- ① Where use is domestic as defined, claimants are saying this defines their use sufficiently without irr. & dom. (& they pay \$25).
- ② As I recall the .14 cfs is without the aid of an exam measurement. $(6 \times .02) + .02 = .14$ cfs. Their use is 5 acres & now we say irr $\leq$ 5 acres gets .03 cfs/acre. They are claiming they should have this benefit. For us, we'll examine it to find out.
- Normally more water requires another claim, yes.
