RE: 77-2075

Dear Mr. Farmer:

On May 25, 1988, Hazel Taylor submitted a Notice of Claim in the Snake River Adjudication which was owned once by Mark Hollon. We searched the Idaho County tax lot information and it appears that you may now own the property. If you do own the property, and the water is still being used, and you want your name in the final recommendation, then you need to file a change in water right ownership form and mail it to this office. Be sure to include a copy of the warranty deed or other document as described in item 2. B.

Sincerely,

Department of Water Resources

Dear Mrs. Taylor:

Enclosed are copies and computer print-outs of existing water rights on Papoose Creek. Also enclosed is a map of Papoose Creek showing the locations of the points of diversion as listed on the water rights. Please note these diversion points are listed by 40-acre tract($\frac{1}{4}$), so where I have located them on the map is somewhere in that 40-acre tract, but may not be the exact location of diversion.

These rights are a combination of permits, licenses, and claims. The claims are where a person files claiming a grandfather use right, which has not been verified by the Department. Permits and licenses, as you know, are filed having a priority date of the date the form was filed and are verified by the Department at the time of the field exam. Once your area is adjudicated, and if no protests are received, a claim can be decreed by the court and become as good a water right as a licensed right. The priority dates of these filings, including the claims are in order as follows:

1. Claim No. 78-4138 - Homer S. & Irene R. Joseph - 4/1/1910
2. License No. 78-2033 - C. M. Clay - 6/26/1924
3. Claim No. 78-4087 - Ivan J. &/or Maxine G. Carlisle - 1/1/1936
4. License No. 78-2075 - N. O. Taylor - 6/18/1965
5. License No. 78-2076 - Arvid C. Fredlund - 8/11/1965
6. License No. 78-2078 - Dale E. Astle - 8/11/1965
7. License No. 78-2077 - Paul Albert Campbell - 8/12/1965
8. Claim No. 78-4140 - Earl R. Futter - 1/1/1971
9. Claim No. 78-4139 - Gene C. Pennington - 1/10/1971
10. Permit No. 78-7153 - Ernest T. Rhodefer - 3/17/1980
11. License No. 78-7149 - Charles F. Kohler - 6/18/1980
12. Permit No. 78-7215 - James Albert Amell - 4/7/1982

MICROFILMED
OCT 05 1992

This order of rights is based on the filings on hand, which have not been adjudicated, therefore, water distribution cannot be physically regulated by our Department. However, as we discussed, if you are having problems receiving water because an upstream user with a later priority date has been diverting it, please notify me as to the parties involved and we can send a letter informing them that they are diverting water intended for another right. Once your area is adjudicated in court and the water rights are

decreed, a watermaster can be hired to regulate deliveries.

I hope this information helps and please feel free to contact me with any questions you may have. Please remember that the listing of rights by priority date does not mean that the Department verifies the No. 1, 2, etc., dates. Only that this is the recorded dates we have and the only rights that have been verified are the licenses. The water right permit that the field exam was conducted on will be recommended for licensing as soon as the write-up by me is completed. However, it may take some time to receive the signed license from our state office due to a backlog in licensing. In the meantime, your permit remains in good standing with the Department until the license is issued. Once again, feel free to contact me with any questions.

Sincerely,
