MEMORANDUM

TO: File

FROM: Steve Lester 

DATE: August 5, 2003

RE: Claim 78-7010 Ownership Change

Roy and Gail Travis visited the office on July 31, 2003, in response to the IDWR letter dated July 15, 2002. The letter outlined additional information needed to complete an ownership change for them for adjudication claim no. 78-7010.

They live in Riggins and do not get to Boise very often, making it difficult to set an appointment to fully discuss all the details. They provided the attached information during their visit, but it appears more information will be needed.

The right was licensed for 90 acres of irrigation, including 338 afa. The SRBA claim matches the licensed information. The ownership change form includes a note stating that Travis should have 278 afa or about 82% of the right. If this is the case, they can expect 74 acres of irrigation under their split ($278/338 \times 90 = 74$).

The survey plat indicates Travis bought two parcels totaling 82 acres ($80.324 + 1.676$). Almost all of their land is in Section 1; the small piece in Section 6 is not irrigated according to their information. They stated that some of the western portion of their land is not irrigated since it is too steep (see topo). We were unable to mark a definite irrigation boundary on the plat during their visit. Although the plat shows two parcels now owned by Travis, the 2002 tax notice identifies a single parcel of 79.4 acres. Perhaps the county has a current ownership plat available through the Internet. That might shed some light on the situation.

How can we determine the appropriate split in the Travis change of ownership? Should the split list a 74 acre portion of the right for them? If so, can they show irrigation of 74 acres on their property? Should a 74 acre portion of the right be recorded on a lesser number of actual irrigated acres on their land? A number of questions remain in this matter.

If we disregard the 278 afa statement on the ownership change form (if we can do that) and focus on actual irrigated land under their ownership, we can first eliminate 35 acres in the NESE since Travis does not own anything there. That leaves 55 acres from which to carve their split. They probably do not have 15 irrigated acres in the NWSE. They might have 10 irrigated acres in SWSE, but it appears they own slightly less than 30 acres

