MEMORANDUM

TO: ADJUDICATION FILES 63-5374 & 63-28917

FROM: DANIEL A. NELSON

DATE: 9/9/06

SUBJECT: FIELD EXAMINATION

I performed a field exam on 63-28917 on 8/23/2006 and on 8/30/2006 for water right 63-5374. Both of these rights use the same point of diversion. There are also several other users that use this diversion, but it appears as though these are the only two with beneficial use claims on the north side of Indian Creek. The water for both of these rights are diverted from a common headgate located in the NESW S36 T4N R13W. The water then travels through ditches and pipelines for over a mile to the two places of use. I measured the ditch after it crossed Indian Creek and before it went onto these properties. The ditch has the capacity of carrying 1.64 cfs, which is more than enough capacity to cover both rights and then some. I will discuss each right from this point on separately below:

63-28917 (Ralph Smeed)

The water from the main ditch enters Mr. Smeed's property in the eastern corner and goes directly into a settling pond. Mr. Smeed then uses a small pump and diverts the water to two wheel lines with 5/32 nozzles. This type of system generally operates around 45 to 50 psi, and using these numbers in a theoretical calculation, Mr. Smeed diverts approximately 0.49 to 0.52 cfs. Mr. Smeed irrigates 18 acres, so using the standard 0.02 cfs per acre the most we can allow him for his 18 acres is 0.36 cfs. Therefore, I would suggest that this claim be recommended for 0.36 cfs and 81 afa for 18 acres of irrigation from 3/1 to 11/15.

63-5374 (Ralph and Avona Russi)

The water from the main ditch enters Mr. and Ms. Russi's property at the southern border. The Russi's flood irrigate directly out of the ditch. Therefore, they could use the full amount of the ditch if needed. The Russi's have 9.7 acres, so using the standard 0.02 cfs per acre the most we can allow them for their 9.7 acres is 0.19 cfs. Therefore, I suggest that this claim be recommended for 0.19 cfs and 43.7 afa for 9.7 acres of irrigation from 3/1 to 11/15.

The Russi's also run about 40 to 50 head of cow/calf pairs on the property. At the time of the exam they had 30 head, which I felt was about the maximum that they could run on this small pasture. Therefore, I would recommend a diversion rate of 0.02 cfs for the stockwater portion not to exceed 13,000 gallons per day. The field examiner's handbook allows 0.02 cfs for up to 50 head, and instream stockwater rights are also limited to 0.02 cfs, so this should be more than adequate for their needs.

MANNING EQUATION CHANNEL CAPACITY RESULTS

09-09-2006

File Number: 63-28917 and 63-5374

Claimant: Ralph Smeed and Ralph and Avona Russi

Channel measured: Delivery Ditch

Date of measurement: 8/23/2006

Measurement location:

After the pipeline crossing Indian Creek and before ditch crossed road.

Calculation prepared by: Dan Nelson

Comments about the measurement:

The results of the calculation are:

The length of the channel measured is 85 feet.

The upstream and downstream rod readings are 7.00 and 7.15 feet.

The channel cross section is 2.56 ft-sq.

The wetted perimeter is 5.31 feet.

The hydraulic radius is 0.48 feet.

The slope is 0.0018

The roughness coefficient is 0.0600

The flow velocity is 0.640 ft/sec.

The rate of flow is 1.64 cfs.

*Please verify **all of the elements** of this right.

In addition, please verify:

- **GPS** the location of the well.
- Is **Pioneer Irrigation District** water used to supplement this right?
- How many **stock** were watered in **1987**? The Notice of Claim is for 100 range cattle. How many stock were watered in **1985** (Statutory Claim)?
- **IMPORTANT:** The **Statutory Claim** filed on 9/12/85 is for 0.01 cfs for Stockwater (# of cattle not given) and 0.18 cfs for Irrigation of 8.91 acres. However, the **Notice of Claim** filed on 1/9/90 is for 100 head of cattle for 0.03 cfs and the Irrigation of 9.0 acres for 0.18 cfs. What's the difference?
- **1987 Aerial Photo:** Please draw the **irrigated acres** on the enclosed **1987 aerial photograph**. Draw the **diversion works** on the 1987 aerial photo also; along with the **point of diversion**.
- **Capacity of System:** Calculate the capacity of the system. Verify that the claimed **0.21 cfs** is possible/applicable.

CONVERSATION MEMORANDUM

**RE: Snake River Basin Adjudication Water Right Nos. A63-5374
Evidence of Priority**

April 11, 2006

Since the evidence of priority that the Russis submitted only goes to 1978 and we need something prior to May 20, 1971, I called #454-0623 and got the answering machine for "Inspired Technologies." I left a message and requested that the Russis return my call.

