in date to this policy and not excepted herein; reserving, however, the option at any time of settling the claim or paying the policy in full. In case any such suit, action or proceeding shall be instituted it shall be the duty of the insured at once to give notice thereof in writing to the company at its Home Office, and, if the insured is a party to such suit, action or proceeding, to secure to the company, within ten days after service of the first process upon the insured, the right to defend such suit, action or proceeding in the name of the insured so far as necessary to protect the insured, and to render all reasonable assistance in such defense. If such notice shall not be given, or the right to defend secured, as above provided, then all liability of the company with regard to the subject matter of such suit, action or proceeding shall cease and be determined; provided, however, that failure to give such notice shall in no case prejudice the insured if the insured shall not have any knowledge of such suit, action or proceeding.

2. In the event of final judicial determination by a court of competent jurisdiction, under which the insured is dispossessed or deprived of the premises covered hereby or the estate or interest insured is impaired by reason of any adverse interest, lien or incumbrance not excepted herein, or, if this policy covers a mortgagee's interest, and such final judicial determination shall defeat or impair the mortgagor's title to all or any part of said premises or establish the priority to the mortgage of a lien or encumbrance not excepted in this policy, claim may be made hereunder, provided the conditions have been complied with in all respects. A statement in writing of any loss or damage, for which it is claimed the company is liable under this policy, shall be furnished to the company within sixty days after such loss or damage shall have been ascertained. No right of action shall accrue under this policy until thirty days after such statement shall have been furnished and no recovery shall be had under this policy unless an action shall have been commenced thereon within one year after the expiration of said thirty days.

3. The Company may at any time pay this policy in full, whereupon all liability of the company shall terminate. The total liability under this policy, exclusive of costs (the costs not including in any case fees of counsel or attorneys employed by the insured), shall in no case exceed the face of the policy, and every payment by the company shall reduce the policy by the amount paid. When the company shall have paid a loss under this policy it shall be subrogated to all rights and remedies which the insured may have against any person or property with respect to such claim, or would have if this policy had not been issued, and the insured shall forthwith transfer all such rights to the company accordingly. If the payment made by the company does not cover the loss of the insured, such subrogation shall be proportionate. In case this policy covers a mortgagee's interest only, the company may pay the insured the entire mortgage indebtedness, with interest at the rate specified in the mortgage, and thereupon the insured shall assign and transfer to the company the mortgage and the indebtedness secured thereby, together with all instruments evidencing or securing the same, or shall convey to the company any estate lawfully vested in the insured by virtue of acquisition of said premises, and all liability of the company shall thereupon terminate. Demand for payment must be accompanied by production of the policy for endorsement of such payment. If the policy be not so produced, indemnity satisfactory to the company must be furnished.

4. The Company shall not be liable for any loss or damage resulting from the refusal of any party to enter into, or carry out, any contract respecting the estate or interest insured.

5. If this policy covers a mortgagee's interest only and any insured acquires said premises, or any part thereof, by foreclosure, or in other legal manner, in satisfaction of said indebtedness, or any part thereof, or under FHA insurance contract, this policy shall continue in force in favor of such insured, and each successor in interest in ownership, subject to all of the conditions hereof applicable to an owner of land.

6. Nothing contained in this policy shall be construed as an insurance against defects or incumbrances created subsequent to the date hereof.

Delivery System Narrative: The system is made up of a 4" casing, 26" above ground level (artesian well) with 2 pumps. #1 Pump is a Council 1Hp with 1 1/2" PVC discharge for domestic internal/external use, & #2 pump is a 1Hp Sears/Homart with 1 1/2" PVC discharge for irrigation to the collection basin for irrigating the 2 acres. The overflow from the artesian well flows out to a collection tank, then down the ditch where it is dammed, & pumped up to another collection tank (concrete collection basin) where it is added with water pumped from the artesian well & then all combined water is pumped out onto the 2 acres by means of movable 2" steel pipe to gravity-flow irrigate the 2 acres. Gravity flow from north to south

Bucket Measurement:

