RE: Preliminary Recommendation for 63-21240

Dear Ms. Haylett:

Upon review of your property and the 2004 NAIP imagery I believe I have now included all of your irrigated lands under this recommendation. The enclosed layout shows the location of the irrigated lands I propose to recommend in the red blocks. The irrigation component of this recommendation will now show 1.5 acres of irrigation rather than 1.1 acres as previously determined. Please review this layout and make sure all the irrigation is now covered. The domestic use is shown in the purple box. Stockwater can be used on the entire tax lot owned by your parents.

Please review this layout and let me know **as soon as possible** if you believe changes are necessary. If I don't hear from you by the end of next week, the recommendation will be submitted to the court as shown. If you have any questions in regard to this matter, please feel free to contact me at 287-4953.

Sincerely,

A handwritten signature in cursive script that reads "Kay Walker". The signature is written in dark ink and is positioned above the printed name and title.

RE: Preliminary Recommendation for 63-21240

Dear Ms. Haylett:

After meeting with you on October 18th and then revisiting the preliminary recommendation of the above referenced claim, I offer the following information.

The claim submitted in the Snake River Basin Adjudication (SRBA) was filed for the irrigation of 3 acres, domestic use for 1 home and stockwater for 50 head of stock. The preliminary recommendation found the irrigation of 1.1 acres of land, domestic use for 1 house and stockwater for 50 head of stock. I have enclosed a couple of GIS layouts for you to review and see exactly how this claim is to be decreed. Layout #1 shows the area of this property and the ownership of the lands pursuant to Canyon County tax lot information. It also identifies the location of the 1.1 acres in relationship to the property boundary. Layout #2 shows the property along with the area of the pond as previously indicated on a layout submitted by Geraldine Haylett with her evidence of priority.

I searched our database for any other water rights that may have been filed on this property and found domestic right 63-21242, which is for one of the homes on the property. I have included a copy of the partial decree for that home per your request. If you will notice, this right has a priority date of June, 1984, so that might help you determine which one of the other two homes it covers. I did not find any water rights for use of the spring that you believed your father had filed on.

Please review these layouts and the preliminary recommendation and let me know **before November 6th** if you believe changes are necessary. If I don't hear from you by then the recommendation will be submitted to the court as shown. If you have any questions in regard to this matter, please feel free to contact me at 287-4953.

Sincerely,

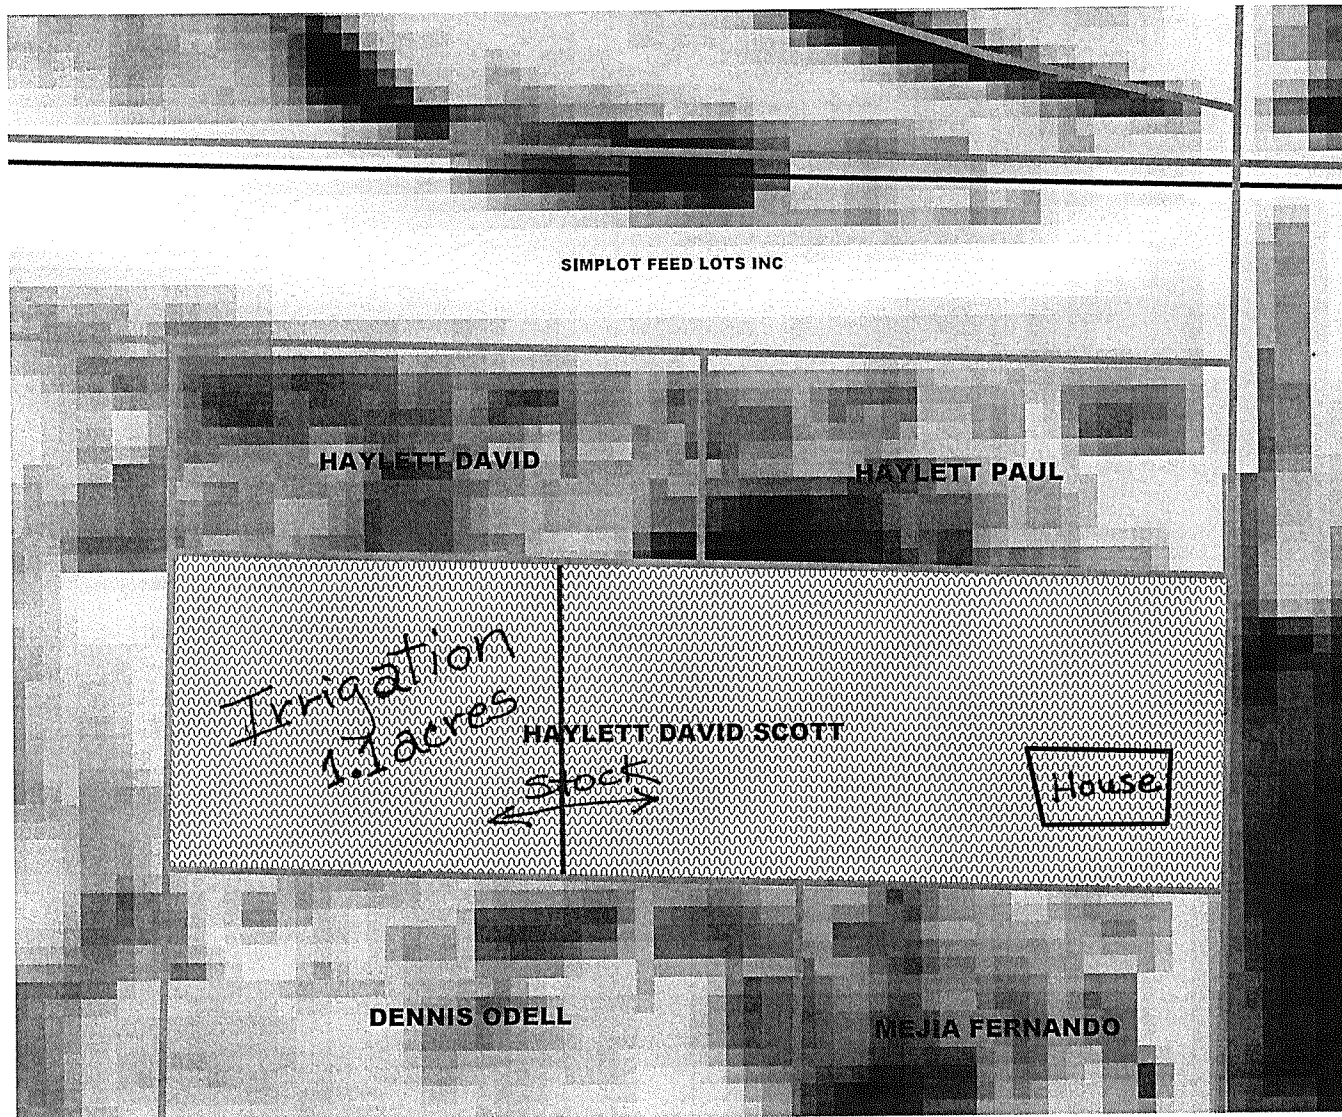

KAY WALKER
Sr. Water Resource Agent

Description of diverting works

Artesian well, 1 HP press. pump -
piped to house & free-flow to pond for irrigation

OVERLAP REVIEW

Other water rights with the same point of diversion: _____

Does overlap add acres or uses to existing system, increase rate of flow or volume, or other? Explain:

WATER USES

☐ No change

☐ Different Uses

Use _____ From _____ To _____ Amount _____ CFS _____ AFA

Use _____ From _____ To _____ Amount _____ CFS _____ AFA

Use _____ From _____ To _____ Amount _____ CFS _____ AFA

TOTAL VOLUME – Groundwater only

☐ Incomplete on claim, the total is, Amount _____ CFS _____ AFA

☐ Changes found, the new total is, Amount _____ CFS _____ AFA

☐ More than 1" per Acre? Yes _____ (claimant must complete excess flow sheet)

NON-IRRIGATION USES:

☐ No change

☐ Changes Exam found: Domestic # of homes _____ Stock # 50 head mixed stock

Types _____ Additional comments: _____

PLACE OF USE:

☐ No Change

☐ Changes shown below:

Place of Use			NE				NW				SW				SE				Totals
TWP	RGE	SEC	NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	

Overlap with other water rights: _____

Does overlap increase rate of flow, volume, additional acres, different source for same acres? Explain:

Delivery System Narrative: piped to house for domestic use &
free-flow to pond for irrigation purposes.

