CONVERSATION MEMORANDUM

**RE: Snake River Basin Adjudication Water Right Nos. A63-21419
Evidence of Priority**

April 14, 2006

George Perry (#850-8137) called in response to the evidence of priority request he recently received in the mail. Mr. Perry said that he bought this property about 1 or 2 years ago. He also stated that the well is their "main source of water." "It's an artesian well, so it just bubbles out of the ground," he replied when I asked him about the diversion works.

Regarding evidence of priority, Mr. Perry said that he would try to contact the previous owner or see if Stanley Meholchick is still around. I gave Mr. Perry 2 more weeks to provide evidence.

RE: EVIDENCE OF PRIORITY

Snake River Basin Claim No(s): A63-21419 & A63-21420

③ Stanley Mehlochick
21500 Wells Rd
Caldwell 83605

Dear Claimants,

In the past, you submitted the above referenced claim(s) during the Snake River Basin Adjudication (SRBA) claims taking. Enclosed is a computer generated print-out of the claim(s) for your reference only, it is not necessary to return this print-out. You indicated, when this claim was filed, that the water right(s) was based on either a "Statutory Claim" or "Beneficial Use" of the water. Water rights of this type are established by historical use of the water for a specific use purpose, dating back to the time the water was first used as shown on the enclosed print-out. Your claim(s) has not been verified with the Department of Water Resources since there is no way to verify the use of this water. For this reason, the Department encourages claimants supporting the date of priority for claims based on

Enclosed is a pamphlet entitled "Evidence of Priority" which explains what evidence is necessary, along with examples of types of evidence that can fulfill this requirement. While I encourage you to read the entire pamphlet, please pay particular attention to the two sections entitled, **"What Kind of Evidence is Required" and "What Documents Which May Be Evidence of the Priority Date."**

It is important that each element of the Notice of Claim be supported by evidence. For claims for irrigation, the evidence should tend to show that diversions were capable of diverting the claimed diversion rate, and that the water was beneficially used on the entire claimed place of use on or before

If no evidence is submitted, or we do not hear from you within the time limit below, your priority date, as claimed, may not be recommended to the SRBA court for decree. This could jeopardize your water use under this right(s) if water availability problems arise in the future.

The required evidence supporting the priority date(s) requested needs to be submitted by **March 27, 2006**. Please let me know if you may not be able to submit proof of priority or have any questions not covered by this letter and the enclosed pamphlet, by the date indicated above.

In addition, since it is our goal to decree the historical water right within the Snake River Basin as accurately as possible, field exams are now being conducted by Department water resource agents
