CONVERSATION MEMORANDUM

**RE: Snake River Basin Adjudication Water Right Nos. A63-5351
Notice of Error Reply**

October 10, 2006

Vicki De La Concepcion called in response to the Notice of Error/Preliminary Recommendation packet of information she received in the mail. Mrs. De La Concepcion disagreed with the disallowal of this claim. When I explained that her husband told the field examiner that they purchased this property in July 1982 and that the system hasn't been used since at least 1982, Mrs. De La Concepcion replied that they purchased the property in 1992 and she felt that the field examiner must have misunderstood that her husband said "1992;" not "1982" because of his thick Basque accent. Mrs. De La Concepcion made an appointment to come in to the Western Region office to speak with me on Oct. 12, 2006.

October 12, 2006

Vicki De La Concepcion met with me at my office. She said that she believes that Dan Nelson, the field examiner, heard "1982" when her husband, who has a very thick Basque accent actually stated "1992." She also informed me that they "still use some water for stock (horses, goats) below the house and that they've had cattle on the two acres." She also said that there are three wells on the property: one well once supplied water for the meat packing plant/slaughter house, one was a back-up for the feed-lot and the whole system, and one well is for the house/sprinkler system for the grass and pasture/pens near the house. She stated that they haven't used all three wells, just the one for the house/pens/pasture and that the house has been on city water since they bought it in 1992. Since we were talking about the house and domestic use, I asked Mrs. De La Concepcion if she had any idea why 0.25 cfs was claimed for the domestic use. She replied that she believed that the previous owners had plans for a subdivision at one time. Before she left, I told Mrs. De La Concepcion that I would be able to recommend the capacity of the well only – 0.22 cfs and that, based on her oral testimony, I would

recommend the stockwater and domestic use for the outside well (a.k.a “Well #1). She agreed with this recommendation.

Remarks:Comments:

1. kbrown 8/2/2006 Reason for Disallowal

Comment: When IDWR field examiner, Dan Nelson, asked the current owner, Sabino De La Concepcion, the last time this system was used; Mr. De La Concepcion replied that he purchased the property in July 1982 and, at that time, the corrals had already been demolished and the pumps for the wells inside the well house had been removed. Mr. De La Concepcion also stated that he has never had cattle on this property. Therefore, this system has not been used, at a minimum, since 1982. In addition, only City of Caldwell water is used for the home. Since this claim was filed in 1992, at least 10 years have passed without use prior to the filing of this adjudication claim. For these reasons, this claim is being recommended as disallowed in the SRBA.

13,000
gpd

(1) The amounts shown are based on 12 gpd/head with a 12 month period of use. (i.e. for range cattle, horses and mules). The amount does not include a loss (i.e. thru conveyance, etc.)

2. The amounts shown are based on 35 gpd/head with a 12 month period of use. (i.e. for dairy cattle). The amount does not include a loss. (i.e. thru conveyance, etc.).

3. For annual use calculations which involve more than 1000 head, round the number of head up to the next even one hundred, and

Volume

a) for livestock use @ 12 gpd/hd, N (0.0134).

b) for dairy use @ 35 gpd/hd, N (0.0391).

12 gal/day/head -

Rate

a) for livestock use @ 12 gpd/hd, N (0.00022).

b) for dairy use @ 35 gpd/hd, N (0.00065).

The answer should be rounded up to the nearest whole acre-foot.

*The rate is based upon approx. 2 hr/day diversion to obtain daily requirement.

A. Kenneth Dunn

ADDITIONAL INFORMATION NEEDED FOR IRRIGATION FIELD EXAMS

Field Examiners, please complete the following checklist. Mark "unknown" or N/A if information doesn't apply or information is unavailable.

IF CURRENT OWNER DOES NOT MATCH PROOF REPORT PLEASE GIVE NEW OWNER CHANGE OF OWNERSHIP FORM TO COMPLETE.

1.) Pump information:

Well or Diversion Identification No.*	Motor Make	Hp	Motor Serial No.	Pump Make	Pump Serial No. or Discharge Size
Well #1	Pump Removed	was 5HP	UNKNOWN	UNKNOWN	UNKNOWN
Well #2	NO Pump				
Well #3	NO Pump				

Well #1 (outside well) - 24.9 FT
Well #2 (inside casing) - 4.5 FT

2.) Lift (distance from pump to water) Well #3 (inside old turbine) - ~~30~~
Has been filled with sand.

3.) How was lift determined (well log, measurement, owner)? meas.

