CONVERSATION MEMORANDUM

RE: Snake River Basin Adjudication Water Right No. A63-28288 & A63-28289

May 4, 2004

Claimant Bill Luna called the office, since he is in the process of selling his property and the buyers are postponing any further signing of papers until they have proof of valid water rights.

Since Karan Waters conducted a field exam on claim #63-28288, I was able to tell Mr. Luna that she tagged the well, GPSed its location, and did a theoretical that substantiates that the amount he claimed for irrigation is feasible. In addition, the shapefile enclosed in the file shows that the area was irrigated in 1987.

Regarding claim #63-28289, Karan Waters did not conduct a field investigation, but the enclosed shapefile that she created shows that the 12 acres were irrigated in 1987.

After sharing this information with Mr. Luna, I stated that we would not be reviewing these two Canyon County claims for several months, but that based on my quick review, I did not see any "red flags" or anything that would cause any problem in being able to recommend them. Although, since Mr. Luna signed the original Notices of Claim and it may prove difficult for the new owners to substantiate the priority date that he claimed, I did suggest that he fill-out an Affidavit as evidence of priority and return it to our office. In addition, since Mr. Luna did not have a copy of his claims, I faxed him copies of both Notices of Claim (and a blank Affidavit form).
