RE: 77-2068A, 77-10030, 77-10030

Dear Mr. Bardley

We have taken the following actions on you Notices of Reply:

77-10031 – we changed the map to show a different size for the place of use. There is nothing in the file explaining an ownership for Luke & Chenoa Bradley. If it is a change of ownership then we need a change of ownership and a legal document listing the change.

77-2086A – the acreage has been changed to 10 acres and the HES has been changed to HES 49.

77-10031 – the original claim listed 6 acres of irrigation and no storage. We have no evidence that you are doing any irrigation for November 1 to March 14. Again the ownership of Luke & Chenoa Bradley is the same.

Sincerely,

A handwritten signature in black ink, appearing to read 'Knoblock', written over a horizontal line.

Kenneth Knoblock
Water Resources Agent

RECEIVED
MAR 02 2006
IDWR/North

1. Describe the portion of the proposed recommendation with which you disagree (e.g. priority date, period of use, source):

This section of land is only 10 acres not 15 acres. It has second water rights. It is HES 49 not HES 341.

2. Describe the changes you wish to make in the proposed recommendation:

10 acres north of Carlson Creek. ~~See~~ Second priority water rig HES 49.

3. Give a brief explanation as to why you disagree with these portions:

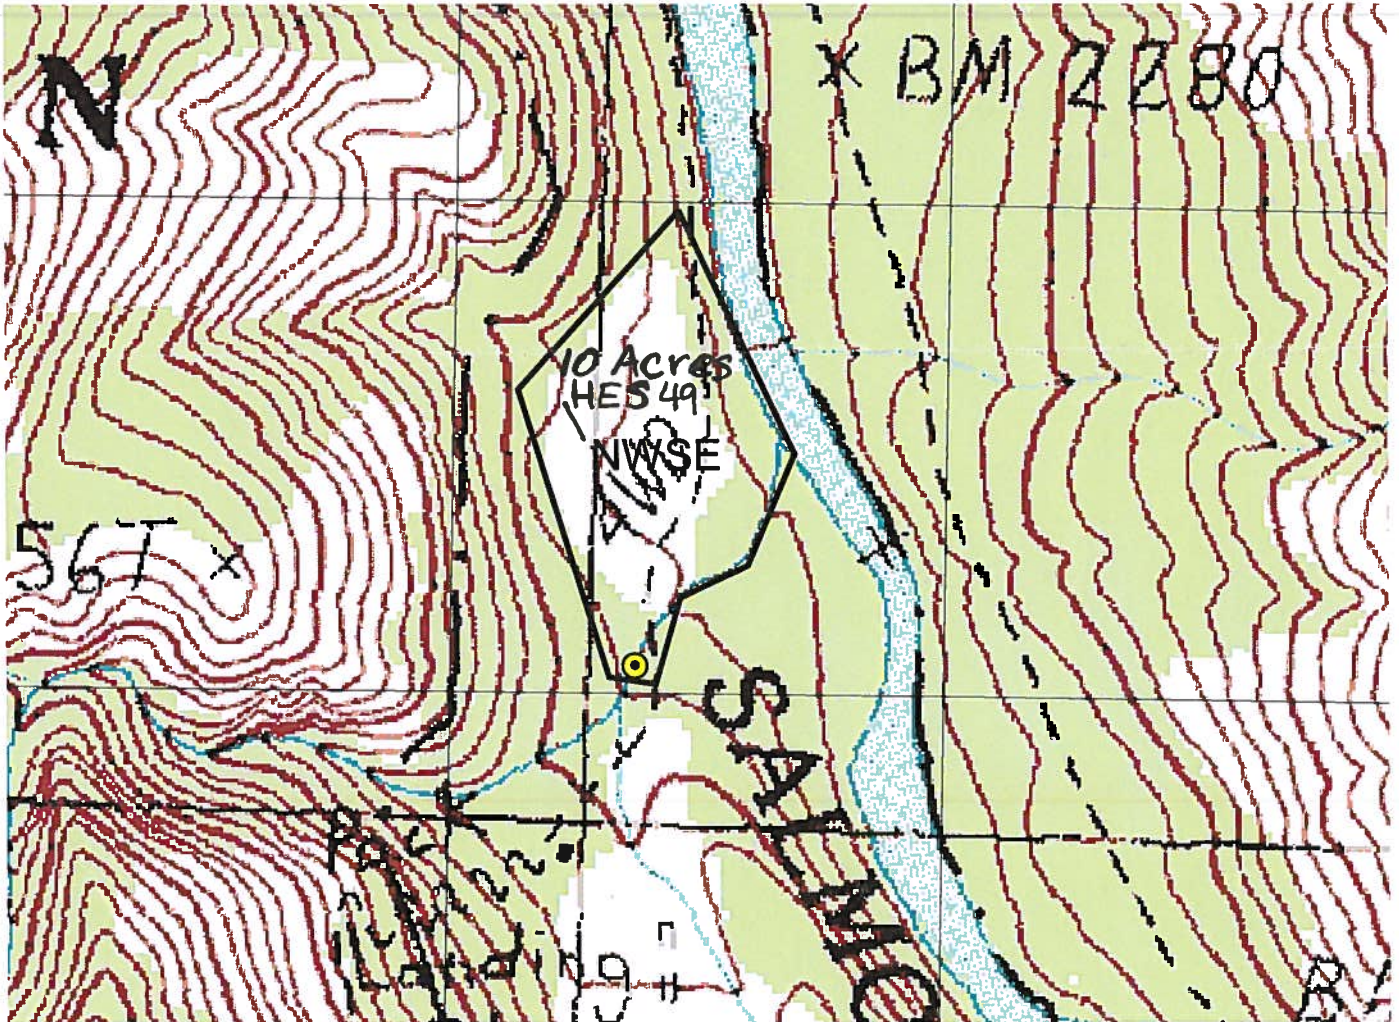

I have not irrigated this land for 20 years due to lack of water. A survey shows it is 10 acres of land that could be irrigated if there is enough water out of Carlson Creek.