4.) Pressure against pump (this is checked using the owner's psi gauge, your gauge, or an estimate by owner) ESTIMATED

5.) Was a measurement made? NO If no can a measurement be made at a latter time? NO - All pumps Had Been Pulled.

6.) What type of measurement device was used? Theoretical

7.) Is there a pump curve available for pump? ~~yes~~ NO

8.) Please fill out the following:

Number of sprinklers _____

Sprinkler nozzle size _____

Number of Pivots (include gpm rating for each pivot) _____

9.) Please outline all acres irrigated on attached aerial photo. ✓ DONE

10.) Please clearly mark all points of diversion on map and GPS. ✓ DONE

11.) Please clearly mark all mainlines, ditches, and other conveyances.

✓ DONE

12.) Pictures taken of place of use and point of diversion. ✓ DONE

13.) Please show where and how water from other sources are diverted into the irrigation system.

FIELD EXAMINERS NOTES (descriptions, other uses, questions, ect.)

Original Capacity of Feedlot 2,000 head.
Corrals are gone, only Feed bunks remain
Owner said it has been that way
since they bought the property in
July 1982.
House is now on city water.

The new owner purchased the
property in 1982. There hasn't
been any cattle on the property
since he bought the property.

There was some minimal
feed mixing

There are no pumps in
any of the three wells. It
appears as though the outside well was
the only one used for the feedlot.

DATE EXAM CONDUCTED 7-18-06

FIELD EXAMINER

Daniel A. Nelson

MEMORANDUM

TO: ADJUDICATION FILES 63-5351

FROM: DANIEL A. NELSON

DATE: 7/27/06

SUBJECT: FIELD EXAMINATION

On 7/18/2006 I performed the field exam on water right 63-5351. This water right is for stockwater and domestic uses. The wells and place of use are all located in T4N R3W S23 SWSW.

During my field examination I discovered that all three wells on the property were no longer in use. Well number three or the turbine well inside the well house had been filled with sand, and was no longer functional. Well number two didn't have a pump in the well. However, it appeared from the piping that well number two did not directly connect into the feedlot water system. The pipe for well number two went directly outside, where it had been cut and welded closed. There was a connector pipe from well number one the outside well, but it had a backflow valve on it to prevent water from well number two going back into feedlot water system. Well number one was located outside of the well house. This well also didn't have a pump. The owner stated that they took the pump out of this well and used it at the other feedlot covered by water right 63-5353.

It appears as though the only well that was actually used for this feedlot was well number one or the outside well. The piping suggests that this is the only well that could have supplied the system. I am not sure if the other wells were used as backups for other systems or not, but it seems as the other wells were used to send water to the meat packing plant down the hill, which was originally associated with this feedlot.

The owner stated that originally the feedlot had the capacity for 2,000 head of cattle, which seems reasonable. At 2,000 head of range cattle consuming 12 gallons per day, the annual water consumption would be 26.9 afa for this feedlot. The home would use an additional 1.2 afa for in-house use and a ½ acre of yard irrigation. The total water use for this right would be 28.1 afa. If the outside pump was actually a 5 Hp pump the system capacity would be 0.22 cfs. We could allow up to 0.44 cfs for stockwater under this claim and 0.04 cfs for domestic use, but it would be limited to the system capacity of 0.22 cfs.

When I asked when the last time the system was used, the owner told me that he purchased the property in July of 1982, and at the time the corrals had already been demolished and the pumps for the wells inside the well house had been removed. He then told me that he has never had cattle on this property. Therefore, this system hasn't been used, since at least 1982. I then asked him about the home, and he said that the house was now using City of Caldwell water, but that they wanted to go back to the well someday.

CONCLUSION:

I am not positive when the last time this system has been operational, but from the owner told me, I believe the last time the system had water in it was prior to July 1982. According to the paperwork I have, this claim was filed in 1992. Therefore, it appears as though at least 10 years have past without use prior to the filing of the adjudication claim. Therefore, I would assume this right has been forfeited and is no longer valid.

However, if under some circumstances, it should be recommended, the system capacity should not exceed 0.22 cfs and 26.9 afa for stockwater for year round use, and 0.04 cfs and 1.2 afa for domestic use for year round use for a total of 0.22 cfs and 28.1 afa. The point of diversion should also only be listed as the outside well or well number 1.

