INSTRUCTIONS

This form is used to file a late Notice of Claim or an amendment to a Notice of Claim in a reporting area where the Director's Report has been filed. Forms may be obtained from the SRBA Court, the Idaho Department of Water Resources (IDWR), or you may copy or reproduce this blank form. If you copy or reproduce this form, please copy on both sides with the even number pages upside down.

The water right number for your late or amended claim must be indicated above in the blank space following "Subcase." You must use a **separate form for each** late or amended Notice of Claim.

This form has been adopted by the court in ***SRBA Administrative Order 1, Rules of Procedure*** (amended Sept. 30, 1996), Section 4, which may be consulted for further information.

By filing a *Motion to File a Late Notice of Claim* or a *Motion to File an Amended Notice of Claim*, you certify that it is well-grounded in fact; is warranted by existing law or a good-faith argument for the extension, modification or reversal of existing law; and is not filed for any improper purpose, such as to harass, cause unnecessary delay, or needlessly increase the cost of litigation.

MOTION TO FILE LATE NOTICE OF CLAIM

A Motion to File a Late Notice of Claim will require a hearing before the Presiding Judge.

☒ I did not file a Notice of Claim to the use of water in the SRBA because:

The IDL uses water from ponds located on State land in northern Idaho for grazing and forest practices. IDL's forest practice uses include fire suppression, training for fire suppression, pesticide applications, and dust abatement related to timber harvest activities. IDL leases State land for grazing, and the lessees use the ponds for stockwater. The ponds are typically small in size and geographically dispersed across parcels of State land. IDL's process to accurately inventory the ponds was delayed due to the large volume of ponds and the dispersed locations of the ponds.

Legal questions also delayed IDL's filing of a Notice of Claim for these uses. Idaho Code Section 42-201(3) authorizes the diversion of water "from a natural watercourse and use[] at any time, with or without a water right" for two categories of water use. First, water may be used to "extinguish an existing fire on private or public lands, structures, or equipment, or to prevent an existing fire from spreading to private or public lands, structures or equipment endangered by an existing fire." Idaho Code § 42-201(3)(a). Second, water may be used for forest practices as defined by Idaho Code Section 38-1303(1) and dust abatement. Idaho Code § 42-201(3)(b). Idaho Code Section 38-1303(1) defines forest practice to mean

(a) the harvesting of forest tree species; (b) road construction associated with harvesting forest tree species; (c) reforestation; (d) use of chemicals

SCANNED

or fertilizers for the purpose of growing or managing forest tree species; (e) the management of slashings resulting from harvest, management or improvement of forest tree species; or (f) the prompt salvage of dead or dying timber or timber that is threatened by insects, disease, windthrow, fire or extremes of weather.

IDL was uncertain whether Idaho Code Section 42-201(3) would apply to all of its uses of water from the ponds. Ultimately, IDL concluded it would file a claim to provide certainty for its continued use of the ponds on State lands.

- ☐ I filed a Notice of Claim and elected to defer judicial proceedings on my domestic or stock watering use. I desire to reinstate my Notice of Claim for domestic or stock watering use.
- ☒ I am providing legal and factual documentation for my claimed use of water. You must described these documents and attach a readable copy. (You do not need to fill this out if you are reinstating a Notice of Claim for domestic or stock watering use, but you **must** attach a copy of your Notice of Claim.)

IDL's supporting documentation is included with the Notice of Claim, attached hereto. The Notice of Claim has three (3) attachments: Attachment 1 is a statement of claimed water purposes and quantity, Attachment 2 is a map of the pond locations, and Attachment 3 is Michael E. Denney's affidavit for proof of use with supporting evidence attached.

I have attached:

- ☒ A fully completed Notice of Claim (available from IDWR) is attached.
- ☒ A claim filing fee and a late claim fee for those claims other than domestic or stock water use for which a notice of claim was filed. To determine this amount, contact IDWR at (800) 451-4129. IDWR has advised that the claim filing fee for this notice of claim is \$104.00. IDL requests that IDWR initiate an SA-50 Interagency Billing Statement to bill IDL for the fees (see attached letter).

Follow these instructions regarding the hearing on this motion.

1. Contact the Clerk of the SRBA Court (208-736-3011) to request a hearing date and time.
2. Fill in the following information:

This motion will be heard on Tuesday, December 20, 2011, at 1:30 p.m.
at the SRBA courthouse, 253 Third Avenue, Twin Falls, Idaho.

Re: Fee Payment for Claim No. 81-12000

Dear Mr. Saxton:

The Idaho Department of Lands ("IDL") has prepared a late Notice of Claim for the above-referenced water right claim and will file a Motion to File Late Notice of Claim in the SRBA Court. In the event the SRBA Court grants IDL's motion, IDL requests that the Idaho Department of Water Resources initiate a SA-50 Interagency Billing Statement to bill IDL for the claim filing fee and the late claim fee.

If you have any questions, feel free to contact me at mdenney@idl.idaho.gov or 208-769-1577. Thank you for your assistance in this matter.

Sincerely,

Michael R. Denney

Idaho Department of Lands

Affidavit for Proof of Use

I reviewed Department Lands Records to determine time of use of water sources for dust abatement, fire control, and grazing.

Dust abatement is commonly applied to provide for safe access and to reduce road damage during timber sale activities and wildfires. Past sales and wildfires are shown on the map included in the application.

I also found in speaking with Fire Wardens and found that that the pond locations are inspected and maintained every two to three years to ensure access by fire engines, helicopters, water trucks, and portable pumps. They are used for fire training during these inspections and at other planned times.

This information is intended as supplemental proof of use following the earliest date found in our research as to when the pond was constructed for these and other uses.

Pond number(s) 42-5, 42-6, 42-10, and 42-20 were constructed no later than the date of the attached photograph showing the ponds location and was used as early as 8-18-1961, during the timber sales shown in the attached evidence.

The undersigned claimant further certifies that all information contained in the affidavit is true and correct, as of the date shown, and the signature below is his true and legal signature.
