

Affidavit

This affidavit hereby swears the following to be true and accurate. The land associated with water right numbered 35-8201, was bought in 1981 by my son Daniel L. Winberg and work began in the spring of 1982 to increase the size of the pump, and irrigation efficiency. The work was completed within a month, so that we could begin irrigating our spring crops. This water right (35-8201) was applied for in 1983, and has been used from that time until this. Both the property and all water rights associated with it were transferred to me, Richard Winberg, in November of 1985. I, and my son before me, have used this water right (35-8201) every year since 1983. To the best of my knowledge, irrigation water has regularly been used, on this property going back to the original dates, of the original water rights (35-2430 and 35-2434) which was 1955 and '56.

Affidavit

This affidavit hereby swears the following to be true and correct.

I David Peck of Peck Irrigation company was present, and do recall, the work done on the well of the property of Daniel Winberg, and later owner, Richard Winberg. This work, to increase the pump size and irrigation capabilities of the property located at, township 4 south, range 31 east, section 14, of Bingham county, was done by our families' pump drilling business in the spring of 1982.
