Attn: Ken Knowblock

I grew up as a child at 3803 Highway 60, Plummer, Idaho. The farm is presently owned by Larry and Joyce Hansen.

I can verify the timeline of when the well was drilled because my brother was born at my parent's original home place on July 4th, 1918. My parents purchased and moved to the Hansen farm prior to my sister being born in October 1919. At the time they purchased the farm, I do not believe there was a well providing water to the house and assume my parents would have drilled a well sometime in 1919 prior to our move because we had livestock, hired help and other domestic needs for water.

The original home was demolished and replaced with a new home in 1936 or 1937. The well was in place at that time.

If I can provide further information, please advise.

Sincerely,

A handwritten signature in cursive script that reads "Patricia L. Whelan".
