Subject: OFFICE DAY VISIT

Hello Kimberly,

I recieved an office day visit from Newbill Farms. They say we transposed the water rights between 63-10583 and 63-10584. The Newbill's have have the 80 acre piece and Roger's seed has the 40 acre peice. I talked with Jan and this has been flip flopping back and forth for a quite awhile in the change of ownership arena. After talking with Jan, I checked the claim files and the recommendation files and they are backwards. According to the Newbill's and the taxlot information, the claim layer is correct and the recommendation layer is wrong.

I told them they would need to call and set an appointment with you about this to see if you can get it straightened out. It seems as though the change of ownership was made on the claim layer and not changed in the recommendation layer.

If you have any questions please come see me and I will try to explain it all a little better. They will be out of town through Thursday, so they will try and make an appointment with you on Friday or Monday.

Thanks

Dan Nelson

e. Other: Permit holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code.

Prior to the diversion of water under this permit a flow measurement port or other device as specified by the Department shall be installed to provide for the installation of measuring equipment and the determination of the rate of diversion by the Department.

The issuance of this permit in no way grants any right-of-way or easement across the land of another.
