RE: Error in SMRR for Subcase No. 21-7305

Dear Janet,

It recently came to the Department's attention that the Special Master's Report and Recommendation issued for 21-7305 contains an error. The above subcase is uncontested and overlaps with water right number 21-7138. Recently, some changes were made to water right number 21-7138 as part of the first round of "rec/rec" review which required revising water right number 21-7305. Specifically, the period of use should be updated to reflect the underlying license and a quantity remark (also present on the license) should be added because the two rights share a common system.

Enclosed please find the revised recommendation for 21-7305 in overstrike/underscore format correcting the error.

Please let me know if the Department can be of further assistance in this matter.

Sincerely,

Andrea Courtney
Deputy Attorney General
