CONDITIONS OF LICENSE AND REMARKS

1. This water right is appurtenant to the described place of use.
2. This right is subject to all prior water rights and may be forfeited by five years of non-use.
3. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
4. The right holder shall use the full allotment of appurtenant surface water rights in conjunction with groundwater diverted under this right.
5. This right shall not be used if the surface water right(s) appurtenant to the place of use is sold, transferred, leased, or used on any other place of use.
6. This right when combined with all other rights shall provide no more than .02 cfs per acre nor exceed a combined annual irrigation diversion volume of 24.0 af for the lands above.

RE: 78-7191

Dear Mr. Schultze:

We have reviewed the comments you made on the Notice of Error Reply. This claim was based on Water Right License 78-7191. The date of priority is the date the application was submitted to the department (November 16, 1981). The source is one well for irrigation & domestic use. There is no mention of a second well in the license or the examination of the system in 1995.

If you are receiving water from the Riggins ditch then you should check with the administrators of the ditch to see if they filed a claim on the CCC camp.

Sincerely,

A handwritten signature in black ink, appearing to read 'Kenneth Knoblock', written over a horizontal line.

1. Describe the portion of the proposed recommendation with which you disagree (e.g. priority date, period of use, source):

Site of CCC camp #107 in 1930's - with same source of water. My
irrigation water comes from the Riggins Ditch which was also
used for domestic water. I am now using 2 wells & 2 diversions.

2. Describe the changes you wish to make in the proposed recommendation:

My priority date should be changed to reflect use by CCC-107.
My source should reflect my right to the Riggins Ditch which
comes from the Little Salmon River and is my main irrigation source.

3. Give a brief explanation as to why you disagree with these portions:

My point of diversion does not show a clear picture and
does not include my second point of diversion.

☐ I AGREE with this proposed recommendation: no changes need to be made.

CONVERSATION MEMORANDUM

DATE 4-1-97FILE 78-7388 ~~an~~ (Application)
78-7191NAME OF PARTY Bob SchultzeEMPLOYEE Cindy HodgesRE: Ap for permit vs. transferApplication overlaps 4 homes^(one home, three stubs) licensed under 78-7191.Mr. Schultze had a option to either add a P/D to 78-7191 or proceed w/ this application to increase available flows for 4 homes east of Hwy 95.

Because 78-7191 is licensed at such a low rate of flow, (.05 cfs) it would be difficult to split that between two systems, if the systems were separated. Since Mr. Schultze needs to realize additional flows once the 3 stubs east of the highway are filled, he opted to proceed with the application. The result will be that use under 78-7191 will terminate east of Hwy 95 and be replaced w/ the newer right. The entire flow under 78-7191 will be dedicated to the uses west of the highway @ Schultze's home & 5.5 acres.

Per our telecan, the following change(s) will be made to the application:

- Irrigation use removed, assumed under domestic component, not to exceed $\frac{1}{2}$ ac total (all 4 homes^{sites} owned by Schultze)
- Rate of flow combined for domestic/irr, ~~for~~ not to exceed original application rate of .09 cfs.
- \$50 fee to be submitted for processing.

RE: Filing Acceptable

This claim, although altered and inconsistent with the permit upon which it is based, does have the correct fee paid and is acceptable. The recommendation for the Director's Report will be in agreement with the license that will be issued. Earlier this month the permit holder submitted proof. Considering a permit was issued to this claimant with the number of multiple owners known at that time, the claim can be filed this way as well.

Dear Mr. Schultze:

Re: Permit No. 78-7191

Enclosed is a copy of the approved request for extension of time. The time within which to submit proof of beneficial use is extended to February 1, 1990.

In your letter of December 4, 1986, which was attached to the request for extension of time submittal, you ask several questions. First, you state that all the diversions of water come from the Riggins City Ditch and you want to know if this information should be shown on the application for permit.

This permit proposes the use of water from a well for 13 domestic uses and six acres of irrigation. I'm assuming from the information on the extension request and the information in your letter that the well is used for domestic uses only and that water from the Riggins City Ditch is used for irrigation.

If the Riggins City Ditch is provided water by an irrigation company, there is no need to make a new application for permit. However, the information given is vague, and you may wish to discuss the situation with our Western Regional office (phone: 334-2190).

Sincerely,

RITA I. FLECK

To: ~~Department of Water Resources~~ Water Resources

At the Present time, all of my irrigation water comes from the Riggins City Ditch. I have 7 diversions which includes a pump, pipeline and holding tanks. Should this be shown on my application for permit?

Also some property has changed hands under this application. Families using this water are:

Robert G. Schalte
Lawrence Smith
Sam Collis
George Hawkins
Archie Willis
Don Whitman