FILE: 63-5351

DATE: 7-18-2006

BY: DAN NELSON

THEORETICAL RATE OF FLOW: $Q = \frac{(8.8 \times (HP) \times (EFF.))}{TDH}$

Q = CFS

HP = Total Brake Horsepower of pumping plant (including booster)

Eff. = Pumping plant efficiency (assume 70% or 0.70)

TDH = Total dynamic head = [(LIFT) + (PSI X 2.31)]

LIFT = Depth to water in FEET from land surface to pumping water level

PSI = Pumping pressure measured in PSI near pump (if open discharge assume [0])

Q = $(8.8) \times (540?) \times (0.70) = 30.8$
 $Q = \underline{\hspace{10em}} = \underline{0.22 \text{ CFS}}$

$[(24.95) + (50 \times 2.31)] = 140.45$

LIFT FROM:

Measurement (X)

Owner ()

Area estimate ()

Well Logs ()

Booster (Y) (N)

PSI FROM:

Measurement ()

Owner ()

Estimate (X)

Owner Gage ()

NOTES ON PUMP:

Motor Make, Serial or ID

Pump Make, Serial or ID, rating

REMARKS: I measured the distance to static water level @ 24.95 FT. There was no pump in the well, so I estimated the pressure to be the same as their other feedlot on 55 PSI. They said they removed the ~~well~~ pump last year and put it in the other feedlot. covered under 63-5353.

TABLE 1, RECOMMENDED DIVERSION RATES FOR STOCKWATER

In cubic feet per second (cfs)

<u>No. of head</u>	<u>Dairy cows</u>	<u>Other cattle, horses & mules</u>	<u>Hogs</u>	<u>Sheep & goats</u>
0 - 25	0.02	0.02	0.02	0.02
26 - 50	0.04	0.02	0.02	0.02
51 - 100	0.07	0.03	0.02	0.02
101 - 200	0.13	0.05	0.02	0.02
201 - 300	0.20	0.07	0.02	0.02
301 - 400	0.26	0.09	0.03	0.02
401 - 500	0.33	0.12	0.04	0.02
501 - 600	0.39	0.14	0.05	0.03
601 - 700	0.46	0.16	0.05	0.03
701 - 800	0.52	0.19	0.06	0.03
801 - 900	0.58	0.20	0.07	0.04
901 - 1000	0.65	0.23	0.08	0.04

For chickens, round to the next highest 100 and multiply this number by 0.0000018.
For turkeys, round to the next highest 100 and multiply this number by 0.0000033.

If you have more than 1000 head of stock (other than poultry), round the number of head to the next highest 100, and multiply this number by one of the following factors:

For dairy cows, multiply by 0.00065

For other cattle, horses, or mules, multiply by 0.00022 $\times 2,000 \text{ hd} = 0.44 \text{ cfs}$.

For hogs, multiply by 0.000074

For sheep or goats, multiply by 0.000037

Round the amount you calculate to the nearest 0.01 cfs and enter this amount in the appropriate space on your claim. You may claim 0.01 cfs even if your calculated amount is less than 0.01 cfs.

VOLUME FACTORS

<u>STOCK</u>	<u>GPD/HEAD</u>
dairy cattle	35
range cattle	12
horses	12
mules	12
hogs	4
goats & sheep	2

PHOTOGRAPHER AND DATE OF PHOTOS DANIEL A NELSON 7/18/2006

FILE NUMBER 63-5351

These are photos of the well house. The first photo shows the well house and one of the three wells just outside the door. The second photo on the top row shows the second well that has two bricks on top of the wellhead. The third picture on the top row shows the third and final well. This well had been filled with sand, and didn't have any access to water. None of the three wells had a pump in it.

The second row of pictures shows the piping. It appears as though the well outside was the main well that fed the pressure tank. The other wells seemed to be for some other purpose.

The very bottom pictures shows a second pressure tank tied into the same system.

