I. FINDINGS OF FACT

A notice of claim was filed for this water right pursuant to I.C. § 42-1409. The Director of the State of Idaho Department of Water Resources examined the water system for this reporting area. The *Director's Report* contained a recommendation for the elements of this water right.

Objections and *Responses* were filed by various parties. A *Motion to File Amended Notice of Claim* was filed on August 19, 2010 by multiple claimants to assert a recovered water/recharge theory (hereafter "rec/rec"). That theory and the related *Amended Claims* were later withdrawn by the claimants in consolidated subcase 00-92020.

Subsequently, IDWR reviewed its *Director's Reports* for the rec/rec subcases to insure that it had included the elements from prior decrees, licenses and transfers. This subcase was identified by IDWR as one of the 64 subcases which needed no change. *Joint Order Setting Deadlines and Status Conference*. (Subcase 00-92020, July 5, 2011, Exhibit 1)

A Status Conference was held on August 3, 2011 in subcase 00-92020. At the hearing, the parties agreed to resolve all *Objections* and *Responses* to the 64 subcases by oral *Stipulation* on the record. The parties agreed that this subcase be recommended and decreed with the elements of the original *Director's Report*.

A *Special Master's Report and Recommendation* was issued for this water right on September 15, 2011. A Status Conference was held on October 19, 2011. At the hearing, the United States Bureau of Land Management notified the Court that a *Special Master's Report and Recommendation* for this water right was issued without resolution of the BLM's *Objection*. They informed the court that including the remark "Place of use does not include federal public lands" under the place of use element would resolve the BLM's *Objection*. There was no opposition to including the remark.

This *Amended Special Master's Report and Recommendation* includes the remark "Place of use does not include federal public lands" under the place of use element. No other corrections or changes have been made to the *Recommendation*.

II. CONCLUSIONS OF LAW

Therefore, based on the file and record herein, IT IS RECOMMENDED that this water right be decreed with the elements set forth in the attached *Special Master's Recommendation for Partial Decree*.

DATED: October 24, 2011.