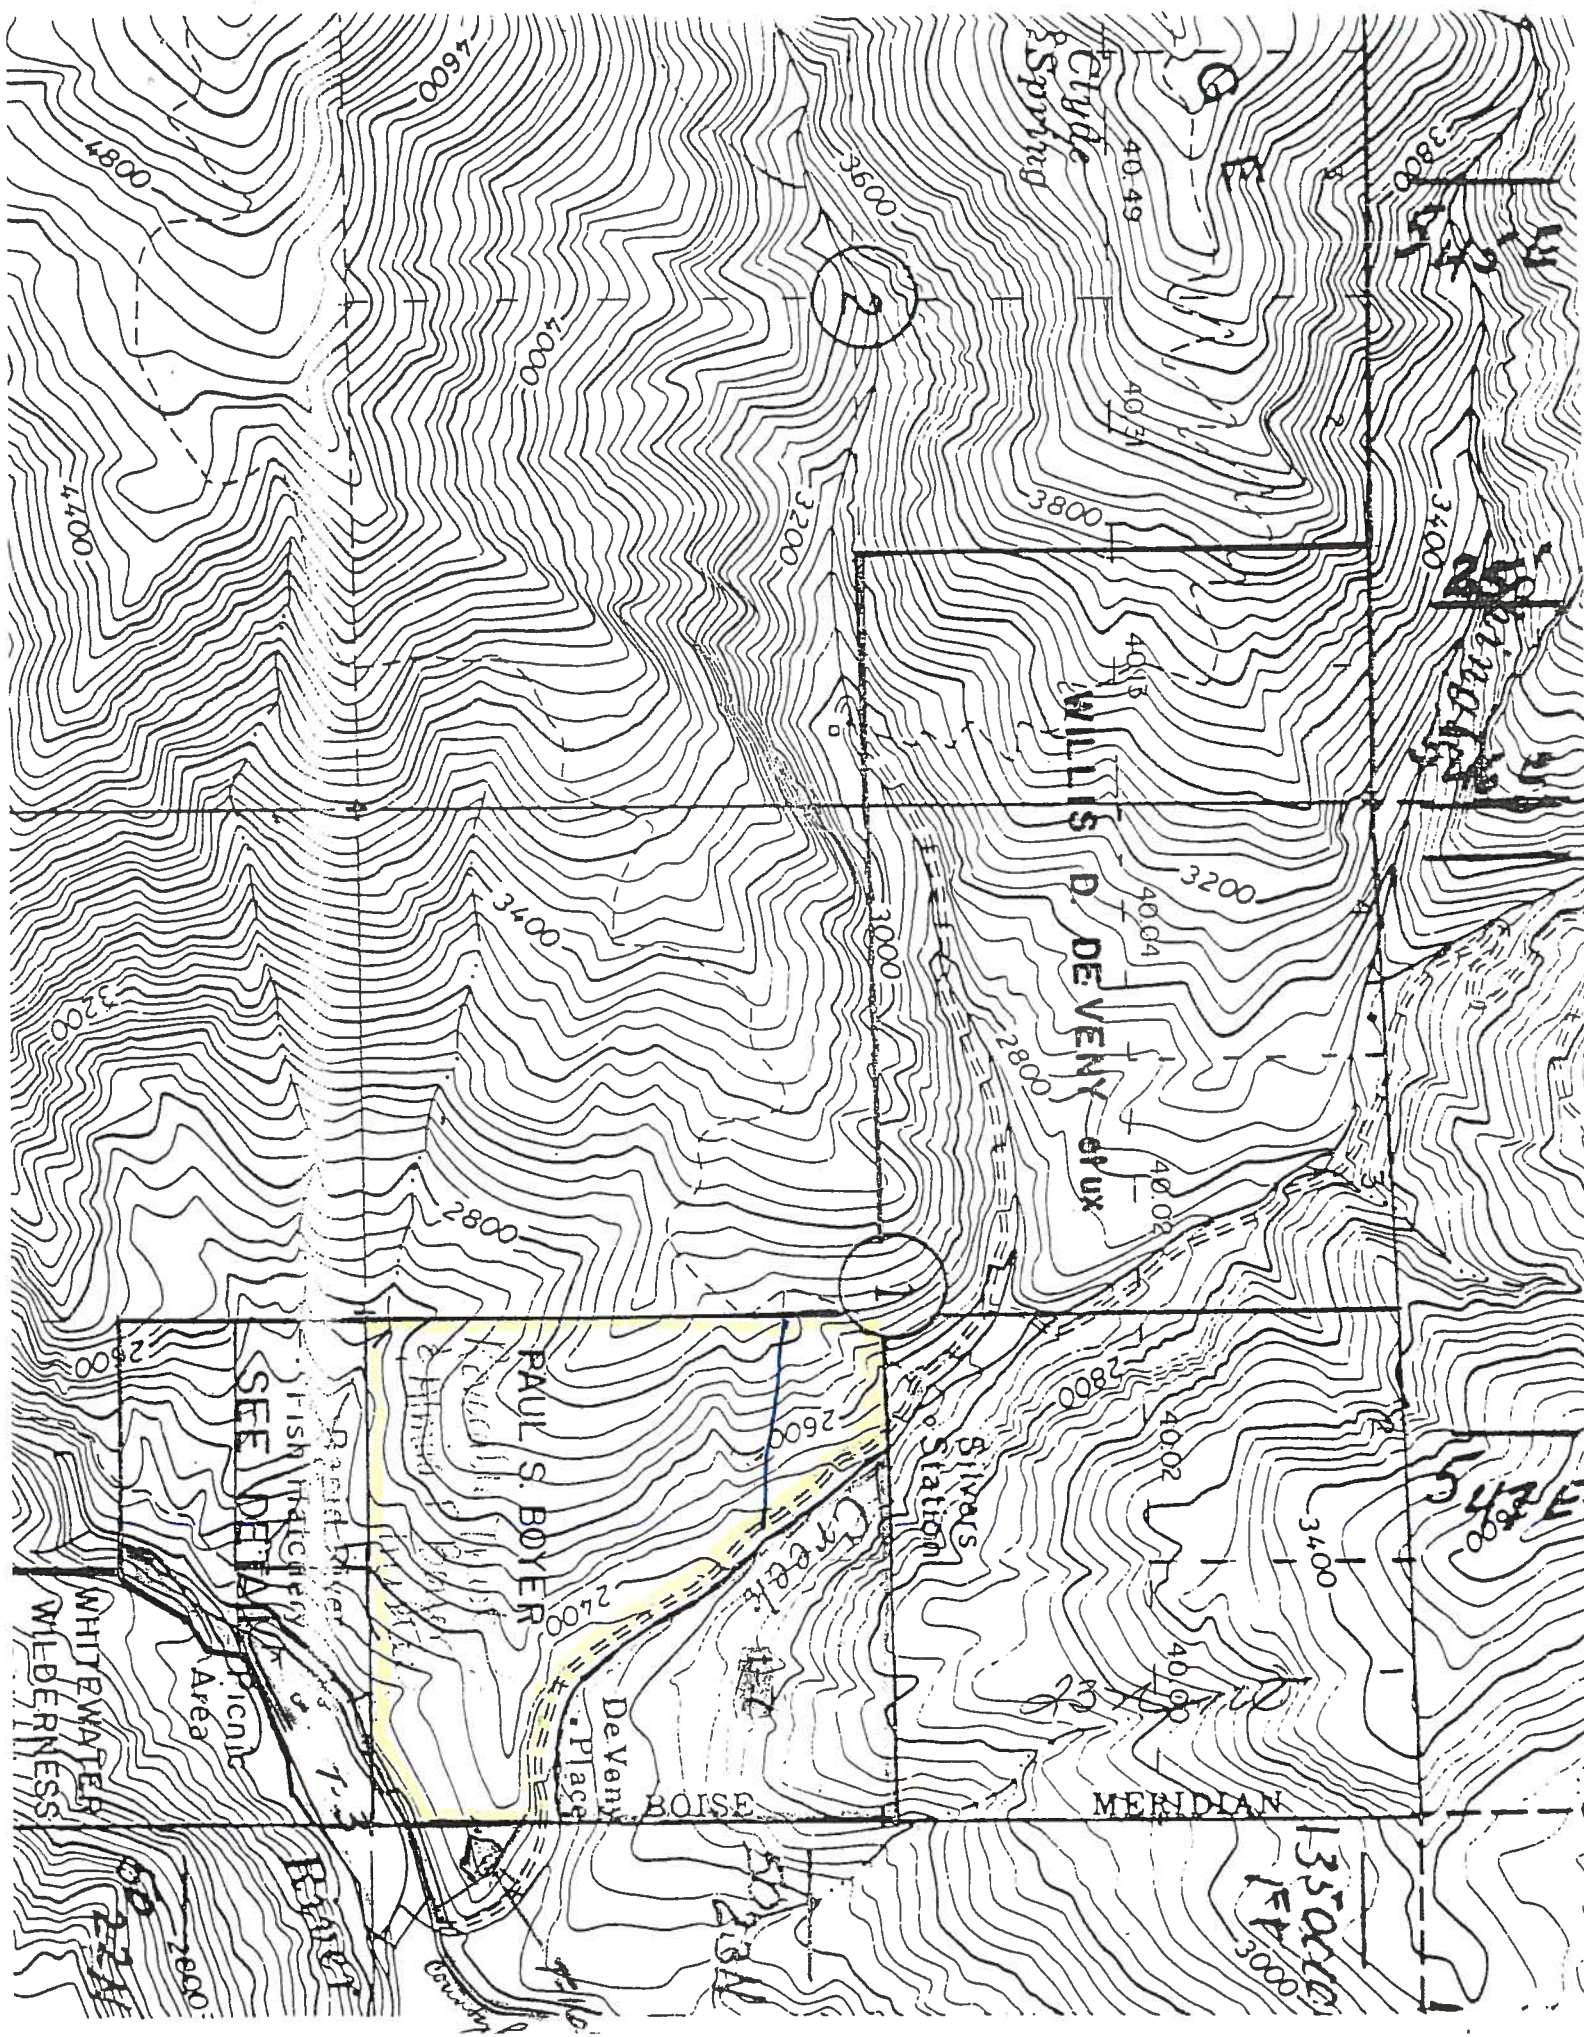

in the SESE. A few acres in Section 6 are not applicable to the split of 78-7010 or to any other recorded right (overlap research indicates nothing for Boyer recorded in SWSW Section 6).

One way to tackle the issue involves field exam information used to issue the license. Unfortunately there does not appear to be a good aerial photo or other document clearly showing how 90 acres of irrigation were identified by the exam. What appears to be a soil typing map/photo might have been used to determine the P/U for the license. The microfiche version of that document is hard to read. Maybe the SO Vault file will be more useful. If that map/photo or something else in the original SO file was used to calculate the number and location of irrigated acres in defining the license, one could prepare an overlay from that product (or maybe from a pre-1987 aerial photo if available in ArcView). The overlay could be matched to an outline of the Travis property to estimate the number of irrigated acres to be shown under the split. This information could be provided to them. Travis could then provide any information to modify the proposed split.

This might be the best way to figure out this puzzle. More complications will be encountered if the ownership change information is adequate to support a 278/338 afa split for them when it is fairly clear they do not own 74 acres of irrigated land.

SUMMARY

1. Travis bought about 82 acres mostly in the SE ¼ of Section 1.
