JUSTIFICATION FOR IRRIGATION REMOVAL -

In a conversation with Elaine Woodard on 3/24/06, she informed me that the claimed 1 acre of irrigation covers the lawn surrounding their home only.

(See Conversation Memo in file)
ArcView calculations of their lawn area reveal that only 0.5 acre exists; not 1.0 acre as claimed (this is evident on 1987, 1994, 2000, & 2004 NAPP images). Therefore, the 1.0 acre of irrigation will not be recommended; since the 0.5 acre of lawn is covered under the domestic use.

AFTER EXAM THE FILE SHOULD CONTAIN:

- ☒ Completed claim checklist
- ☒ Photographs of POD's and POU → Field Investigation conducted by Karen Waters on 6/2/03.
- ☐ GPS readings
- ☒ Completed map and or GIS layout showing POD's and POU

DATE EXAM CONDUCTED: 3.24.06 (in office review)

FIELD EXAMINER: Kimberly Brown

CONVERSATION MEMORANDUM

RE: Snake River Basin Adjudication Water Right Nos. A63-21124

March 24, 2006

Nothing in the file specifically depicts the exact place of use or location of the well. As a result, along with the request for evidence of priority, I sent a 1987 aerial photograph to the Woodards; requesting that they draw the 1.0 acre of irrigation and the location of the well on it and return it to me with their evidence of priority. The Woodards submitted an affidavit and a Certificate of Abstracter as evidence, but failed to return the 1987 aerial photo with the information I requested. Therefore, I called #466-6031 and spoke with Elaine Woodard. She said that the "old" well was located behind the house, on the edge of the back yard. When I asked her where the new well, which was drilled in 1983, was located; she said that it was located in the front yard; near the driveway. When I asked her what the claimed 1.0 acre of irrigation covered, she replied that it covered the lawn surrounding their home. When I asked if it covered any land in addition to the lawn, she said that they only use this well for their home and lawn.

ArcView calculations reveal that the lawn covers only 0.5 acre; not the claimed 1.0 acre. Therefore, the irrigation of 1.0 acre is not being recommended; since the 0.5 acre of lawn irrigation is covered by the domestic use.

Elaine Thomas Woodard

deposes and says: Mrs Thomas purchased this farm in 1910.

After building a house, barns, corrals and drilling a well, the family moved to the farm in 1912. We are submitting a copy of the warranty deed showing ownership in 1910 and a tax receipt from Groves Irrigation District for the year 1912. These show that they had irrigation water to raise crops. As they were living on the farm they would have used domestic well water for personal and live stock use.

There has been a member of Elaine Thomas Woodard's family operating this farm for 96 years. They were Mrs Thomas, her grandfather, Floyd Thomas, her father, Elaine and her husband Maurice Woodard, and her son Stephen Woodard. Because of the age of this water right there are no people and very little paper work remaining to use as testimony.

ACTION OF THE DEPARTMENT OF WATER RESOURCES

I, R. Keith Higginson, of the Department of Water Resources hereby approve the above Application for Amendment for Permit No. 63-10764 with the following;

CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount that can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. This right when combined with all other rights shall provide no more than .02 cfs per acre nor more than 4.5 afa per acre for the lands above.
6. The right holder shall fully use all surface water rights appurtenant to the lands identified above prior to using water under this right.

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES
APPLICATION FOR PERMIT

APPROVED

To appropriate the public waters of the State of Idaho

1. Name of applicant Maurice E. Woodard Phone 466-6031
Post office address 18638 Prescott Lane Nampa Id 83687
2. Source of water supply Groundwater which is a tributary of _____
3. Location of point of diversion is _____ $\frac{1}{4}$ of NE $\frac{1}{4}$ of NE $\frac{1}{4}$, Govt. Lot _____
Sec. 35 Township 4N Range 2W B.M. Canyon County; additional
points of diversion if any: _____
4. Water will be used for the following purposes:
Amount 2.6 cfs for Irrigation purposes from 3-15 to 11-15 (both dates inclusive)
(cfs or acre-feet per annum)
Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)
Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)
Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)
5. Total quantity to be appropriated is (a) 2.6 cubic feet per second and/or (b) _____ acre feet per annum
6. Proposed diverting works:
 - a. Description of ditches, flumes, pumps, headgates, etc. Well, pump, gravity flow system
 - b. Height of storage dam _____ feet; active reservoir capacity _____ acre-feet; total
reservoir capacity _____ acre-feet; period of year when water will be diverted to storage:
_____ to _____ inclusive.
 - c. Proposed well diameter is 16 inches; proposed depth of well is 220 feet.
 - d. Is ground water with a temperature of greater than 90°F being sought? No
7. Time required for the completion of the works and application of the water to the proposed beneficial use is
2 years (minimum 1 year).