May 8, 2006 (# 454-6530)

Avona Russi called and informed me that they no longer work at Inspired Technologies. When I began to explain the reason that I called, Mrs. Russi gave the phone to her husband, Ralph. While Mrs. Russi was trying to find the letter I sent in March 2006, Mr. Russi stated, "They dug this ditch long ago and they didn't get one of the districts and we don't get district water on this land." When Mrs. Russi found the letter, Mr. Russi handed the telephone back to her. When I asked how they came up with the claimed priority date, Mrs. Russi replied that they bought the property in 1978 and probably got that date from the woman who owned the property before them, Mrs. Bergenbauer. According to Mrs. Russi, Mrs. Bergenbauer has a son that may have knowledge of that date. I also asked if they had any neighbors that may have been in the area a while. Mrs. Russi said that they share the water with a guy that may be able to fill-out a statement. I suggested that they contact either of these two possibilities.

May 23, 2006 (# 454-6530)

Avona Russi called and said, "You inquired about water rights, or something? You were going to find out some information?" I corrected Mrs. Russi and told her that she was supposed to try to contact Mrs. Bergenbauer's son or the man they share the use of the water. When I explained that we needed something that substantiates the use of the water before 1971, Mrs. Russi said that perhaps Wendell Hollshaw may be able to go back prior to 1971. She said she would try to contact Mr. Hollshaw.

RE: EVIDENCE OF PRIORITY

Snake River Basin Claim No(s): A63-5374

Dear Claimants,

In the past, you submitted the above referenced claim(s) during the Snake River Basin Adjudication (SRBA) claims taking. Enclosed is a computer generated print-out of the claim(s) for your reference only, it is not necessary to return this print-out. You indicated, when this claim was filed, that the water right(s) was based on either a "Statutory Claim" or "Beneficial Use" of the water. Water rights of this type are established by historical use of the water for a beneficial use purpose, dating back to the time the water was first used; this date being the "Priority Date" as shown on the enclosed print-out. Your claim(s) has not been confirmed by a previous filing with the Department of Water Resources since there is no decree, license, or permit on file to verify the use of this water. For this reason, the Department is required to gather evidence from claimants supporting the date of priority for claims based on historical beneficial use of water.

Enclosed is a pamphlet entitled "Evidence of Priority" which describes why evidence of the priority date is necessary, along with examples of types of evidence that can be submitted to fulfill this requirement. While I encourage you to read the entire pamphlet, I direct your attention to the two sections entitled. **"What Kind of Evidence is Required"** and **"Some Examples of Documents Which May Be Evidence of the Priority Date."**

It is important that each element of the Notice of Claim be substantiated. For instance, regarding claims for irrigation, the evidence should tend to show that diversion works were in place, that they were capable of diverting the claimed diversion rate, and that the diverted water was beneficially used on the entire claimed place of use on or before the claimed priority date.

If no evidence is submitted, or we do not hear from you within the time limit below, your priority date, as claimed, may not be recommended to the SRBA court for decree. This could jeopardize your water use under this right(s) if water availability problems arise in the future.

The required evidence supporting the priority date(s) requested needs to be submitted by April 19, 2006. Please let me know if you may not be able to submit proof of priority or have any questions not covered by this letter and the enclosed pamphlet, by the date indicated above.

In addition, since it is our goal to decree the historical water right within the Snake River Basin as accurately as possible, field exams are now being conducted by Department water resource agents to verify claims in this area. In the near future, you will be receiving a call from us in order to set-up an appointment for a field exam.

CLAIM TO A WATER RIGHT

Under the provisions of Section 42-243, Idaho Code, any person using or claiming rights to the public waters of Idaho established by diversion and application to a beneficial use must file a claim with the Department of Water Resources on or before June 30, 1983. Exempted from this filing are single family domestic uses as defined in Section 42-230(d), Idaho Code. Also exempted are rights represented by a permit, license, decree, adjudicated right, or a previously filed claim.

The filing of this claim does not confirm the water right claimed but failure to file may result in forfeiture of a water right.

Notice is hereby given that Ralph and/or Avona Russi

claims a right to the diversion and beneficial use of the surface or ground water. The extent and nature of said claim is as follows:

- (1) Date of priority: (When was the water first applied to a beneficial use) 1937

A claim is not acceptable on a ground water source with a priority later than March 25, 1963 or on a surface water source with a priority later than May 20, 1971. An exception is that a claim may be filed on single family domestic use from a ground water source.

- (2) Describe the source of water: (Name of stream, lake, spring, etc., or ground water)

Indian Creek tributary to Boise River

- (3) Describe the purpose for which the water has been used and the time during the year when you have used the right claimed:
