EXEMPLIFICATION

SCANNED

AUG 01 2006

Will of William Bruce Bullard

I, William Bruce Bullard, also known as Bill, of Carbondale, Colorado declare this to be my will. I revoke any wills and codicils that I have previously made.

I. Family Situation; Survival Requirement

A. *Marital relationship.* I am married to Barbara Ann Bush. All provisions relating to my spouse, and to relatives of my spouse, apply unless we become divorced. [For purposes of this will, a "relative of my spouse" refers to a person who is not also a relative of mine.]

B. *Children.* I am the parent of: Brae Bush Bullard. All references to my children include my children now living, and any other children born to or adopted by me in the future.

C. *Beneficiaries must survive thirty days.* Whenever the terms "survives" or "surviving" (or their equivalents) are used in my will, those words shall be read as "survives (surviving) thirty days" past the date being referred to.

II. Transfers of Specific Items of Property, or Specified Amounts of Cash

I make no transfer of specific items of property or specified amounts of cash.

III. General Disposition of My Probate Property

A. *Primary Disposition.* If my spouse survives me, I leave the remainder of my probate property to my spouse.

B. *Secondary Disposition.* If my spouse does not survive me, but I am survived by any of my children or their descendants, then I leave the remainder of my probate property to my children and their descendants per stirpes.

C. *Ultimate Disposition.* If neither my spouse nor any of my children or their descendants survive me, then I leave the remainder of my probate property one-half to my surviving heirs and one-half to the surviving heirs of my spouse, according to the laws of intestacy then in effect in the state of my domicile.

IV. Appointment of Executor

A. I nominate my spouse as executor of my estate. If my spouse does not serve or ceases to serve, I nominate Betty Jean Bush as successor.

B. I wish my estate to be administered using the minimum amount of formality allowed by law. If informal or independent administration of estates is available in the jurisdiction having authority over my estate, I wish my executor to use those methods.

V. Fiduciary Provisions

A. *General Powers of Fiduciaries.* 1. I wish my executor, trustee, and their successors to have the power to do any act permitted under the laws regarding fiduciaries as they exist in the state in which I resided at my death.

2. In addition, I wish my fiduciaries to have the same rights to deal with property that exist for an unmarried person dealing with his or her own affairs, as those rights exist in the state in which I resided at my death.

3. I expect that, if my fiduciaries are not professional fiduciaries, they may need to hire advisors to help them understand their powers and duties, and to help them invest assets appropriately. My estate or trust shall pay for all reasonable expenses incurred in this regard.

B. Special Powers If Beneficiary Is Not Capable of Managing Property. The following special powers apply with respect to all beneficiaries other than my spouse:

1. My executor and trustee shall have the power to pay or distribute income and principal on behalf of any beneficiary who is under legal disability or who is, in the opinion of the executor or trustee, incapable of managing his or her affairs. In carrying out this power, the executor or trustee may distribute income or principal directly to:

- (a) a provider of goods and services;
- (b) the parent or legally appointed guardian or conservator of the beneficiary;
- (c) a bank account in trust;
- (d) a custodian (who may be the trustee) for the beneficiary under a Uniform Gifts or Transfers to Minors Act, or other Act for people under legal disability;
- (e) an adult relative or friend of the beneficiary for purchase of items or services for the beneficiary.

My fiduciary's judgment as to the best method of payment shall be final. The receipt by the designated person shall discharge the fiduciary from further responsibility for the proper expenditure of income or principal. This paragraph applies to all distributions from my estate or from a trust created in this will.

2. In addition, my fiduciaries may accumulate income and withhold distributions of principal on behalf of any beneficiary who is under legal disability or who is, in the opinion of the fiduciary, incapable of managing his or her affairs. The property may be held, in the discretion of the fiduciary, until the beneficiary's legal disability

is removed or until the beneficiary dies or becomes capable of managing his or her affairs, at which time all amounts payable to the beneficiary shall be paid to the beneficiary or to his or her estate. This paragraph applies to all distributions from my estate or from a trust created in this will. However, all funds withheld under this section must be paid to the beneficiary before the expiration of any applicable perpetuities period.

C. Exercise of Discretion. The exercise of any discretion or power by my fiduciaries in good faith shall be conclusive on all persons. All discretions and powers shall be continuing and may be exercised without leave of court.

D. Early Distribution of Property from My Estate. My personal representative may begin distribution of income or principal from my estate immediately upon my death in accordance with the provisions of any trust provided for in this will, regardless of whether that trust has actually come into existence or received any distribution from my estate.

E. Incapacity of Fiduciary. 1. If any person serving as a fiduciary becomes incapacitated, that determination of incapacity shall also constitute that person's immediate resignation as a fiduciary, without any further act.

2. Incapacity may be determined in a court proceeding in which the person is found unable to act prudently and effectively in financial affairs. The person's incapacity may alternatively be determined by the written opinion of the person's physician that he or she is unable to give prompt and intelligent consideration to business matters because of a temporary or permanent physical or mental impairment. If the physician renders that opinion in good faith, the physician shall not be liable for any loss that may follow from the physician making or not making the determination that the fiduciary is incapacitated.