JUN 14 1989

8. Description of proposed use (if irrigation only, go to item 9):

- Hydropower; show total feet of head and proposed capacity in KW. _____
- Stockwatering; list number and kind of livestock. _____
- Municipal; show name of municipality. _____
- Domestic; show number of households. _____
- Other; describe fully. _____

9. Description of place of use:

- If water is for irrigation, indicate acreage in each subdivision in the tabulation below.
- If water is used for other purposes, place a symbol of the use (example: *D* for *Domestic*) in the corresponding place of use below. See instructions for standard symbols.

TWP	RANGE	SEC.	NE¼				NW¼				SW¼				SE¼				TOTALS
			NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	
4N	2W	35	25	25	40	40													130

Total number of acres to be irrigated 130

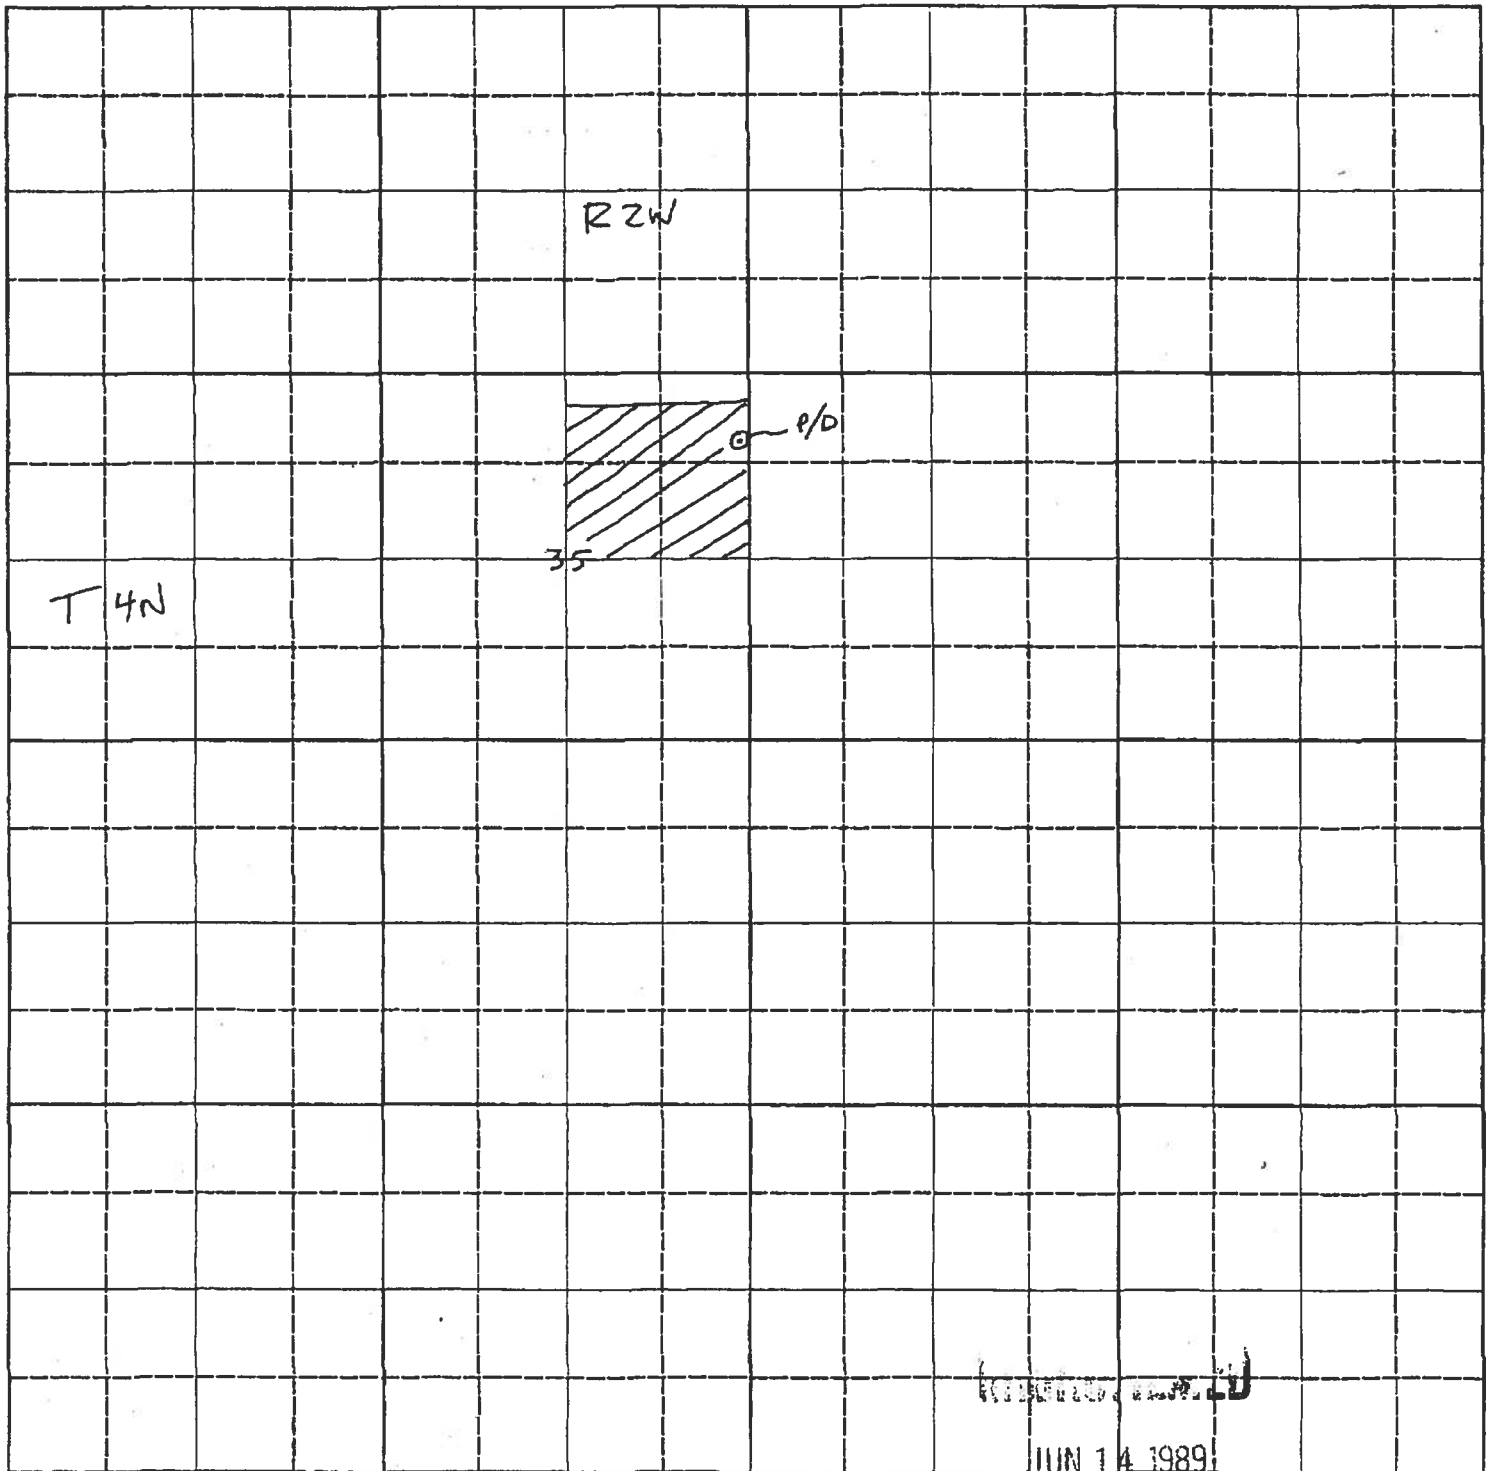

10. Describe any other water rights used for the same purposes as described above. Pioneer Irrigation District surface water rights

- Who owns the property at the point of diversion? Applicant
- Who owns the land to be irrigated or place of use? Applicant
- If the property is owned by a person other than the applicant, describe the arrangement enabling the applicant to make this filing. _____

12. Remarks: _____

JUN 14 1989

13. Map of proposed project: show clearly the proposed point of diversion, place of use, section number, township and range number.

