	)	WATER RIGHT NO.: 27-10370

I. FINDINGS OF FACT

The Idaho Department of Water Resources alerted the SRBA Court regarding clerical errors contained in the *Director's Reports* for 22 subcases in Basin 27. This water right was identified as one of the subcases that contained that clerical error.

A hearing was held on September 28, 2011. At the hearing, IDWR explained that it recommends changing the legal description for the point of diversion for this right. The physical location of the point of diversion has not changed, but the *Director's Report* named the wrong quarter quarters or lot numbers. The proposed changes were sent to the claimant attached to the *Second Order Setting Status Conference Regarding Correction to Point of Diversion*.

The claimant failed to attend the hearing and thus failed to show why this water right should not be recommended with the attached proposed elements. There was no opposition to the proposed correction to the legal description for this right. Therefore, this water right will be recommended consistent with the *Amended Director's Report* attached to the *Second Order Setting Status Conference Regarding Correction to Point of Diversion*. (September 8, 2011)

II. CONCLUSIONS OF LAW

Based on the file and record herein, IT IS RECOMMENDED that this water right be decreed with the elements set forth in the attached *Special Master's Recommendation for Partial Decree*.

DATED: November 10, 2011.