Well or Diversion Identification No GPS ID	Motor Make	Hp	Motor Serial No.	Pump Make	Pump Serial No. or Discharge size

FLOW MEASUREMENTS: See Field Report.

deposes and says: In 1974 we purchased this property from
one of the two previous owners. The house was placed
on the property in the early 1960's at which time the
well was drilled & the adjacent pond was already
present. the well & adjacent pond has been & currently
used for drinking water, livestock or irrigation
for 2 homes, yards & gardens. there are presently
no large livestock on the property at this time.

RE: EVIDENCE OF PRIORITY
Snake River Basin Claim No(s): A63-21240

Dear Claimants,

In the past, you submitted the above referenced claim(s) during the Snake River Basin Adjudication (SRBA) claims taking. Enclosed is a computer generated print-out of the claim(s) for your reference only, it is not necessary to return this print-out. You indicated, when this claim was filed, that the water right(s) was based on either a "Statutory Claim" or "Beneficial Use" of the water. Water rights of this type are established by historical use of the water for a beneficial use purpose, dating back to the time the water was first used; this date being the "Priority Date" as shown on the enclosed print-out. Your claim(s) has not been confirmed by a previous filing with the Department of Water Resources since there is no decree, license, or permit on file to verify the use of this water. For this reason, the Department is required to gather evidence from claimants supporting the date of priority for claims based on historical beneficial use of water.

Enclosed is a pamphlet entitled "Evidence of Priority" which describes why evidence of the priority date is necessary, along with examples of types of evidence that can be submitted to fulfill this requirement. While I encourage you to read the entire pamphlet, I direct your attention to the two sections entitled. **"What Kind of Evidence is Required"** and **"Some Examples of Documents Which May Be Evidence of the Priority Date."**

It is important that each element of the Notice of Claim be substantiated. For instance, regarding claims for irrigation, the evidence should tend to show that diversion works were in place, that they were capable of diverting the claimed diversion rate, and that the diverted water was beneficially used on the entire claimed place of use on or before the claimed priority date.

If no evidence is submitted, or we do not hear from you within the time limit below, your priority date, as claimed, may not be recommended to the SRBA court for decree. This could jeopardize your water use under this right(s) if water availability problems arise in the future.

The required evidence supporting the priority date(s) requested needs to be submitted by March 1, 2006. Please let me know if you may not be able to submit proof of priority or have any questions not covered by this letter and the enclosed pamphlet, by the date indicated above.

In addition, since it is our goal to decree the historical water right within the Snake River Basin as accurately as possible, field exams are now being conducted by Department water resource agents to verify claims in this area. In the near future, you may be receiving a call from us in order to set-up an appointment for a field exam.

RE: Investigation of Water Right Claims in the Snake River Basin Adjudication, Basin 63

Dear Claimant:

As you may be aware, the Idaho Department of Water Resources (IDWR) is commencing its Snake River Basin Adjudication (SRBA) investigation of water rights in the Boise River Basin (Basin 63). This investigation is a major effort, and IDWR has hired a contractor, Water Works, Inc., to assist us with this task.

The purpose of this letter is to advise you that Water Works, Inc. might be contacting you to conduct a field investigation of your water use. This investigation is meant to provide important information to the IDWR Senior Water Resource Agent who will be making a recommendation for your water rights. Accordingly, we request that you provide Water Works, Inc. with access to your water diversion system so that their personnel can conduct this field examination. Water Works, Inc. will be gathering information on the rate of flow, diversion location and place of use of your water rights, and will be reporting this information to IDWR.

If you have sold your property in the Boise River Basin, we request that you forward this letter to the purchaser, so that the purchaser can report the new name and address to our office. If you are unable to forward this letter, please send any information regarding a new owner to our Western Regional Office located at 2735 Airport Way, Boise, 83705, (208) 334-2190.

The process of adjudicating your water rights is straightforward for most people, resulting in the issuance of decreed water rights on your property. Experience has shown that water users who work with our agency early in the process to ensure that their recordings are correct have a better experience than those who wait until IDWR has filed its findings with the SRBA Court. Thus, we encourage you to work with our staff and with Water Works, Inc. to ensure that the results accurately reflect your water uses.

Sincerely,

Jan Shurte
Adjudication Section Supervisor
Western Regional Office