F. No Personal Liability for Individual Serving as Fiduciary. No individual person serving as a fiduciary shall be liable for any loss except for one resulting from acts or omissions done in bad faith or willful breach of

trust, nor shall any such person be generally liable for the acts, omissions or defaults of any agent.

G. *No Bond Required.* I request that the court allow my executor, the guardian of my children [if any], and my trustee [if any] to serve without bond. If bond is required by the court, I request that no security be required on the bond. This applies to named fiduciaries as well as to their named or unnamed successors.

VI. Signature

I now sign this will, in the presence of the witnesses whose names appear below, and request that they witness my signature and attest to its execution.

William Bruce Bullard

Table Notes:

- Items with an asterisk (*) indicate additional splits are needed. Current land owners should file changes of water right ownership with IDWR. Fees n/a for changes of ownership of pending SRBA Claims.
- Raney did not claim his portion of 78-215 or 78-4287 in SRBA. But he did file beneficial use Claim 78-10172 for “floodwater” covering 100 acres also listed in SWSW, SESW & SWSE Section 29 place of use of 78-4287. New owners of land listed in 78-10172 should also file changes of ownership with IDWR.
- Tassano does not own any of the irrigated land currently described by claims in the table. Changes in ownership should correct the table to replace Tassano with some combination of Blanksma (Weitz), Craig and Thornton.

MEMORANDUM

Date: January 29, 2002

From: Craig L. Saxton

Subject: Goose Creek Issue

78-00215, 78-00216, 78-00217

Determining the Decreed POU. The decree states that rights were decreed at 0.8 inches per acre. The three rights in question were decreed for a total of 146.4 inches on the same POU. From the above data it was interpreted that the intention of the decreed rights were to irrigate 183 acres.

Taxlot information was used to determine who owned property within the decreed POU. The total irrigatable acreage was determined to be less than originally decreed at 166.8 acres.

The diversion rate was divided proportionally at 0.8 inches per acre according to the number of acres owned by each party within the decreed POU. Surplus diversion rate was divided proportionately among involved parties.

My determination of water right splits did not take into account accomplished transfers or enlargement of the right.

