STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES

CLAIM TO A WATER RIGHT

Under the provisions of Section 42-243, Idaho Code, any person using or claiming rights to the public waters of Idaho established by diversion and application to a beneficial use must file a claim with the Department of Water Resources on or before June 30, 1983. Exempted from this filing are single family domestic uses as defined in Section 42-230(d), Idaho Code. Also exempted are rights represented by a permit, license, decree, adjudicated right, or a previously filed claim.

The filing of this claim does not confirm the water right claimed but failure to file may result in forfeiture of a water right.

Notice is hereby given that Norman H. Higer
(Name of Claimant)

At 6, Box 315, Caldwell, Id 83605
(Mailing Address) (Zip Code)

Telephone No. 459-9795

claims a right to the diversion and beneficial use of the surface or ground water. The extent and nature of said claim is as follows:

- (1) Date of priority: (When was the water first applied to a beneficial use) 7/1/1962

A claim is not acceptable on a ground water source with a priority later than March 25, 1963 or on a surface water source with a priority later than May 20, 1971. An exception is that a claim may be filed on single family domestic use from a ground water source.

- (2) Describe the source of water: (Name of stream, lake, spring, etc., or ground water)

Groundwater tributary to _____

- (3) Describe the purpose for which the water has been used and the time during the year when you have used the right claimed:

CONVERSATION MEMORANDUM

**RE: Snake River Basin Adjudication Water Right Nos. A63-5218
Evidence of Priority**

July 11, 2006

I called #459-9795 in order to speak with Norman Higer about evidence of priority, but there was no answer. I then called #459-7264 for Hiram Higer and left a message on his answering machine.

July 13, 2006

I called #45-9795 to speak with Norman Higer, but there was no answer. I also called #459-7264 to speak with Hiram Higer and, once again, left a message on his answering machine.

July 17, 2006

Hiram Higer returned my call. After speaking to him about the need for evidence of priority, he felt that his brother, Norman Higer, knew more about the well than he did and suggested that I send the necessary information to him at: 3702 Farmway Rd., Caldwell 83607. Hiram believes that the address of the 4-plex is: 204 W. Amber (I checked this address afterward and found that there is no such address). Based on Hiram's earlier suggestion, I sent to Norman Higer: a blank affidavit form, an Adjudication Claim Report, and a 2004 NAPP image of the NESE - in order to for him to draw the location of the POD and POU.

July 19, 2006

Norman Higer called me after receiving the packet of information. When I asked him about the priority date, he said that's when they (he and his brother, H & H Realty) bought the property (he also mentioned that they just sold it last March). When I asked Norman if the previous owner had spoken about the well, he replied that Bob Bushnell was the original owner and that he did not share any of his knowledge of the well with

him. When I asked Norman if he remembered the address of the 4-plex, he said that it was: 124 Amber Street. When I asked what the water was used for, specifically (in order for me to calculate a volume), he informed me that there was 1 tub/shower per unit, 1 toilet/unit, 1 lavatory basin/unit, and 1 kitchen sink/unit. When I asked for an estimate of how many people lived in each unit, Norman replied that they kept a maximum of 2 people per unit. He added that, to their knowledge, the tenants kept this contract and if they had a child, for instance, they moved from the 4-plex.

With the 2004 NAPP image of the NESE, S33 on my computer screen, I located 124 Amber St. (I could easily see the outline of the two L-shaped buildings on my screen) and asked Norman to describe the location of the well. I placed the POD in the correct spot, based on his description.

At the end of our conversation, I told Mr. Higer that he did not need to return any of the information to me, since I would use this conversation as evidence of the priority date and now knew the actual location of the apartments and the well. I will also be able to calculate the volume.

RE: EVIDENCE OF PRIORITY
Snake River Basin Claim No(s): A63-5218

(A) layout

Dear Claimants,

In the past, you submitted the above referenced claim(s) during the Snake River Basin Adjudication (SRBA) claims taking. Enclosed is a computer generated print-out of the claim(s) for your reference only, it is not necessary to return this print-out. You indicated, when this claim was filed, that the water right(s) was based on either a "Statutory Claim" or "Beneficial Use" of the water. Water rights of this type are established by historical use of the water for a beneficial use purpose, dating back to the time the water was first used; this date being the "Priority Date" as shown on the enclosed print-out. Your claim(s) has not been confirmed by a previous filing with the Department of Water Resources since there is no decree, license, or permit on file to verify the use of this water. For this reason, the Department is required to gather evidence from claimants supporting the date of priority for claims based on historical beneficial use of water.

Enclosed is a pamphlet entitled "Evidence of Priority" which describes why evidence of the priority date is necessary, along with examples of types of evidence that can be submitted to fulfill this requirement. While I encourage you to read the entire pamphlet, I direct your attention to the two sections entitled, "**What Kind of Evidence is Required**" and "**Some Examples of Documents Which May Be Evidence of the Priority Date.**"

It is important that each element of the Notice of Claim be substantiated. For instance, regarding claims for irrigation, the evidence should tend to show that diversion works were in place, that they were capable of diverting the claimed diversion rate, and that the diverted water was beneficially used on the entire claimed place of use on or before the claimed priority date.

If no evidence is submitted, or we do not hear from you within the time limit below, your priority date, as claimed, may not be recommended to the SRBA court for decree. This could jeopardize your water use under this right(s) if water availability problems arise in the future.

The required evidence supporting the priority date(s) requested needs to be submitted by July 31, 2006. Please let me know if you may not be able to submit proof of priority or have any questions not covered by this letter and the enclosed pamphlet, by the date indicated above.

In addition, since it is our goal to decree the historical water right within the Snake River Basin as accurately as possible, field exams are now being conducted by Department water resource agents to verify claims in this area. In the near future, you will be receiving a call from us in order to set-up an appointment for a field exam.

RE: Commercial use for Snake River Basin Adjudication claims 63-5218

To Whom It May Concern,

The Idaho Department of Water Resources is currently reviewing the claim to a water right you filed during claims taking in the Snake River Basin Adjudication (SRBA). During the initial review of this claim, we found that you claimed a commercial use that requires a volume amount be included in our recommendation to the SRBA Court (please refer to the enclosed copy of your adjudication claim report: under **Annual Volume**). In order for us to calculate your annual volume, it is necessary that we ask for additional information not gathered when you, or the original claimant, filed this water right.

Please refer to the **Domestic Use Volume** sheet (enclosed), answer the appropriate questions as specifically as possible, and return it to this office by July 31, 2006 so that we are able to calculate the annual volume associated with your water right; as required by the SRBA Court.

This review of your claim, in addition to the submittal of our recommendation to the SRBA Court, will result in a decreed right for your property. This water right then remains with the land as long as it is being used. We will give you the opportunity to review our recommendation and provide feedback, if necessary, prior to its submittal to the SRBA Court.

Please feel free to contact me at 334-2190 if you have any questions.

Respectfully submitted,