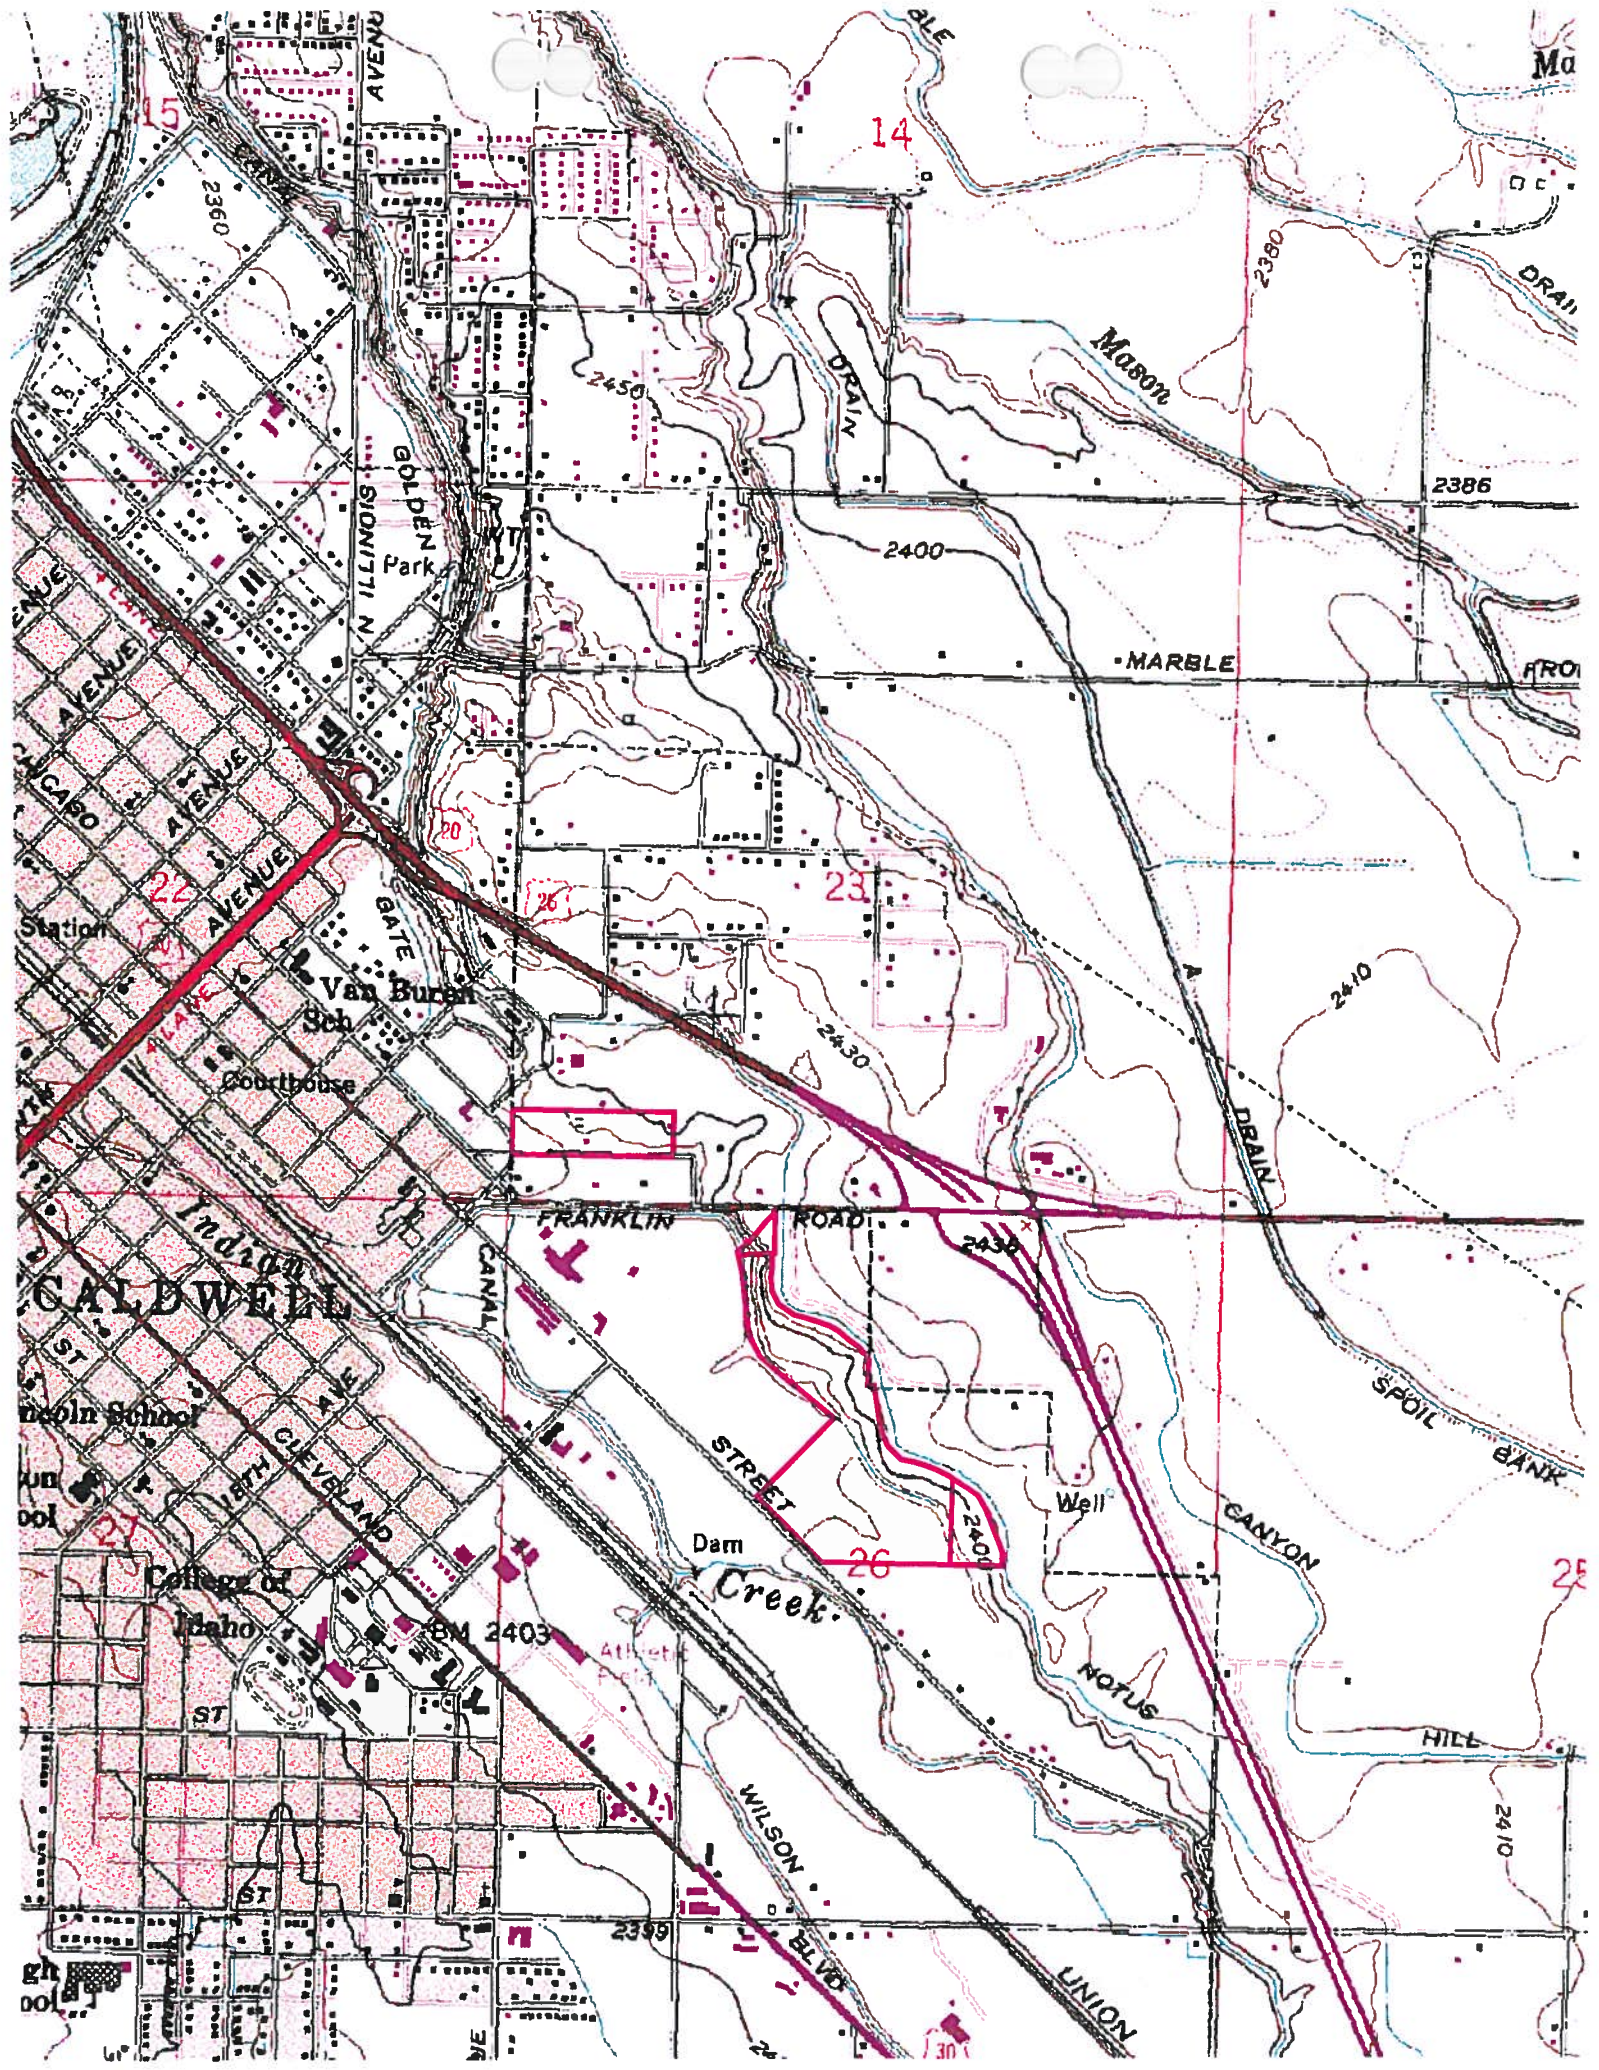

PHOTOGRAPHER AND DATE OF PHOTOS DANIEL A NELSON 7/18/2006

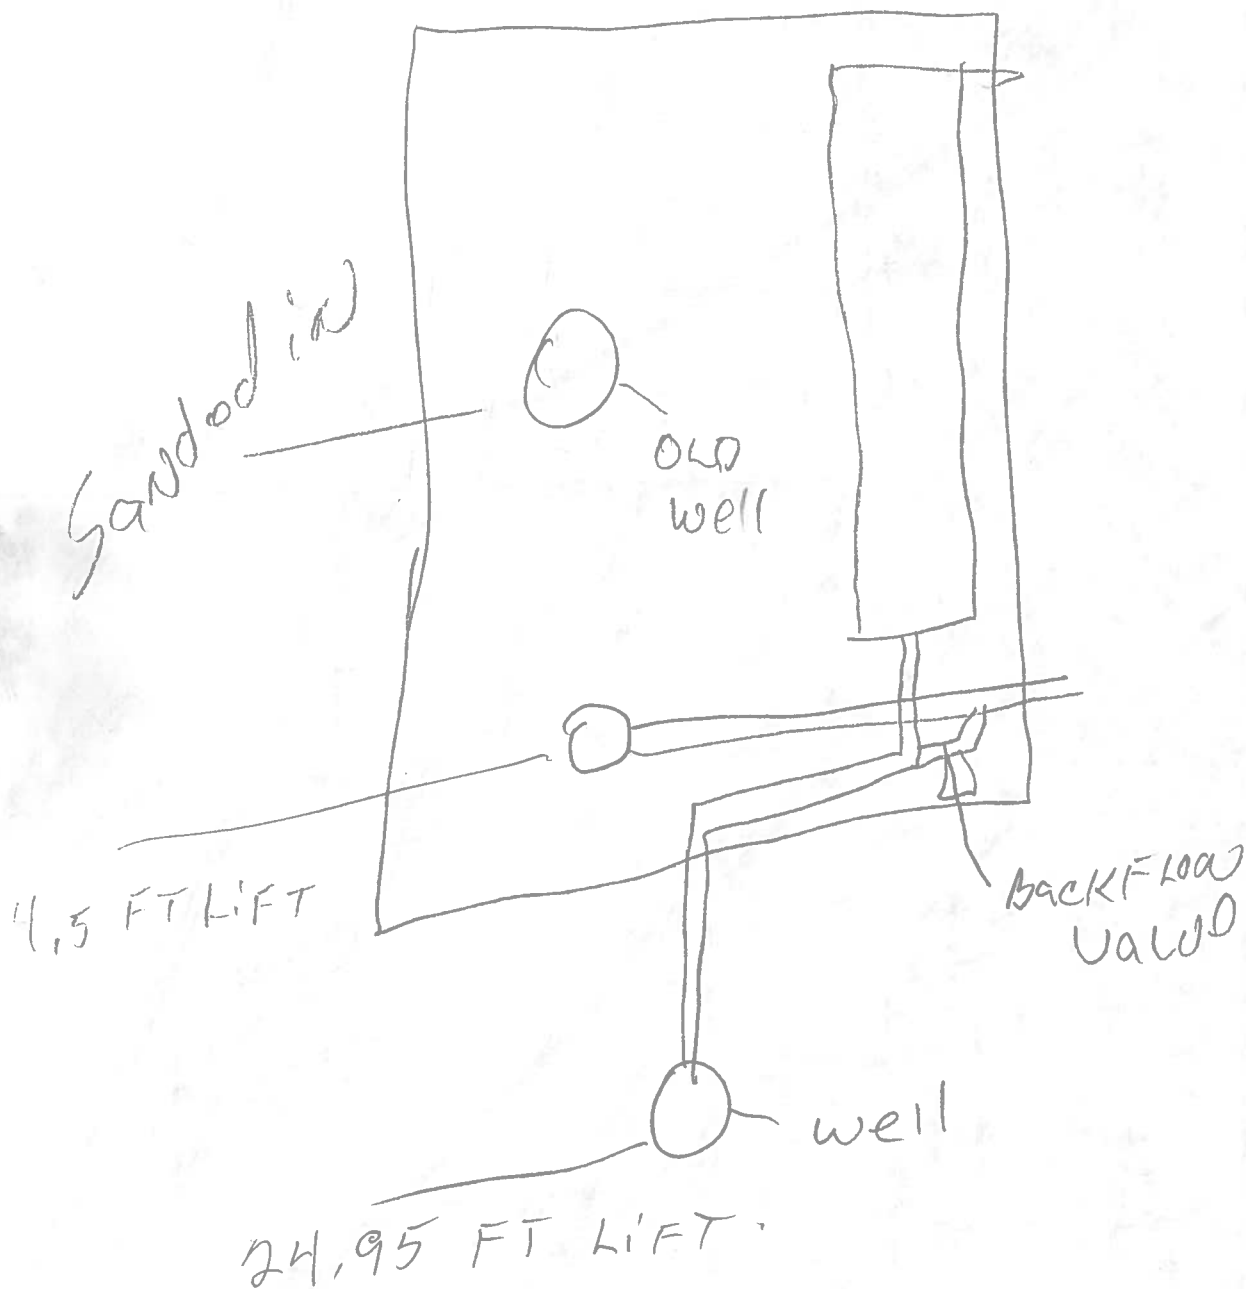

FILE NUMBER 63-5351

The photos above are of the place of use for this water right. The little cinder block house in the first photo is the well house. As you can see from these photos, the cement feed bunks are still in place, but there are no pens or enclosures for the cattle. The feed yard is still being used, but there are no cattle at this facility. The owner told me that there hasn't been any cattle here since he purchased the property in 1982.

The bottom photo shows the home. The home is currently on City water and the irrigation being done in the feedlots come from canal company water. The wells are not operational.

