		27-12213, and 27-12214

I. FINDINGS OF FACT

The Idaho Department of Water Resources alerted the SRBA Court regarding clerical errors contained in the *Director's Reports* for 22 subcases in Basin 27. These water rights were identified as subcases that contained that clerical error. A *Notice of Completed Administrative Proceeding* was filed on July 14, 2010 which resulted in splitting the former parent right 27-11199 into assigned split right numbers 27-12213 and 27-12214.

A hearing was held on September 28, 2011. At the hearing, IDWR explained that it recommends changing the legal description for the point of diversion for these rights. The physical location of the point of diversion has not changed, but the *Director's Report* named the wrong quarter quarters or lot numbers. The proposed changes were sent to the claimants attached to the *Second Order Setting Status Conference Regarding Correction to Point of Diversion*. (September 8, 2011)

The claimants failed to attend the hearing and thus failed to show why these water rights should not be recommended with the attached proposed elements. There was no opposition to the proposed correction to the legal description for these rights. Therefore, these water rights will be recommended consistent with the *Amended Director's Report* attached to the *Second Order Setting Status Conference Regarding Correction to Point of Diversion*. (September 8, 2011)

II. CONCLUSIONS OF LAW

Based on the file and record herein, IT IS RECOMMENDED that water right 27-11199 **not be confirmed** in any partial or final decree. IT IS FURTHER RECOMMENDED that water rights 27-12213 and 27-12214 be **decreed** with the elements as set forth in the attached *Special Master's Recommendations for Partial Decrees*.
