	)	and 22-11260

I. FINDINGS OF FACT

A notice of claim was filed for each of these water rights pursuant to I.C. § 42-1409. The Director of the State of Idaho Department of Water Resources examined the water system for this reporting area. The *Director's Report* contained recommendations for the elements of these water rights.

Objections and *Responses* were filed by various parties. A *Motion to File Amended Notice of Claim* was filed on August 19, 2010 by multiple claimants to assert a recovered water/recharge theory (hereafter "rec/rec"). That theory and the related *Amended Claims* were later withdrawn by the claimants in consolidated subcase 00-92020.

Subsequently, IDWR reviewed its *Director's Reports* for the rec/rec subcases to insure that it had included the elements from prior decrees, licenses and transfers. This subcase was identified by IDWR as one of the 55 subcases which needed changes due to omission of elements from prior decrees, licenses, or transfers. *Joint Order Setting Deadlines and Status Conference*. (Subcase 00-92020, July 5, 2011, Exhibit 2)

A Status Conference was held on August 3, 2011 in subcase 00-92020. At the hearing, the parties agreed to resolve all *Objections* and *Responses* to 51 of the 55 subcases by oral *Stipulation*

on the record. The parties agreed that this subcase be recommended and decreed with the elements of the *Amended Director's Report* previously sent to the parties by IDWR.

A. Digital Boundary

The place of use for each of these rights is a digital boundary and is illustrated by the map overlay attached to the *Recommendation for Partial Decree*. The digital boundary for the place of use is described on a CD-Rom filed with the court.

II. CONCLUSIONS OF LAW

Therefore, based on the file and record herein, IT IS RECOMMENDED that these water rights be **decreed** with the elements set forth in the attached *Special Master's Recommendations for Partial Decrees*.

DATED: November 4, 2011.