A63-5351 & A63-5353 Field Exam Request:
De La Concepcion

Contact:

06/19/2006

Contact **Vicki or Sabino De La Concepcion** at #459-3232 (Home) or #860-8491 (cell) to set up a field exam. Please do both a field exam for **BOTH** claims at the same time.

Property Address:

910 N. 19th Ave, Caldwell (#63-5351)
&
0 East Chicago St., Caldwell (#63-5353)

Requests:

*Please verify **all of the elements** of this right.

In addition, please verify:

- GPS the location of both the wells (for 63-5351 & 63-5353).
- Is Pioneer Irrigation District water used to supplement 63-5353?
- How many stock were watered in 1987 for both claims? Today?
- **Domestic Use for 63-5351:** Why was 0.25 cfs claimed for 1 domestic home for 63-5351? Is there ½ acre of lawn and garden or is this just internal domestic use?
- **1987 Aerial Photo:** For 63-5353, please draw the 26.0 acres that were irrigated from the well in 1987 on the enclosed 1987 aerial photograph (There is a long gray swath of land that appears questionable on the 1987 aerial). Draw the diversion works on the 1987 aerial photo also; along with the points of diversion.
In addition, please draw the location of the 1 domestic home associated with 63-5351.
- **Capacity of both Systems:** Calculate the capacity of each well/system. Verify that the claimed 0.25 cfs is possible/applicable for 63-5351 and that 1.50 cfs is for 63-5353.

CONVERSATION MEMORANDUM

**RE: Snake River Basin Adjudication Water Right Nos. A63-5351 & -5353
Evidence of Priority**

March 30, 2006

Vicki De La Concepcion (Cell # 860-8491, Home # 459-3232) called in response to the evidence of priority request she recently received in the mail. She said that she found one relative that was old enough to go back several decades, but that he was not involved with the meat packing plant; so she would not be able to have him fill-out an affidavit. She also stated that there is a couple who is 80 years old and that she would have them fill-out an affidavit.