78-04287

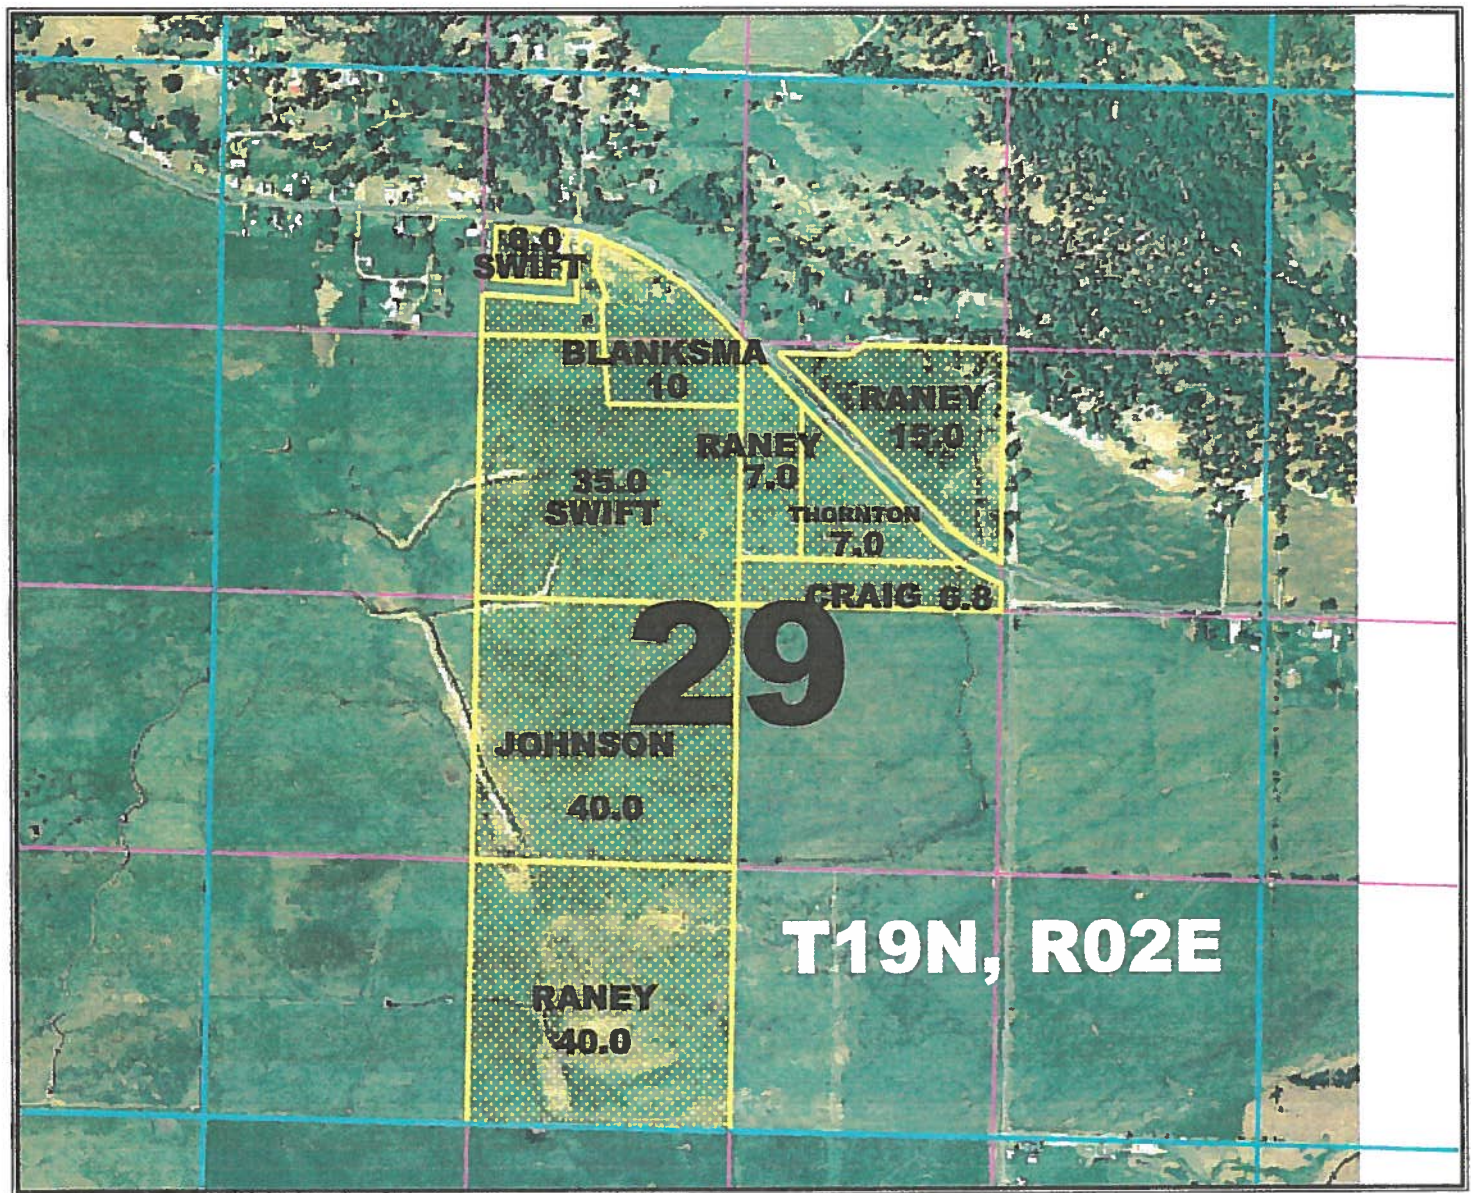

The same method as above was used to determine split ownership of this claim. However, the file does not contain priority evidence and has not been determined to be a valid water right at this time.

4th page summarizes Blankens
split from Tassano claims.

Craig S. knows this stuff
very well.

Dear Claimant(s):

We have received and processed a Change of Ownership for a portion of your original Claim to a Water Right Number(s) as referenced above. This change of ownership resulted in a split of your original claims.

When a portion of the original water right claim has been conveyed to another and the original right has been split, then the original claim number is renumbered by issuing a new water right number to represent each split. Each split contains only the portion of the original right for each separate owner. The above referenced new claim number reflects your remaining portion of the original claim after the change of ownership. Enclosed is a copy of this new claim for your records. Please refer to your new claim number when corresponding with our office.

Please note that the enclosed Notice of Claim to a Water Right is not a determination of your right. This claim represents the remaining portion of the claim filed during claims taking in the Snake River Basin Adjudication (SRBA) and has not yet been verified by this Department. Water rights are established and maintained by beneficial use of water for the uses designated on this claim form dating back to the priority date listed. This claim will be investigated, verified and recommended to the SRBA Court for court decree sometime in the near future. You will be notified prior to the beginning of any verification of this water right.

If you have any questions concerning this ownership change, or the enclosed claim copy, please feel free to contact this office.

Sincerely,

Adjudication Section

Dear Claimants:

We have received and processed a Change of Ownership for a portion of your original Claim to a Water Right Number as referenced above. This change of ownership resulted in a split of your original claim.

When a portion of the original water right claim has been conveyed to another and the original right has been split, then the original claim number is renumbered by issuing a new water right number to represent each split. Each split contains only the portion of the original right for each separate owner. The above referenced new claim number reflects your remaining portion of the original claim after the change of ownership. Enclosed is a copy of this new claim for your records. Please refer to your new claim number when corresponding with our office. Also enclosed is a copy of the original claim for your reference.

Also enclosed are the other water right numbers involved in this ownership change, renumbered as follows: 78-00216A renumbered to 78-12139; 78-00217A renumbered to 78-12142; and 78-04287 renumbered to 78-12145.

If you have any questions concerning this ownership change, or the enclosed claim copy, please feel free to contact this office.

Sincerely,
