A pretrial conference was held in the above-captioned subcase on January 11, 2011. At the conference the parties discussed the possibility that an amended director's report need be filed for the reason that the water right was originally recommended disallowed due to lack of proof of beneficial use; but such proof has now been submitted to IDWR. The parties also discussed the possibility of filing an SF-5.

On February 18, 2011, an *Order Requesting Amended Director's Report From IDWR* was entered ordering that if IDWR determined that an *Amended Director's Report* needs to be filed in this matter that it be filed on or before June 30, 2011.

On June 30, 2011, the Clerk of the Court received a request from IDWR that the June 30, 2011 deadline be extended an additional thirty days.

In accordance with the foregoing, the following are hereby **ordered**:

1) If IDWR determines that an *Amended Director's Report* needs to be filed, it shall be filed no later than **July 29, 2011**.

2) Notice of the filing of the *Amended Director's Report* shall be published on the Court's Docket Sheet in August 2011. Objections thereto shall be filed by **August 29, 2011**.

3) The objections currently on file will not survive the filing of an *Amended Director's Report*, and new objections will need to be filed by any party in disagreement with the *Amended Director's Report*.