RE: EVIDENCE OF PRIORITY

Snake River Basin Claim No(s): A63-5351 & A63-5353

Dear Claimants,

In the past, you submitted the above referenced claim(s) during the Snake River Basin Adjudication (SRBA) claims taking. Enclosed is a computer generated print-out of the claim(s) for your reference only, it is not necessary to return this print-out. You indicated, when this claim was filed, that the water right(s) was based on either a "Statutory Claim" or "Beneficial Use" of the water. Water rights of this type are established by historical use of the water for a beneficial use purpose, dating back to the time the water was first used; this date being the "Priority Date" as shown on the enclosed print-out. Your claim(s) has not been confirmed by a previous filing with the Department of Water Resources since there is no decree, license, or permit on file to verify the use of this water. For this reason, the Department is required to gather evidence from claimants supporting the date of priority for claims based on historical beneficial use of water.

Enclosed is a pamphlet entitled "Evidence of Priority" which describes why evidence of the priority date is necessary, along with examples of types of evidence that can be submitted to fulfill this requirement. While I encourage you to read the entire pamphlet, I direct your attention to the two sections entitled. **"What Kind of Evidence is Required"** and **"Some Examples of Documents Which May Be Evidence of the Priority Date."**

It is important that each element of the Notice of Claim be substantiated. For instance, regarding claims for irrigation, the evidence should tend to show that diversion works were in place, that they were capable of diverting the claimed diversion rate, and that the diverted water was beneficially used on the entire claimed place of use on or before the claimed priority date.

If no evidence is submitted, or we do not hear from you within the time limit below, your priority date, as claimed, may not be recommended to the SRBA court for decree. This could jeopardize your water use under this right(s) if water availability problems arise in the future.

The required evidence supporting the priority date(s) requested needs to be submitted by April 19, 2006. Please let me know if you may not be able to submit proof of priority or have any questions not covered by this letter and the enclosed pamphlet, by the date indicated above.

In addition, since it is our goal to decree the historical water right within the Snake River Basin as accurately as possible, field exams are now being conducted by Department water resource agents to verify claims in this area. In the near future, you will be receiving a call from us in order to set-up an appointment for a field exam.

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES

Under the provisions of Section 42-243, Idaho Code, any person using or claiming rights to the public waters of Idaho established by diversion and application to a beneficial use must file a claim with the Department of Water Resources on or before June 30, 1983. Exempted from this filing are single family domestic uses as defined in Section 42-230(d), Idaho Code. Also exempted are rights represented by a permit, license, decree, adjudicated right, or a previously filed claim.

The filing of this claim does not confirm the water right claimed but failure to file may result in forfeiture of a water right.

Notice is hereby given that IDAHO MEAT PACKERS, INC.

1602 CHICAGO STRET CALDWELL, IDAHO 83605 (Name of Claimant)

Telephone No. 459-4695

claims a right to the diversion and beneficial use of the surface or ground water. The extent and nature of said claim is as follows:

(1) Date of priority: (When was the water first applied to a beneficial use) 1944

A claim is not acceptable on a ground water source with a priority later than March 25, 1963 or on a surface water source with a priority later than May 20, 1971. An exception is that a claim may be filed on single family domestic use from a ground water source.

(2) Describe the source of water: (Name of stream, lake, spring, etc., or ground water)

GROUND tributary to

(3) Describe the purpose for which the water has been used and the time during the year when you have used the right claimed:

(cfs, af)		(Domestic, Irrigation, Stock, Etc.)	(Both dates inclusive)			
			(Mo., Day)		(Mo., Day)	
Quantity	.25 cfs	Use STOCK & DOMESTIC	Period of Use From	Jan 1	To	DEC 31
Quantity	25 cfs	Use	Period of Use From		To	
Quantity		Use	Period of Use From		To	
Quantity		Use	Period of Use From		To	
Quantity		Use	Period of Use From		To	

(4) -- 25 cfs TOTAL QUANTITY USED.
(cfs, af)

(5) A) Point of diversion: (Location of point where water is diverted from its source)

SW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 23 Twp. 4N Rge. 3W B.M., County of CANYON

Additional points of diversion:

B) Describe means of diversion of water: (Pump and pipeline, well, diversion dam, reservoir, length of ditch and field, etc.). Give sizes and capacities: be as specific as possible. Describe any changes in the system and give the date of the change.

(6) A) Describe location of use by listing number of irrigated acres within each 40-acre tract in appropriate box. If use is not for irrigation, place an "X" in appropriate box to show location.

[illegible]

No. of acres

B) If water is used for other than irrigation, fully describe that use, being as specific as possible:
STOCK WATER, DOMESTIC HOUSE.

NOTE: Include here the type and number of stock watered: 2000 HEAD FEEDER CATTLE & SLAUGHTER CATTLE

(7) If you are claiming water as a member of an organization, list name of organization:

(8) Remarks
