Re: Type of use, for water rights 78-4294, 78-4295, 78-4296, 78-4297, 78-4298A, 78-4299, 78-4301, 78-4302 and 78-4304.

To whom it concerns:

Water was used for commercial use, dust abatement, from the above water rights and streams in 1952 and probably earlier.

William Kerby, one of the former partners with J.I. Morgan Logging in New Meadows, Idaho, confirmed that one of the first jobs he had when he started work for Morgan in 1952, was watering roads for dust abatement. The truck used held 4000 gallons and would do up to 15 loads per day, or 60,000 gallons. Various operations would use between 3 and 15 loads per day, depending on location and distance to the main highway. Said water was removed from various points of diversion from one or more of the above streams on a daily basis for 1 to 4.5 months, from the middle of June through the end of October, depending on the weather.

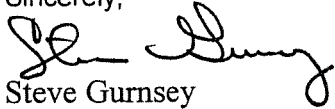

Claus White Sr., another former J.I. Morgan partner, confirmed this.

Other operators were also working in this basin and doing dust abatement. There have been between 1 and 5 logging operations in this basin every year since 1952. Present operations average between 3 and 12 loads per day for duration of up to 4 months.

To whom it concerns:

Water was used for commercial use, dust abatement, from the above water rights and streams in 1952 and probably earlier.

William Kerby, one of the former partners with J.I. Morgan Logging in New Meadows, Idaho, confirmed that one of the first jobs he had when he started work for Morgan in 1952, was watering roads for dust abatement. The truck used held 4000 gallons and would do up to 15 loads per day, or 60,000 gallons. Various operations would use between 3 and 15 loads per day, depending on location and distance to the main highway. Said water was removed from various points of diversion from one or more of the above streams on a daily basis for 1 to 4.5 months, from the middle of June through the end of October, depending on the weather.

Claus White Sr., another former J.I. Morgan partner, confirmed this.

Other operators were also working in this basin and doing dust abatement. There have been between 1 and 5 logging operations in this basin every year since 1952. Present operations average between 3 and 12 loads per day for duration of up to 4 months.

Re: Snake River Basin Adjudication SRBA
Docket Sheet Subscription - Ada/Boise County

Dear Mr. Malany:

We have received your completed Notice of Claims to a Water Right filed for your property in Ada County and Boise County and your Check #77385, in the amount of \$1,099.00. We are processing your claims and enclosed is your Receipt #C006896.

On the second page of the claim form you indicated that you wish to receive the docket sheet. The docket sheet is a document that lists all the legal documents which have been filed with the Twin Falls District Court in the Snake River Basin Adjudication. It is prepared and published on a monthly basis. The fee for a subscription is \$7.50 annually.

The total fee for your adjudication claims was \$1,094.00, leaving an overpayment of \$5.00, which we applied towards your docket sheet subscription. If you will remit the additional \$2.50 for the docket sheet subscription fee to this office, we will be happy to put your name on the mailing list.

Sincerely,

Carter Fritschle