2. It is not clear if they should get a 278/338 portion of the 90 acres of irrigation or a lesser amount based on actual irrigated acres within the P/U of 78-7010 purchased by Travis.
3. The 2002 tax notice is helpful but also leaves some details unanswered.
4. Field exam information is not conclusive unless something not on microfiche but in the original SO Vault file can be found.
5. IDWR should prepare something comparing the current ownership plat with the apparent licensed P/U and use that for a proposed split of 78-7010.
6. The proposed split should be sent to the new owners, leaving them to rebut any tentative conclusions reached by IDWR in this matter.
7. This should resolve the ownership split.

RE: Notice of Change of Water Right Ownership No. 78-7010

Dear Property Owners:

This office has reviewed your Notice of Change of Water Right Ownership for the property with the above reference water right number. However, we are returning this to you at this time.

Due to the fact this is a split of the original claim, we need you to submit a plat map of the property, indicating the portions of irrigated land in which you purchased.

In addition, our records indicate this claim is still in the name of Paul Boyer. The Deed we received indicates you purchased this land from Southern Idaho District Council. In order to complete the review, we will need a chain of title from Mr. Boyer to you. Or, a current tax assessment in your name can also be submitted as sufficient proof of ownership.

Please submit the above information and we will be able to complete this ownership change. We apologize for any inconvenience this may have caused.

If you have any questions concerning this letter, please contact this office at 334-2190. Thank you for your patience and cooperation, as we have had several water right changes to process.

Sincerely,

Adjudication Section
Western Region

SOUTHERN IDAHO DISTRICT COUNCIL, a religious organization

the Grantor, does hereby execute this Corrected Warranty Deed to correct that earlier Warranty Deed, dated the 15th day of December, 2000, which deed was recorded on the 20th day of December, 2000 as Idaho County Instrument Number 0414786. The Grantor states the earlier legal description contained an erroneous legal description and the correct legal description is shown and described in Exhibit A to this deed, referred to as "Corrected Legal Description." Together with, those joint rights in an Irrigation Maintenance Agreement including the terms and conditions thereof by and between Roy Travis and Gail Travis, husband and wife, and the Southern Idaho District Council recorded December 20, 2000 under Instrument No. 0414789, records of Idaho County, Idaho. Together with, a partial assignment of an Idaho Department of Water Resources Water Right being #A78-07010, originally claimed by Paul S. Boyer, with this partial transfer being of 278 acre feet of water to benefit the Exhibit A property.