Gallon x 60 seconds / time in seconds to fill the bucket = GPM

For Overflow from Artesian Well going to slough, to collection basin, then pumped to acreage:

5 gal. x 60 sec. / 13 sec. = $300/13 = 23.1\text{gpm}$

1 GPM = 0.00223 cfs

GPM x 0.00223 cfs = cfs

23.1 gpm x 0.00223 cfs = **0.05 cfs**

Bucket Measurement from Artesian Well pumped for irrigation:

5 gal. x 60 sec. / 67 sec. = **4.47 gpm**

4.47 gpm x 0.00223 cfs = 0.00998 = **0.01 cfs**

*****Combined capacity measurements from water pumped from well and overflow from artesian well:**

0.05 cfs (overflow) + 0.01 cfs (pumped from well) = **0.06 cfs**

1 1/2" Pipe Capacity = 0.06135 = 0.06 cfs

Measurements/Calculations:

Irrigation:

Confirmed acres irrigated: 2.0 acres x 0.03cfs = 0.06 cfs (0.03 cfs allowable for acreage <5 acres)

Season 3/15 - 11/15 = 246 days

Required V.i.r = allowable acres under permit x requirement IDWR chart (figure 2)=

2.0 acres x 3.5 = **7.0 afa**

Potential V.d.r. = max. allowable cfs x permit season x 1.9835 =

0.06 x 246 x 1.9835 = **29.28 afa**

CLAIM TO A WATER RIGHT

Under the provisions of Section 42-243, Idaho Code, any person using or claiming rights to the public waters of Idaho established by diversion and application to a beneficial use must file a claim with the Department of Water Resources on or before June 30, 1983. Exempted from this filing are single family domestic uses as defined in Section 42-230(d), Idaho Code. Also exempted are rights represented by a permit, license, decree, adjudicated right, or a previously filed claim.

The filing of this claim does not confirm the water right claimed but failure to file may result in forfeiture of a water right.

RE: EVIDENCE OF PRIORITY

Snake River Basin Claim No(s): A63-4900

Dear Claimants,

In the past, you submitted the above referenced claim(s) during the Snake River Basin Adjudication (SRBA) claims taking. Enclosed is a computer generated print-out of the claim(s) for your reference only, it is not necessary to return this print-out. You indicated, when this claim was filed, that the water right(s) was based on either a "Statutory Claim" or "Beneficial Use" of the water. Water rights of this type are established by historical use of the water for a beneficial use purpose, dating back to the time the water was first used; this date being the "Priority Date" as shown on the enclosed print-out. Your claim(s) has not been confirmed by a previous filing with the Department of Water Resources since there is no decree, license, or permit on file to verify the use of this water. For this reason, the Department is required to gather evidence from claimants supporting the date of priority for claims based on historical beneficial use of water.

Enclosed is a pamphlet entitled "Evidence of Priority" which describes why evidence of the priority date is necessary, along with examples of types of evidence that can be submitted to fulfill this requirement. While I encourage you to read the entire pamphlet, I direct your attention to the two sections entitled. **"What Kind of Evidence is Required"** and **"Some Examples of Documents Which May Be Evidence of the Priority Date."**

It is important that each element of the Notice of Claim be substantiated. For instance, regarding claims for irrigation, the evidence should tend to show that diversion works were in place, that they were capable of diverting the claimed diversion rate, and that the diverted water was beneficially used on the entire claimed place of use on or before the claimed priority date.

If no evidence is submitted, or we do not hear from you within the time limit below, your priority date, as claimed, may not be recommended to the SRBA court for decree. This could jeopardize your water use under this right(s) if water availability problems arise in the future.

The required evidence supporting the priority date(s) requested needs to be submitted by April 18, 2006. Please let me know if you may not be able to submit proof of priority or have any questions not covered by this letter and the enclosed pamphlet, by the date indicated above.

In addition, since it is our goal to decree the historical water right within the Snake River Basin as accurately as possible, field exams are now being conducted by Department water resource agents to verify claims in this area. In the near future, you may be receiving a call from us in order to set-up an appointment for a field exam.
