 Comment: When claim was filed the form only listed one spring under item 4 but the description under item 5 stated there were 2 springs used. In review of statutory claim form, I could see that there have always been 2 springs under this claim and claim was supposed to reflect the same as the statutory claim. Have recommended both springs as shown in item 5 and as on original statutory claim.

Re: Claim No(s). A63-05357

& A63-05358

Dear Claimant(s):

In the past, you submitted the above referenced claim(s) in the Snake River Basin Adjudication. Enclosed is a computer generated print-out of the claim(s) for your reference only; this print-out is **NOT** to be returned or re-filed. You have indicated when this claim was filed that the water right(s) was based on either a "Statutory Claim" or "Beneficial Use" of the water. Water rights of this type are established by the historical use of water for a beneficial purpose, dating back to the time the water was first used, this date being the "Priority Date" as shown on the enclosed print-out. Your claim(s) has not been confirmed by a previous filing with the Department of Water Resources since there is no decree, license, or permit on file to verify the use of this water. For this reason, the Department is under a legal requirement to gather evidence from claimants supporting the date of priority for claims based on historical beneficial use of water. Any other claims you may have filed, that are not listed above, do not require evidence of priority be submitted at this time.

Enclosed is a pamphlet entitled "Evidence of Priority" which describes why evidence of the priority date is necessary along with examples of types of evidence that can be submitted to fulfill this requirement. If no evidence is submitted, or we do not hear from you within the time limit below, your priority date, as claimed, may not be recommended to the Court for decree. This could jeopardize your water use under this right(s), if water availability problems arise in the future. It is our goal to decree the historical water rights within the Snake River Basin as accurately as possible. Field exams to verify claims in this area are now being conducted by Department personnel. Please contact this office as soon as possible to schedule a field exam appointment convenient for you.

The required evidence supporting the priority date(s) must be submitted by September 1 1995, referencing all documents with the corresponding claim number(s). If you have any questions not covered by this letter, or the enclosed pamphlet, please call the Western Region office shown above.

ADJUDICATION MEMORANDUM

CLAIM NO.: A63-05357, -05358

SUBJECT: Evidence of priority

EMPLOYEE: TL Minicucci

DATE: 08/24/1995

The new owner of a portion of Res. Bower's property came into the office w/ questions about the evidence of priority request letter. He indicated that the water is used as claimed, but there seems to be some question as to the source of the water (springs located in drain?). He will work on obtaining evidence. He would also like to develop wastewater to irrigate new ground. We discussed the IRR District's objections to permits from drains versus diverting the water before it reached the drain. He took an Application for Permit with him since he has not finalized his plans yet.
