Dear Mr. Knoblock;

I am writing to provide you with the information which was requested during our telephone conversation on February 22nd 2006. It is concerning the piping locations for water usage from the spring involved with the preliminary recommendation number RE: 77-2117. The recommendation states that we irrigate two acres but I believe we are irrigating closer to three acres. You mentioned that a visit to this location was how the two acre figure was generated. I have enclosed a copy of the map which you sent me, and an enlarged section of that map. Let me explain the color coding on the enlarged map. Brown is the U.S. Forest Service road. The red dashed lines indicate our property boundary line. The dark blue line is Silver Creek. The orange lines depict the above ground irrigation pipes. These are black plastic. They originate as spring box overflow and provide drinking water for the public as per instructions in our use permit with the U.S. Forest Service for a 40 foot transmission line through their land. Next the overflow runs under the road in a culvert and drops into a cattle trough for collection. A two inch pipe runs above ground teeing off to different locations which end in movable sprinkler heads. The light blue line is the underground pipe which originates at the spring box and continues underground its entire length. The three x marks represent hose bib locations. This is primarily culinary water but it is also used for irrigation around the cabin and the grass field near the original shed location. I believe this pipe line was not found by the observation team which was sent out by the Department of Water Resources. I estimate that the acreage under irrigation by the orange colored line is two acres and the blue colored line is one acre.

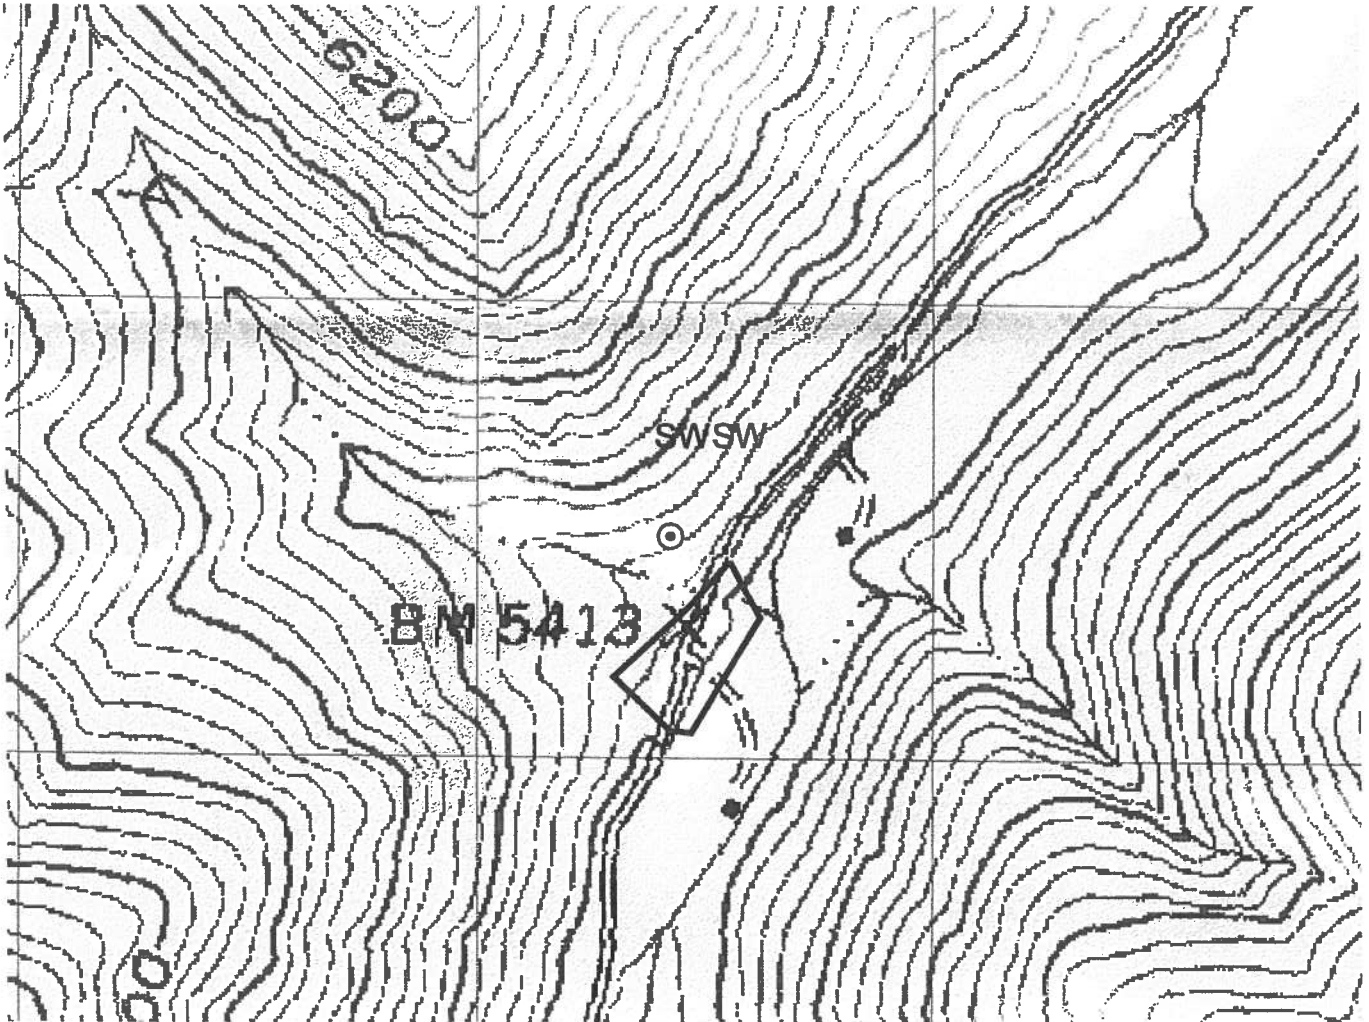

If you need any further information please contact me at 801-489-8597.

Sincerely ,

Robert I. Bailie

RE: 77-2117

We have processed your Snake River Adjudication Claim. A copy of the preliminary recommendation and a map are enclosed. The license upon which this claim was based on listed 2 acres of irrigation. We are recommending 2 acres of irrigation. If you can prove that there are more than 2 acres being irrigated please let us know as soon as possible.

MOST CAMPGROUNDS LISTED ARE DESIGNATED CHARGE AREAS UNDER THE LAND AND WATER CONSERVATION FUND ACT. DESIGNATED SITES WHERE THE PERMIT IS REQUIRED ARE CLEARLY MARKED.

"The Forest Service of the U. S. Department of Agriculture is dedicated to the principle of multiple use management of the Nation's forest resources for sustained yields of wood, water, forage, wildlife, and recreation. Through forestry research, cooperation with the states and private forest owners, and management of the National Forests and National Grasslands, it strives — as directed by Congress — to provide increasingly greater service to a growing Nation."