Scale: 2 inches equal 1 mile.

BE IT KNOWN that the undersigned hereby makes application for permit to appropriate the public waters of the State of Idaho as herein set forth,

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. 63-10764, and said application is hereby APPROVED.

1. Approval of said application is subject to the following limitations and conditions:

a. SUBJECT TO ALL PRIOR WATER RIGHTS.

b. Proof of construction of works and application of water to beneficial use shall be submitted on or before June 1, 19 91.

c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.

d. The water right acquired under this permit if for hydropower purposes shall be junior and subordinate to all rights to the use of water, other than hydropower, within the State of Idaho that are initiated later in time than the priority of this permit and shall not give rise to any right or claim against any future rights to the use of water, other than hydropower, within the State of Idaho initiated later in time than the priority of this permit.

e. Other: Permit holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code.

Permit holder shall commence the excavation or construction of diverting works within one year of the date this permit is issued and shall proceed diligently until the project is complete.

Prior to the diversion of water under this permit a flow measurement port or other device as specified by the Department shall be installed to provide for the installation of measuring equipment and the determination of the rate of diversion by the Department.

Witness my hand this 30th day of May, 1989.

A. Glen Saylor

System Description (continued)

3. Narrative: Description (As operating at time of measurement. Indicate pressure, number of sprinklers, etc.)

An 18" x 256' well with a 25 h.p. pump discharges into an 8" pipe of approx 10' in length and also into a 12" underground pipe. The 8" pipe then discharges into a 16" cement ditch which runs to the west across the property. The 12" pipe runs underground to the south. The 12" pipe splits into a gated pipe and then runs further south before discharging into a 16" cement ditch which runs to the west across the property. The water is used to supplement irrigation district water, but

D. FLOW MEASUREMENTS

☐ Additional Data Sheets Attached

1.

Measurement Equipment	Type	Make	Model No.	Serial No.	Size	Calib. Date
Polysonic						

2. Measurements:

25 h.p.; 20' dynamic, per owner; area discharge

From polysonic: 967.92 GPM - See Attached

Average: $12.4 + 11.8 + 2.3 + 11.8 + 22.5 + 12.4 + 11.5 + 15.8 + 12.4 = 128.1$ acres

E. FLOW CALCULATIONS

☐ Additional Computation Sheets Attached

1. Measured Method: 2.56

$128.1 \text{ acres} \times .02 \text{ cfs} = 2.56 \text{ cfs}$

$967.92 \text{ GPM} \times \frac{1}{2.116} = 2.2 \text{ cfs}$

2. Alternate Method for Checking Purposes:

$25 \text{ h.p.} \times 70\% \times 8.8 = 2.7 \text{ cfs}$

F. PUMP EFFICIENCY DATA (Optional)

Discharge Pressure: _____ psi x 2.31 = _____ ft (1); Dynamic pumping level: _____ ft (2)

Total Head: (1) + (2) = _____ (3); Flow rate: _____ cfs (4)

Water HP: (3) x (4) ÷ 8.8 = _____ (5)

Meter Input KW: 3.6 x _____ KH x _____ CTR or _____ MULT x _____ PTR x _____ N/ _____ T = _____ (6)

Meter Input HP: (6) x 1.34 = _____ (7)

Panel Input KW: _____ Ave PF x _____ Ave Volts x _____ Ave Amps x .001732 = _____ (6)

Panel Input HP: (6) x 1.34 = _____ (7) Efficiency: (5)/(7) x 100 = _____ %

G. VOLUME CALCULATIONS

1. Volume Calculations for Irrigation:

$V_{I.R.} = (\text{Acres Irrigated}) \times (\text{Irrigation Requirement}) = 128.1 \times 4.5 = 576.5 \text{ A}$

$V_{D.R.} = [\text{Diversion Rate (cfs)}] \times (\text{Days in Irrigation Season}) \times 1.9835 = 2.2 \text{ cfs} \times 245 \times 1.9835 = 1067.1 \text{ A}$

$V = \text{Smaller of } V_{I.R.} \text{ and } V_{D.R.} = 576.5 \text{ A}$

2. Volume Calculations for Other Uses:

DEC 14 1994
MIRRORED
Retake
JAN 20 1995

H. REMARKS AND OVERLAP REVIEW ANALYSIS

this water hasn't been present in the past two years.