☐ I AGREE with this proposed recommendation: no changes need to be made.

OATH OF ASSISTANTS

We hereby certify that we assisted Frank D. Maxwell
Surveyor - Forest Service in surveying all those
 [Forest Service Title]

parts or portions of Homestead Entry Survey No. 341, in the State
 of Idaho, which are represented in the following field notes
 as having been surveyed by him and under his direction; and that said
 survey has been in all respects, to the best of our knowledge and
 belief, well and faithfully surveyed, and the corner monuments estab-
 lished, according to the instructions furnished by the United States
 Surveyor General for Idaho

David H. Moody (Chairman)
Frank F. Felt (Chairman & Secy)

Subscribed and sworn to before me this 3d day of

October, 1915.

Frank D. Maxwell
Surveyor - Forest Service

OATH OF SURVEYOR

I, Frank D. Maxwell, Surveyor - Forest Service
 [Forest Service Title]

do solemnly swear that, in strict conformity with the special instruc-
 tions of the United States Surveyor General for Idaho, dated
March 27, 1915, and the laws of the United States, I have
 well, faithfully and truly, in my own proper person, surveyed a tract
 of land embraced in application No. 92, dated
Oct. 1, 1915, and embraced in

Patent, No. 4-1168, dated March 14, 1913, for
Patent, under the Act of June 11, 1906,
 the same to be known as Homestead Entry Survey No. 341
 situated within the Idaho National Forest, in
 surveyed Sections 13-24, Township 23 N., Range 7 E., and
 surveyed Section 13, Township 23 N., Range 7 E.

of the Boise Base and meridian, Idaho, and the
 related retracements and resurveys and section subdivisions, which are
 represented in the following field notes as having been surveyed by me;
 and I further solemnly swear that all the corners of said survey have been
 established and perpetuated in strict accordance with the stated special
 instructions, and in the specific manner described in the field notes,
 and that the following are the original field notes of such survey.

Frank D. Maxwell
Surveyor - Forest Service
 [Forest Service Title]

Subscribed and sworn to before me this 30th day of

November, 1915.

Composite Survey

Adrian Carlson, applicant for listing, application No. 42, dated March 24, 1911, and application No. 92, dated October 1, 1915. Authority: Special Instructions dated March 27, 1915, for H. E. Survey No. 341.

Claim situated in unsurveyed Secs. 13 and 24, T. 23 N., R. 7 E., of the Boise Base and Meridian, Idaho, in the Idaho National Forest.

Authority contained in the Acts of June 11, 1906, and March 4, 1915.

Survey commenced Oct. 1, 1915, and executed with W. and

L. E. Gurley Light Mountain Transit No. 11930,

equipped with Burt Solar attachment, the horizontal limb having two double verniers placed opposite each other and reading to single minutes of arc.

Measurements made with a Lufkin 2-chain tape, graduated

to links and tenths. A clinometer was used to de-

termine slope angles and measurements reduced to

true horizontal distances. I examine the adjust-

ments of the transit, finding all adjustments

correct.

Oct. 1, 1915, at apparent noon, near claimant's house,

I set off $2^{\circ} 58'$ S. on the declination arc, and

observe the sun on the meridian, the resulting

latitude is $45^{\circ} 20\frac{1}{2}'$ N., which agrees with other

data.

Oct. 1, 1915, at point near claimant's house, at 6 h.

50 m., P.M., 1.m.t., I begin to observe the eastern

progress of Polaris; when the star begins to recede

I mark the maximum position in azimuth upon the

ground, by a stake firmly set, centered with a

tack, 5 chs. dist. from my station.

Latitude previously stated.

Longitude $115^{\circ} 25'$ W. from special instructions.

MICROFILMED

OCT 05 1992

Chains

Oct. 2, 1915, at 7 h. 45 m., A.M., l.m.t., I lay off the azimuth of Polaris, $1^{\circ} 37' 30''$ to the west, and mark the meridian thus determined by a stake, firmly set, centered with a tack, 5 chs. dist. from my station.

Oct. 2, 1915, at the same station at 8 h. 20 m., A.M., l.m.t., I set off $45^{\circ} 20' 1''$ N. on the latitude arc, $3^{\circ} 17' 45''$ S. on the decl. arc, and determine a meridian with the solar. This meridian coincides with the Polaris meridian.

Oct. 2, 1915, at the same station, at 3 P.M., l.m.t., I set off $45^{\circ} 20' 1''$ N. on the latitude arc, $3^{\circ} 24' 1''$ S. on the decl. arc, and determine a meridian with the solar. This meridian agrees with the polaris meridian within 1 minute of arc. I therefore conclude the solar attachment is in adjustment. The solar attachment was thoroughly tested by A.M. and P.M. observations on the Standard meridian at Boise, Idaho, on Sept. 20, 1915, and found to be correct.

Mean Mag. Declination $21^{\circ} 00' E.$

Beginning at Cor. No. 1 of this survey, identical with Cor. 14 of H.E.S. No. 49, survey accepted, a granite stone, firmly set, $18 \times 12 \times 10$ ins. above ground, mkd. and witnessed as described by the Sur. Gen.
