Re: water usage by Sandstone Materials, LLC

IOWR # 95-8510

This is to confirm that Sandstone Materials, LLC located at 13782 N. Government Way in Hayden, Idaho has been in continuous operation since January, 2005 and engaged in the mining and processing of sand and gravel products and operating a concrete batch plant. Prior to Sandstone Materials, LLC occupying the site, MJB Materials performed similar operations.

The water from the existing well is used for the washing of sand and gravel and for the production of concrete and the washing out of concrete trucks. A limited amount has also been used to serve domestic water needs, i.e. restrooms, etc. in the office and shop buildings.

Please do not hesitate to contact me with any questions.

Sincerely,

A handwritten signature in cursive script, appearing to read "Steve Sanders".

Steve Sanders,
Managing Member
Sandstone Materials, LLC