The combined diversion from this permit and Pioneer Irrig.
District surface water rights shall not exceed 2.56 cfs and 576.5 afa

I. RECOMMENDATIONS

1. Recommended Amounts

Beneficial Use	Period of Use		Rate of Diversion Q (cfs)	Annual Volume V (afa)
	From	To		
<u>Irrigation</u>	<u>3/15</u>	<u>11/15</u>	<u>2.2 cfs</u> <u>2/16</u>	<u>576.5 afa</u>
			<u>2/16</u>	
Totals:			<u>2.2 cfs</u>	<u>576.5 afa</u>

2. Recommended Amendments

- ☐ Change P.D. as reflected above ☒ Add P.D. as reflected above ☐ None
☒ Change P.U. as reflected above ☐ Add P.U. as reflected above ☐ Other

RE: EVIDENCE OF PRIORITY

Snake River Basin Claim No(s): A63-21124

Dear Claimants,

In the past, you submitted the above referenced claim(s) during the Snake River Basin Adjudication (SRBA) claims taking. Enclosed is a computer generated print-out of the claim(s) for your reference only, it is not necessary to return this print-out. You indicated, when this claim was filed, that the water right(s) was based on either a "Statutory Claim" or "Beneficial Use" of the water. Water rights of this type are established by historical use of the water for a beneficial use purpose, dating back to the time the water was first used; this date being the "Priority Date" as shown on the enclosed print-out. Your claim(s) has not been confirmed by a previous filing with the Department of Water Resources since there is no decree, license, or permit on file to verify the use of this water. For this reason, the Department is required to gather evidence from claimants supporting the date of priority for claims based on historical beneficial use of water.

Enclosed is a pamphlet entitled "Evidence of Priority" which describes why evidence of the priority date is necessary, along with examples of types of evidence that can be submitted to fulfill this requirement. While I encourage you to read the entire pamphlet, I direct your attention to the two sections entitled. **"What Kind of Evidence is Required"** and **"Some Examples of Documents Which May Be Evidence of the Priority Date."**

It is important that each element of the Notice of Claim be substantiated. For instance, regarding claims for irrigation, the evidence should tend to show that diversion works were in place, that they were capable of diverting the claimed diversion rate, and that the diverted water was beneficially used on the entire claimed place of use on or before the claimed priority date.

If no evidence is submitted, or we do not hear from you within the time limit below, your priority date, as claimed, may not be recommended to the SRBA court for decree. This could jeopardize your water use under this right(s) if water availability problems arise in the future.

The required evidence supporting the priority date(s) requested needs to be submitted by March 27, 2006. Please let me know if you may not be able to submit proof of priority or have any questions not covered by this letter and the enclosed pamphlet, by the date indicated above.

In addition, since it is our goal to decree the historical water right within the Snake River Basin as accurately as possible, field exams are now being conducted by Department water resource agents

RE: Investigation of Water Right Claims in the Snake River Basin Adjudication, Basin 63

Dear Claimant:

As you may be aware, the Idaho Department of Water Resources (IDWR) is commencing its Snake River Basin Adjudication (SRBA) investigation of water rights in the Boise River Basin (Basin 63). This investigation is a major effort, and IDWR has hired a contractor, Water Works, Inc., to assist us with this task.

The purpose of this letter is to advise you that Water Works, Inc. might be contacting you to conduct a field investigation of your water use. This investigation is meant to provide important information to the IDWR Senior Water Resource Agent who will be making a recommendation for your water rights. Accordingly, we request that you provide Water Works, Inc. with access to your water diversion system so that their personnel can conduct this field examination. Water Works, Inc. will be gathering information on the rate of flow, diversion location and place of use of your water rights, and will be reporting this information to IDWR.

If you have sold your property in the Boise River Basin, we request that you forward this letter to the purchaser, so that the purchaser can report the new name and address to our office. If you are unable to forward this letter, please send any information regarding a new owner to our Western Regional Office located at 2735 Airport Way, Boise, 83705, (208) 334-2190.

The process of adjudicating your water rights is straightforward for most people, resulting in the issuance of decreed water rights on your property. ~~Experience has shown that water users who~~ work with our agency early in the process to ensure that their recordings are correct have a better experience than those who wait until IDWR has filed its findings with the SRBA Court. Thus, we encourage you to work with our staff and with Water Works, Inc. to ensure that the results accurately reflect your water uses.

Sincerely,

Jan Shurte
Adjudication Section Supervisor
Western Regional Office