That the Grantees are the same as they were in the earlier deed, namely

ROY M. TRAVIS and GAIL C. TRAVIS, husband and wife,

whose current address is

P.O. Box 101, Riggins, ID 83549-0101.

That, the Grantees shall have and hold the premises, with their appurtenances unto the Grantees, their heirs and assigns forever. That the said Grantor does hereby covenant with the Grantees that they are owners in fee simple of the premises; they are free and clear of all encumbrances Except: Current Year Taxes, conditions, covenants, restrictions, reservations, easements; rights and rights of way, apparent of or of record.

And they will warrant and defend the same from all lawful claims whatsoever.

DATED this 1st day of May, 2001.

Department of Water Resources

WATER RIGHT LICENSE

License of Water Right No. 78-7010 Priority June 10, 1969 Amount 0.80 cfs

THIS IS TO CERTIFY, that PAUL S. BOYER
of Riggins, Idaho, has complied with the terms and conditions of Permit
No. 78-7010 issued pursuant to Application for Permit dated June 10, 1969,
and has submitted proof to the Department of Water Resources on February 17, 1976,
that he has applied water to a beneficial use; an examination by the Department indicates that the works have a
capacity for the diversion of 0.80 cfs of water from Shingle Creek,
tributary to Rapid River, and that the permit holder has applied to a beneficial use and
established a right to use water as follows:

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume
<u>Irrigation</u>	from <u>April 1</u> to <u>Oct. 31</u>	at <u>0.80</u> cfs and	<u>338 acre feet or</u>
	from _____ to _____	_____ cfs and	<u>4.0 af per acre</u>
	from _____ to _____	_____ cfs and	_____

(both dates inclusive)

Subject, however, to the condition that no more than 0.80 cfs of water be diverted at any one time, and
that the amount of water so diverted and to which such right is entitled and confirmed for the purpose
aforementioned and is limited to the amount which can actually be beneficially used and shall not exceed
338 acre feet per year, said waters to be diverted within the NW 1/4 NE 1/4 and SW 1/4 NE 1/4 of
Sec. 1, Twp. 23 N, Rge. 1 W, B. M. in the County of Idaho

Description and location of place of use:

Twp.	Range	Sec.	NE 1/4				NW 1/4				SW 1/4				SE 1/4				Total
			NE 1/4	NW 1/4	SW 1/4	SE 1/4	NE 1/4	NW 1/4	SW 1/4	SE 1/4	NE 1/4	NW 1/4	SW 1/4	SE 1/4	NE 1/4	NW 1/4	SW 1/4	SE 1/4	
23 N	1 W	1													80	15	10	30	90

Total number of acres irrigated 90

A measuring device of a type approved by this Department shall be permanently
maintained as part of the diverting works.

NOTE: Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho
Code, or the applicable Idaho Law. This right may be forfeited by five years of non-use.

The right to the use of the water hereby confirmed is restricted and appurtenant to the lands or place of use
herein described, as provided by the laws of Idaho.

Witness the seal and signature of the Director, affixed at Boise, Idaho, this 22 day of
June, 19 76.

Director

FEB 19 1976

Paul Boyer
1025 S. Dancove Dr.
West Covina, CA 91791

Dear Mr. Boyer:

Enclosed you will find computer generated Adjudication Claims for your water right numbers 78-7010, 78-7061 and 78-7062. These are the only claims I could locate which were in your name and definitely need to be filed. Also enclosed are copies of Water Right No.'s 78-2070, 78-4173, 78-4139, 78-4140 and 78-7153 to be reviewed by you and adjudication claim submitted if necessary.

The copies of the water rights mentioned above have also been enclosed for your review. Please review each of these water rights along with the maps enclosed to see if any of them need to be filed on by you. The two DeVenly rights, 78-2070 and 78-4173 may be the rights attached to your upper diversion point from Shingle Creek. Claim No. 78-7010 appears to cover the lower diversion and on the phone you mentioned that the Youth With a Mission people now live there. If this is the case, either they or you can submit an adjudication claim based on this right. An adjudication claim form is enclosed for your use in this matter. If you own the land covered by the DeVenly's rights (78-2070 and 78-4173), also complete the enclosed claim forms based on these filings, but listing the acres irrigated at the present time.

Adjudication Claim No's. 78-7061 and 78-7062 are the claims for the groundwater(well) servicing the homes by Papoose Creek. If these need to be filed by James Woods, please send them to him for completion. I wasn't sure if you needed to file them, since they are in your name, however, if he owns the land now then the filings can be made by him. These forms are the computer generated forms and no other forms need to be completed. Either your signature, or James Woods signature, depending on who is filing the claims, need to be on these claim forms with the signatures notarized.

Water Right No.'s 78-4139, 78-4140 and 78-7153 were the only water rights I could find in Sec. 24, Twp. 24N, Rge. 1W, for water use from Papoose Creek. Please check the legal descriptions on these rights and if any of your irrigated land is included on these rights, then adjudication claims need to be filed. If new land owners are using Papoose Creek water under these rights, then they need to file adjudication claims based on these rights also. Notices were sent to all landowners in Adams and Idaho County, therefore, anyone owning land in the Papoose Creek area would have received this letter and is

MICROFILMED
OCT 06 1992

aware they should file. Any future diversions from Papoose Creek, not already developed, will need to be filed on at the time the development is to take place. This is also true for drilling wells for domestic use in the future. Adjudication claims cannot be filed for a water use that has not yet been developed. On these three rights, please review them to see if any of them are on land you own, and if so, complete the enclosed claim forms, have your signature notarized and return the claims to us with the appropriate fees. The set of instructions for completing these claims is enclosed and is very helpful. Also enclosed is a fee schedule to help you in determining the fees for each claim.

I'm sure some question will come up about these, and if it is convenient for you, please drop by our office and we can assist you in completing claims on your water rights. However, the last date for filing claims in Idaho County is July 27, 1988, and claims not filed by that date are subject to a late fee. Please feel free to call me at 208-334-2190 with any questions.

Sincerely,

JAN SHURTE

NOTICE OF CLAIM
TO A
WATER RIGHT
ACQUIRED UNDER STATE LAW

Please type or print clearly

1. Name of Claimant (s) Paul S. Boyer Phone (208) 628-3339
(818) 919-4306
Mailing Address 1025 S. Dancove Dr. West Covina, CA Zip 91791

2. Date of Priority (Only one (1) per claim) June 10, 1969

3. Source of water supply (a) Shingle Creek
which is tributary to (b) Rapid River

4. a. Location of existing point of diversion is: Township 23 N Range 1 W Section 1,
1/4 of NW 1/4 of NE 1/4, Govt. Lot, B.M., County of Idaho

Additional points of diversion if any: SW NE Sec. 1 T. 23 N Rge 1 W

b. If instream flow, beginning point of claimed instream flow is:

Township _____ Range _____ Section _____, _____ 1/4 of _____ 1/4 of _____ 1/4,

Govt. Lot _____ B.M., County of _____

ending point is: Township _____ Range _____ Section _____, _____ 1/4 of _____ 1/4 of _____

_____ 1/4, Govt. Lot _____ B.M., County of _____

5. Description of existing diversion works (Dams, Reservoirs, Ditches, Wells, Pumps, Pipelines, Headgates, Etc),
including the dates of any changes or enlargements in use, the dimensions of the diversion works as
constructed and as enlarged and the depth of each well.

Diversion dam to pipeline,
then to gravity flow ditch to distribution box,
to sprinkler system
